Sub: Notice of the Annual General Meeting along with Integrated Annual Report of the Company for the financial year 2025-26

Dear Sir,

This is to inform you that the Thirtieth Annual General Meeting (**"AGM"**) of the Company will be held on **Thursday, June 25, 2026 at 2.30 p.m. IST** through Video Conference / Other Audio Visual Means in accordance with the applicable circulars issued by the Ministry of Corporate Affairs and the Securities and Exchange Board of India.

Pursuant to Regulation 34(1) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**"SEBI Listing Regulations"**), we are submitting herewith the Integrated Annual Report of the Company along with the Notice of AGM and Business Responsibility and Sustainability Report for the financial year 2025-26, which is being sent through electronic mode to the Members.

As per Regulation 36(1)(b) of the SEBI Listing Regulations, the letter mentioning web-link including the exact path, where complete details of the Annual Report are available, is being sent to those member(s) who have not registered their email address(es) either with the Company or with any Depository or Registrar and Share Transfer Agent (RTA) of the Company.

We would like to further inform that the Company has fixed **Thursday, June 18, 2026** as the **cut-off date** for ascertaining the names of the members holding shares either in physical form or in dematerialised form, who will be entitled to cast their votes electronically in respect of the businesses to be transacted as per the Notice of the AGM and to attend the AGM.

The Integrated Annual Report containing the Notice is also uploaded on the Company's website and can be accessed at www.adanipower.com.

This is for your information and records.

Thanking you.

Yours faithfully,
For Adani Power Limited

Accelerating Infrastructure,

Leveraging Intelligence.

Adani Power Limited
Integrated Annual Report 2025-26

Thermal Power

Building speed, scale, and intelligence that tomorrow's India demands.

For years, the Adani portfolio of companies has demonstrated its ability to create critical large-scale infrastructure across energy, transport, logistics, and utilities through disciplined execution and capital allocation.

We are now entering the next phase of growth and scalability, where our accelerated pace of infrastructure expansion is not just powered by capital and construction, but also by intelligence. We are integrating

enabling a new paradigm of speed, intelligence, and impact, designed to maximise value creation and power India's next phase of growth.

Ubhay Tomar
Adani Power,
Operations & Maintenance,
Kawai, Rajasthan.

Ensures reliability of critical plant systems through focused maintenance of BOP infrastructure, supporting operational continuity at Adani Power.

The transformative changes we are making will ensure we are ready for the next phase of our growth

- United Nations Sustainable Development Goals (UNSDGs)

Reporting Scope, Boundary and Period

This report encompasses Adani Power Limited's corporate functions, APL assets and its subsidiaries-thermal power plants and solar power plant. The scope reflects the Company's operational and financial

term. Material topics are identified through internal assessments of our strategy, business model, stakeholder expectations and the external environment. Issues identified through our FY 2023-24 materiality assessment are already integrated into long-term planning and are reviewed annually to refine strategic focus and ESG priorities.

Six Capitals that Drive Value at Adani Power

Financial capital: Our funding strength and capital management discipline that minimises project risks and financing costs, supporting growth and stakeholder value creation

Manufactured capital: Our power assets and technology investments that enhance productivity, efficiency and operational consistency

Intellectual capital: Our knowledge and experience in power generation sector that strengthen competitiveness and support market leadership

Human capital: Our people's skills, capabilities and development initiatives that drive performance and industry readiness

Social & Relationship capital: Our stakeholder relationships, including customers, vendors and communities, that enable business continuity and social impact

Natural capital: Our environmental stewardship focuses on minimising impact, conserving resources and meeting regulatory expectations

Material Topics

- M1 Air Emissions
- M2 Waste Management
- M3 Water Management
- M4 Lifecycle Management of Assets
- M5 Resource Efficiency and Management
- M6 Biodiversity and Natural Resource Management
- M7 GHG Emissions and Climate Change Management
- M8 Occupational Health and Safety
- M9 Community Engagement
- M10 Diversity, Equity and Inclusion
- M11 Labour Practices
- M12 Employee Development and Talent Retention
- M13 Supply Chain Management
- M14 Business Ethics and Integrity Digitalisation
- M15 Innovation and R&D
- M16 Risks and Crisis Management
- M17 Data Privacy and Information Security

Risk Categorisation

Business risks

- R1 Mergers and acquisitions Risk
- R2 Regulatory Risk
- R3 Commodity price Risk
- R4 Reputation Risk

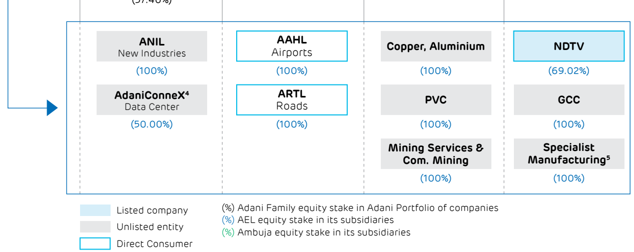
Strategies

- S1 Expand capabilities to deliver the nation's energy needs
- S2 To contribute towards low carbon economy
- S3 Leveraging digital technology to enhance sustainable business delivery
- S4 Achieve benchmark operations, attain market leadership, and outperform set objective

The Adani portfolio of companies is India's largest integrated infrastructure platform, synonymous with national progress, scale, and purpose. Over the years, it has consistently delivered best-in-class growth with robust cash flows and financial discipline. The portfolio is today among India's largest contributors to national revenues and taxes, and most trusted corporate groups, redefining economic development.

Guided by a nation-first ethos, the Adani portfolio of companies is investing at scale in critical infrastructure and new-age sectors to enable 'Viksit Bharat'. It is equally committed to sustainable development and creating value for all stakeholders, with the philosophy of 'Growth with Goodness' at its core.

At the Adani portfolio of companies, every action, every idea pursued and every forward leap is driven by the goal of making India rise stronger, stand self-reliant, and thrive sustainably.



1. ATGL: Adani Total Gas Limited, JV with TotalEnergies.
2. Ambuja Cement's shareholding does not include Global Depository Receipt of 0.04% but includes AEL shareholding of 0.35% received as part of the consideration against transfer of Adani Cementation Limited as per NCLT order dated July 18, 2025.
3. Cement includes 67.64% (67.68% on voting rights basis) stake in Ambuja Cements Limited as on March 31, 2026 which in turn owns 50.05% in ACC Limited. Adani directly owns 6.64% stake in ACC Limited and Ambuja Cements Limited holds 72.66% stake in Orient Cement Limited. With effect from March 12, 2026, Sanghi Industries Limited has been merged into Ambuja Cements Limited as per NCLT order dated February 9, 2026. On April 10, 2026, Ambuja issued 1,29,93,708 equity shares to the eligible shareholders of Sanghi. Accordingly, Promoters Shareholdings in Ambuja stands revised to 67.29% (67.33% on voting rights basis) w.e.f. April 10, 2026.
4. Data center, JV with EdgeConnex.
5. Includes the manufacturing of Defence and Aerospace Equipment.

AEL: Adani Enterprises Limited | APSEZ: Adani Ports and Special Economic Zone Limited | AESL: Adani Energy Solutions Limited | T&D: Transmission & Distribution | APL: Adani Power Limited | AGEL: Adani Green Energy Limited | AAHL: Adani Airport Holdings Limited | ARTL: Adani Roads Transport Limited | ANIL: Adani New Industries Limited | IPP: Independent Power Producer | NDTV: New Delhi Television Limited | PVC: Polyvinyl Chloride | GCC: Global Capability Centre I Promoter's holdings are as on March 31, 2026.

Global Credibility and Investor Confidence

- Four of thirteen* publicly traded companies are Investment Grade (IG)-rated
- India's only Infrastructure Investment Grade bond issuer
- Healthy debt profile, with 40% debt carrying an average maturity of 82 months and finance cost at 23% of EBITDA
- Best-in-class growth with predictable, high and rising free cash flow; FY 2019-26 CAGR of 27.0% in fund flow from operations (FFO) and 21.2% in EBITDA

* Four of thirteen publicly traded companies are Investment Grade (IG)-rated. Listed entities also include Cemindia Projects Limited, PSP Projects Limited and Punj Lloyd Limited

Enabling India's Rise in the Global Intelligence Revolution

Planned investment of USD 100 billion in building hyperscale AI-ready data center ecosystem over the next decade, to position India as a creator and exporter of intelligence rather than just a consumer.

Purpose-Driven Progress: 'Growth with Goodness'

Thermal Power Plant at Raipur, Chhattisgarh

demand is expanding at a significant pace

India stands among the fastest-growing electricity markets, with peak demand projected to rise from 250 GW in FY 2024-25 to 388 GW by FY 2031-32, while total energy demand is expected to reach 2,474 BU. Urbanisation, industrial expansion, and the emergence of energy-intensive sectors such as data centres are driving this growth.

Thermal Power Plant at Tiroda, Maharashtra

18,150 MW, with the acquisition and rapid revival of the 600 MW Butibori plant. Our growth trajectory remains well defined, supported by a locked-in pipeline of 23,720 MW and clear demand visibility.

This expansion reflects our approach to capacity creation, aligned with long-term supply arrangements.

41,870 MW

Planned Installed Capacity by FY 2032

Thermal Power Plant at Mundra, Gujarat

Availability-linked tariffs support steady cost recovery, backed by high uptime and efficient operations. Presence across key industrial regions, combined with competitive costs and flexible fuel strategies, keeps the system responsive as it continues to scale.

100%

BTG secured for 23.7 GW pipeline

..whereas, intelligence, moving alongside infrastructure, is enabling sustained performance

This is where systems are becoming sharper across operations. A connected data architecture now brings plant, fuel, and enterprise data into a unified view, enabling decisions to be taken with greater speed and clarity. Real-time monitoring through centralised control systems allows continuous visibility across assets, while analytics-led interventions guide

As scale expands, execution and intelligence begin to move together, each strengthening the other

Growth at this scale asks for a finer balance.

Between momentum and control, between building more and building right.

In this balance,

Accelerating Infrastructure brings strength to decisions and purpose to systems,

while **Leveraging Intelligence** gives direction to progress.

capacity, supported by India's growth, rising power demand and the focus on energy security. Coal-based thermal capacity remains an essential component of India's generation mix, enabling renewable integration and ensuring adequate base load supply to meet growing peak demand. Government estimates up to 100 GW of additional thermal capacity by FY 2031-32, creating a significant opportunity for committed and capable players. Against this backdrop, our expansion programme is positioned to provide efficient and reliable generation capacity at competitive costs and deliver sustained value for our stakeholders.

3. PPAs for 5.5% capacity yet to be operationalised

FY 2025-26 was one such year for your Group.

Even though it was a year in which the world grew more fractured, complex energy security models returned to the centre of national strategy and technology became inseparable from sovereignty, your Adani Group remained anchored to an unwavering belief – India's future cannot wait.

While others debated, your Group built, advancing its journey as the world's most integrated infrastructure platform – across energy, transport, logistics, utilities and industrial manufacturing.

- Gautam Adani

However, we did not bend. We did not pause.

Because what we have always been defined by is:

Not the noise that surrounds us, but the strength of our response.

Not the intensity of the challenge, but the clarity of our purpose.

Not the criticism, but the nation-building we continue to believe in.

And today as we move forward, I am pleased to say that the matters related to our US legal proceedings are now behind us thereby allowing us to focus with renewed confidence and belief on the next phase of our growth.

And just one example of this belief was our recent ₹ 24,930 crore Rights Issue in Adani Enterprises. This was more than a capital event. I saw it as a referendum on our credibility. It was one of the largest rights issues in the history of India Inc and your response

and industrial ecosystems that make national growth possible.

The second engine, intelligence, is the use of AI, automation, predictive systems, digital platforms, real-time analytics and machine-led decision support to make every one of these assets more productive, more resilient, more efficient and more responsive.

Infrastructure gives a nation muscle. Intelligence gives it mastery. And both, today, are inseparable.

It is in this context that, in 2021, at an international forum, I had said that the demand for energy to power data centres would be infinite.

That was not a provocation. It was a conviction.

It was a forward-looking vision, rooted in how we saw the world evolving. We believed that the

saw that energy would become the pre-condition of intelligence.

Because:

Before AI can think, energy must flow.

Before data can move, infrastructure must stand.

Before the future can scale, the foundations must be built.

Therefore, today, we are one of the very few global companies that are not reacting to the future. We have been positioning for this day for years. We saw early that the world was entering a new era, one where geopolitical fault lines would deepen, supply chains would fragment, energy security would return as a strategic priority and the race for technological leadership would be constrained not by ambition, but by infrastructure.

Group is so well positioned. Our strategy anticipated these gaps. We invested not in isolated opportunities, but in integrated national capabilities. We were already building where the world is headed through a connected strategy that linked electrons, logistics, ports, transmission, data centres, industrial capacity and disciplined execution on the ground.

Allow me to elaborate.

From manufacturing our own solar panels to generating clean energy, to importing fuel through our own ports, to mining operations that feed our generation plants, we have the expertise to manage our own operations.

Our mining expertise, when combined with power generation as well as our ability to manage our own extensive transmission grid spanning tens of thousands

one unified platform.

This foresight is what sets your Group apart.

At a time when much of the world is still grappling with integration and scale, the Adani Group has already built its strategy with this unified vision at its core.

These investments are a testimony to our conviction that India's growth will be powered by the ability to connect the physical and digital worlds through energy infrastructure, technology platforms and execution at an unmatched scale.

So let me talk about some numbers to quantify the scale. With record capital investment of more than ₹ 1.5 lakh crore, we demonstrated that our long-held beliefs were not only correct but that we were fully prepared to seize the opportunities ahead. While much

within five years will make this India's largest gigawatt-scale BESS installation.

At Adani New Industries Limited, we commissioned India's first off-grid 5 MW Green Hydrogen pilot plant. As one of the largest hydrogen projects in India, this is a significant step toward strengthening India's clean energy future and reducing long-term dependence on imported energy pathways.

At Adani Energy Solutions Limited, our transmission order book rose from ₹ 59,936 crore to ₹ 71,779 crore. We secured major projects, including the Khavda South Olpad HVDC line, reinforcing our unmatched position as the only private sector player in India with HVDC capability, alongside the commissioning of Mumbai's first advanced VSC-based HVDC project.

and continue expanding our pipeline network at an accelerated pace, contributing to both cleaner and more efficient energy systems nationwide.

Coming to connectivity and logistics, Adani Ports handled over 500 million tons of cargo for the year FY 2025-26, thereby setting a stunning benchmark for the nation. With total capacity at 650 MTPA and a pathway to 1 billion tonnes by 2030, we are strengthening India's role in global trade.

5.1 GW

renewable capacity added at Adani Green Energy Limited

Over 19.3 GW

operational renewable portfolio

airport having been built in just over four years.

In digital and industrial infrastructure, we have made significant progress as our Data Centre business is well on its path towards building a 2 GW platform by 2030. A binding MoU for a gigawatt-scale data centre with Google, in Visakhapatnam, reflects both the scale of digital demand that lies ahead and the confidence that global technology leaders have placed in India's infrastructure future.

₹ 2,91,742 crore
consolidated revenue

₹ 46,377 crore
Profit after tax

and pilot training.

During Operation Sindoor, our drones, anti-drone systems, missiles and ammunitions supported our Armed Forces when it mattered most. Moments like these remind us that nation-building is not only about economics, but it is also about preparedness, technological self-reliance and sovereign capability.

All these businesses may appear different on the surface. But beneath the surface, they serve one purpose, to build the physical and digital backbone of India's next era.

Coming to financials, in FY 2025-26, your Group delivered a consolidated portfolio revenue of ₹ 2,91,742 crore, reflecting a growth of 7.4% year-on-year. EBITDA reached ₹ 94,833 crore, with a solid EBITDA/Interest ratio of 4.3, highlighting our

and digital nervous system of an emerging global superpower.

I am deeply optimistic about this belief. India's 1.4 billion people are about to be amplified by AI. When massive human potential meets infinite intelligence, the result is not just growth – it is a revolution. This is the opportunity that awaits us and I am betting on.

Because, for us, the era of capital scarcity is over. Our challenge has evolved from 'how do we fund it?' to 'how fast can we build it?' Our real challenge now lies in execution speed and deploying capital efficiently at the speed and scale required by our booming economy.

Therefore, to meet this moment, we must move beyond traditional management and embrace a model of active transformation. The four dimensions we

and empowerment across all stakeholders. By treating our partners as an extension of our own team, we can unlock massive scale and ensure that best practices are seamlessly integrated into every project we undertake. This, in turn, also helps us enable our three-layered structure.

Third, we are significantly enhancing our focus on nurturing talent from within and identifying future leaders who carry the Adani DNA. This commitment to meritocracy ensures cultural alignment and creates a resilient leadership pipeline that is now critical to managing our growth.

Fourth, the ultimate realisation of our vision depends on the Worker Dignity Model. By ensuring our frontline teams are cared for and their needs are met, we empower the 'last mile,' the critical stage where speed, uncompromising

are ready for the next phase of our growth – a phase where the acceleration of our capital deployment will expand our horizon and mark our shift from a period of rapid expansion to a legacy of enduring impact.

We do not build for the next quarter or next year – we build for the next chapter of India.

We do not chase headlines – we build hard assets that outlast them.

We do not fear turbulence – we use it to prove our endurance.

Above all, we do not see infrastructure as a business alone – we see it as a national force multiplier.

Therefore, allow me to close with words of gratitude.

- To our shareholders: Your resilience has been our shield. You have stood by us not

human side of this enterprise that the world rarely sees, providing the quiet strength behind our public efforts

The story of India is still being written, and its most defining pages are yet to come. Its best infrastructure is still to be built, its greatest intelligence revolution is still ahead, its boldest entrepreneurs are still emerging and its deepest inclusion is still unfolding.

We remain committed to the work ahead and are honoured to be the hands that help build a more dignified, resilient and empowered India.

Thank you.

Jai Hind.

Operational performance continues to be a key differentiator. We have maintained plant availability above 90% over several years, supported by a strong digital focus.

- Anil Sardana
Managing Director

As the largest private thermal power producer in the country, with a portfolio of 18,150 MW across multiple states, we operate with the flexibility to serve diverse demand centres and benefit from economies of scale.

- S. B. Khyalia
Whole-time Director and
Chief Executive Officer

demand, and supported by a secured expansion pipeline, long-term offtake visibility and digitally enabled operations that help convert scale into consistent outcomes

Where we operate

India's electricity sector is entering a sustained growth phase, supported by industrialisation, urban expansion and rising energy intensity across sectors. The momentum is being shaped by structural demand from emerging segments such as electric mobility, data centres and manufacturing-led growth.

The rise in demand is also strengthening the need for reliable base-load supply to maintain grid stability. Renewable energy continues to scale rapidly, yet its variable nature makes dependable thermal generation critical for balancing supply and supporting uninterrupted power availability. The evolving landscape emphasises a shifting towards consistent, responsive and reliable power supply, supported by systems that can manage complexity and sustain performance across cycles.

Read more about the power sector in our MD&A report at **Pg. 326**

Our rich experience and capabilities in coal sourcing and end-to-end logistics management provide us with greater control over input costs and supply reliability.

Our expansion is supported by high execution readiness, with land availability secured and equipment ordering completed for the entire growth pipeline. A higher share of brownfield projects enables faster commissioning and better capital efficiency. Long-term PPAs, backed by domestic fuel linkages and availability-based tariffs, provide visibility of revenues and stability of returns, reinforcing our position in a market where reliability is becoming increasingly critical.

Advancing our operational discipline

Our growth is anchored in one of the most significant capacity expansion programmes undertaken in the sector. We are progressing towards a targeted capacity of 41,870 MW by FY 2031-32, with plans to add approximately 23,720 MW on a medium-term basis. This scale of addition is materially higher than what has been achieved historically, with our existing portfolio of 18,150 MW built over nearly two decades. The pace and scale of this expansion

The power of embedded intelligence

As we scale, maintaining consistency across operations becomes increasingly critical. Our focus is on embedding intelligence within systems and processes to strengthen control, improve efficiency and sustain performance across our portfolio. This approach enables us to manage growing complexity while ensuring stability in operations.

We are leveraging the establishment of a centralised Energy Network Operation Center (ENOC) in Ahmedabad, which provides real-time monitoring and diagnosis of assets across multiple states. This platform enables optimised power scheduling and supports faster, data-led decision-making. Our use of AI/ML-driven analytics supports early-stage anomaly detection and predictive maintenance, improving mean time between failures and reducing unplanned outages. These capabilities are further supported by our Analytical Center of Excellence, which strengthens analytics adoption across operations, and by supply chain intelligence tools such as our fuel tracker, which enables real-time monitoring and optimisation of coal sourcing and logistics.

sustained performance.

Sustaining our performance

Our financial position reflects the strength of our operating model and the discipline underlying our growth strategy. We delivered a Continuing EBITDA of ₹ 21,285 crore in FY 2025-26, with reported EBITDA for the year ending March 2026 at ₹ 23,431 crore. This sustained performance is supported by high plant availability, efficient cost structures and stable offtake through long-term PPAs.

Our credit profile has strengthened significantly, with ratings of AA/Stable from CRISIL, ICRA, India Ratings and CARE, an eight-notch upgrade since 2020. This progression reflects improved earnings visibility and a resilient balance sheet, enhancing our ability to access capital on competitive terms and support long-term growth.

We maintain a healthy capital structure, with a net debt to continuing EBITDA ratio of 2.12x during the period. This provides adequate headroom to fund our expansion programme while preserving financial flexibility.

decision-making through Climate Change Risk Assessments across locations and the adoption of an internal carbon pricing framework. Our long-term roadmap towards Net Zero by 2070 is supported by a phased approach, combining near-term efficiency improvements with future technology adoption.

Our social investments are expanding in line with our growth. With our annual CSR commitment approaching ₹ 300 crore, and additional

Our approach to sustainability is integrated at the core of our operations. We focus on improving efficiency, strengthening governance and building long-term resilience

landscape presents significant opportunities. The demand outlook remains strong, and our focus will be on translating this momentum into sustained outcomes through disciplined execution, operational consistency and timely capacity addition.

To this end, we extend our sincere gratitude to our employees, partners and shareholders for their continued trust and support. Their confidence continues to guide our efforts. As we move forward, we remain committed to strengthening our capabilities and setting benchmarks that reflect consistency, discipline and long-term value creation.

Pioneering the Thermal Power Sector

World's Largest
greenfield TPP portfolio installed (9,240 MW) during 2008-2013

World's First
- coal-based TPP (Mundra Phase-III) granted carbon credits by the United Nations Framework Convention on Climate Change (UNFCCC)
- to develop a UNFCCC-approved methodology for high voltage direct current (HVDC) power transmission lines under Clean Development Mechanism (CDM)

World's Second
coal-based TPP (Tiroda Phase-I) to be registered for CDM with UNFCCC

World's lowest
footprint (on area/MW basis) for a coal-based power plant – 4,620 MW Mundra TPP spread across just 300 hectares

India's Largest
- private single-location coal-based power project TPP (Mundra TPP)

India's First
- 800 MW Ultra-supercritical power generation unit (Godda Unit 1)
- TPP with transnational power supply contract (1,600 MW ultra-supercritical TPP in Godda, Jharkhand)
- dedicated Rail Over Rail System for coal transportation

India's First and Largest
sea water-based Flue Gas Desulphurisation Plant (Mundra TPP Phase-IV)

India's Longest
HVDC system by private player – 989 km 500 kV HVDC bipole line with 2,500 MW transmission capacity, commissioned by APL (now part of AESL)

Building the digital intelligence foundation with Enterprise Data Lake

During the year, the Company initiated development of the Enterprise Data Lake (EDL), a centralised, scalable, and cloud-enabled data platform designed to strengthen enterprise-wide data integration and analytics capability.

The platform establishes a unified data foundation to support advanced analytics, Artificial Intelligence, and data-driven decision-making across operations and corporate functions.

Highlights

- Developed a centralised cloud-enabled data platform enabling enterprise-wide data integration
- Established standardised data management architecture across business systems and operational data sources
- Enabled advanced analytics capabilities spanning descriptive, diagnostic, predictive, and prescriptive analytics
- Strengthened the foundation for AI and machine learning deployment across operational and decision-making processes
- Enhanced organisational ability to generate actionable insights through integrated and scalable data infrastructure

Enhancing digital capability through eVidyalaya

eVidyalaya continued to serve as the Company's central digital learning platform, supporting organisation-wide capability development and digital inclusion. The platform aligned learning delivery with the group's digital dexterity agenda while fostering a culture of continuous learning and technological readiness.

Highlights

- Delivered structured digital learning programmes across locations supporting enterprise-wide digital transformation
- Rolled out additional learning modules supported by assessments and certification mechanisms
- Strengthened workforce readiness for emerging digital technologies and future operating environments

~98%

Learning completion rate, reflecting strong employee participation

Enabling intelligent operations through AI integration

Adani Power advanced the adoption of artificial intelligence (AI), machine learning (ML), and computer vision technologies to enhance operational oversight, improve decision-making quality, and strengthen safety monitoring. AI and computer-based analytical systems enabled deeper interpretation of operational data, supporting timely, data-backed interventions across critical processes and plant operations.

Highlights

- Applied AI and ML techniques for predictive and optimisation-oriented operational use cases improving asset performance visibility
- Enabled data-driven operational decision-making through enhanced interpretation of plant operating conditions
- Deployed AI-based image and video analytics for real-time monitoring, anomaly detection, and improved safety compliance
- Developed agentic AI chatbots supporting intelligent analytics and decision-support capabilities while reducing manual analytical effort

UNIT-2 EXCITER

- Cloud-based Energy Network Operations Centre (ENOC) for centralised monitoring
- Analytics Centre of Excellence for data-driven operations

operational data assets, strengthening insight-led decision-making

Human Capital

- 3,967 permanent employees
- 19,854 contract workforce
- 3.33% female representation
- 145,082 person-hours of training provided covering 100% employees
- 0.22 man-megawatt ratio

- Steady availability of manpower to support expansion program
- Structured workforce planning and contractor ecosystems enable rapid access to specialised skills

Social and Relationship Capital

- 15.8 GW of long-term and 1.6 GW of medium-term PPAs for existing capacity
- 100% of onboarded suppliers screened on ESG criteria
- 23 community development programmes implemented

- Proactive governance and disciplined stakeholder engagement reinforce trust and preserve the license to operate amidst growing scrutiny for thermal power players
- Long-term supplier relationships ensure reliable access to inputs and services

Natural Capital

- 7.66 lakh trees planted
- All thirteen operating plants maintain single-use plastic free premises (3rd party certified)

Responsible natural resource consumption:

- 15.25 million tonnes of coal consumption
- 223.4 million m^3 of water consumption
- 1,00,81,15,543.08 GJ of fuel

- Circular practices in waste management ensure maximising resource utilisation
- Water stewardship and secured fuel linkages ensure sustained access to critical natural resources
- Digital technology-led efficiency improvements, and investments in supercritical/ultrasupercritical technologies enhance resource availability across the plant lifecycle

Vision

Be a transformative force in power generation, empowering lives and contributing to the energy security of nations by providing sustainable, affordable and reliable power

Thermal Power Plant at Mundra, Gujarat

- Business process transformation
- Improvement of management systems

- Hiring youths adept in digital technology

Human Capital

- Training/skill development
- Higher employee productivity at ₹ 4.76 crore EBDITA/employee
- Lower attrition rate at 12.16%
- 0 LTIFR (Employees) & 0.07 LTIFR (Workers)

- Focus on upskilling and supervisory capability enhances workforce readiness for upcoming scale expansion
- Enable faster growth pathways and leadership opportunities for younger talent to build a future-ready workforce and improve productivity

Social and Relationship Capital

- Fulfilling energy needs of society
- CSR activities spread across all our operational locations, including three aspirational districts (Baran, Godda, Singrauli)
- Total number of beneficiaries from CSR activities: 18,19,615
- 17.8% Procurement spent on local suppliers

- Replacing multiple plant-level contracts with one integrated O&M business partner to sharpen accountability, coordination, and performance
- Leveraging mine-to-plant coal logistics partnerships to maintain supply reliability and stronger vendor coordination

Natural Capital

- Responsibly limiting our impact and adhering to guidelines and regulations
- 0.86 tCO_2e/MWh GHG emissions intensity
- 113% ash utilisation
- 2.13 m^3/MWh water intensity
- 16.8 million MT ash generated,
- 0.3 Million tonnes CO_2e avoided due to biomass co-firing
- 3.7 Million tonnes CO_2e avoided due to fly ash utilisation for clinker production in Cement Industry

- Reduce emissions intensity through efficiency improvements and advanced thermal technologies and consistency across the process. Oversight is provided by the Corporate Responsibility Committee, which reports engagement outcomes to the Board of Directors.

investors, analysts, and shareholders. We set clear targets, review performance regularly, and disclose progress to reinforce accountability and strengthen stakeholder trust.

Enterprise Risk Management (ERM) framework aligned with global best practices and Indian regulatory requirements, such as those outlined by the Securities and Exchange Board of India (SEBI) and the Companies Act, 2013.

affordable, reliable power while navigating regulatory, environmental, and market challenges inherent to coal-based thermal generation in India. In FY 2025-26, we further strengthened our ERM processes to address emerging challenges, including the transition towards cleaner energy and geopolitical uncertainties affecting fuel supply chains.

Thermal power plant at Udupi, Karnataka

monitoring of emerging threats.

Risks are categorised into strategic, tactical, and operational types. We maintain a central risk register

and Commodity Price Risk Committee. The Audit Committee separately monitors financial

considerations.

Risk Management Process

The risk management process of APL is based on the risk management policy, and the ERM framework. The risk management policy establishes the management intent to effectively manage the risks to the business objectives, the ERM framework establishes the process of implementing the policy. The risk management process of APL consists of five stages:

Risk Identification

Risks are identified at enterprise and operational levels through structured assessment of sources of risk, potential risk events and consideration of factors that may influence strategic objectives. These include internal (operations, projects) and external (regulatory, market, geopolitical) factors. All identified risks are documented in a structured risk register, with clear descriptions, ownership, and linkages to objectives. Periodic review is conducted to add new risks and remove obsolete risks.

Risk Analysis

Each identified risk is analysed to develop an understanding about its nature, sources, and potential consequences. This analysis provides an estimate of the level of risk and to form the basis for further steps of risk evaluation and treatment decisions.

Risk analysis at APL is conducted considering the following dimensions:

1 **Likelihood:** The probability or frequency of the risk occurring

2 **Impact:** The potential consequences if the risk materialises (financial, operational, safety, legal, reputational, or strategic impact)

3 **Existing controls:** Current measures in place to prevent, detect, or mitigate the risk

4 **Control effectiveness:** The adequacy and reliability of existing controls

and management attention

Risks are prioritised based on impact score, velocity, and controllability, and categorised as strategic, tactical, or operational events.

ensure timely execution.

Review and Monitoring

Risk mitigation progress is reviewed regularly to track trends and prioritise actions. Station and Functional Risk Committees report to BRMC, which evaluates mitigation effectiveness and highlights areas requiring

as green ammonia co-firing to reduce environmental impact while meeting India's growing demand for reliable baseload power.

Using the structure risk management process provides Adani Power with a disciplined and consistent approach to understanding uncertainty and its potential impact on objectives.

Thermal Power Plant at Tiroda, Maharashtra

R2 Regulatory Risk

Responsibility

Head Regulatory and Commercial

Risk Appetite

↓

Strategic Priority

S1

Impact

Reversal of favourable orders, customer default on contractual obligations, or non-compliance with judicial or regulatory directives may trigger legal disputes, financial exposure, and reputational strain, affecting stakeholder confidence and business performance.

Mitigation Actions

- Prepare strong legal submissions supported by evidence, precedents, and established principles
- Pursue regulatory and judicial enforcement to uphold contractual rights
- Initiate contempt or similar legal proceedings, where required, to expedite claim and appeal resolution

Opportunities

The favourable regulatory landscape enables long-term growth by opening access to new PPA auctions and capacity awards, while tariff structures and change-in-law mechanisms strengthen revenue certainty, supporting future project viability and despatch visibility.

↑ High ↔ Medium ↓ Low

Our proactive, Board-overseen risk management framework has enabled resilient performance amid volatility in fuel prices, regulatory shifts, and climate challenges. By embedding risk considerations into every strategic decision, we safeguard operations, ensure compliance, and position APL for sustainable leadership in India's power sector. We remain committed to continuous enhancement of our processes, fostering a culture of risk awareness across the organisation, and delivering long-term value to all stakeholders.

address contingent risks

4,620 MW Thermal Power Plant at Mundra, Gujarat

Thermal Power Plant at Tiroda, Maharashtra

S1 Expand capabilities to deliver the nation's energy needs

Actions Taken in FY 2025-26

- Increased operating capacity to 18,150 MW, with the addition of 600 MW Butibori plant of Vidarbha Industries Power Ltd through inorganic expansion
- Planned capacity addition of 23,720 MW (6,120 MW under construction) to reach 41,870 MW by FY 2031-32, aligned with India's incremental thermal power needs of nearly 100 GW to meet baseload demand
- Fully de-risked project execution pipeline: completed 100% advance ordering for boilers, turbines and generators (BTGs) and 60% development following a brownfield model, with ready land and other infrastructure availability which ensures shorter execution timelines
- Secured 12.3 GW of PPAs of the 19.3 GW PPAs awarded by state discoms with pre-indicated coal linkages under SHAKTI Policy

caters to short-term market and energy exchange requirements.

Key operational metrics

63.1%
PLF achieved during FY 2025-26

686 days
uptime for Unit 4 (330 MW capacity) sub-critical technology

443 days
uptime for Unit 7 (660 MW capacity) supercritical technology

National uptime record achieved

Key differentiators

- Lowest Area/MW (0.157 Acre/MW) coal-based power plant in the country
- Zero groundwater use, supported by seawater availability
- 220 kV and 400 kV evacuation network with 400/220 kV ICTs, complemented by a 500 kV bipole HVDC link to Mahendragarh
- APL Mundra supply power to northern grid (Haryana) and western grid (Gujarat) both
- Integrated coal logistics with in-plant storage, dedicated port access, and high-speed conveyors
- Seawater-based Flue Gas Desulphurisation systems in Phase IV
- In-house training facility with simulators for 330 MW and 660 MW units
- Complete utilisation of ash generated from operations

Enhancing plant efficiency

- Overhaul of Unit nos. 5, 7, 9, 1 and 3 which improved operational efficiency and reliability
- Additional Economizer coil addition in Unit-5 which improved Operational efficiency
- Debris filter installed in Unit 7 to improve equipment protection and efficiency
- VFD installation in Unit-9 CEP to reduce Auxiliary power consumption
- APH Basket replacement in Unit-7 to improve efficiency

Capex highlights

₹ 138 crore
Capex incurred for improvement in safety, reliability, equipment availability, operational efficiency

3-4 Years
Expected break-even for applicable capex activities

Awards & Accoladess

- Awarded 5 Golden Stars in the NSCI Safety Rating System by the National Safety Council
- Received CII EHS Excellence Award-2025 in “Gold category” for the recognition of exemplary safety and EHS practices
- APL-Mundra’s team “Parivesh” received PAR Excellence Award and Team “Chakra” received Excellence award in the QCFI National Convention 2025 held in New Delhi
- Received JUSE certificate at NCQC program at Greater Noida

Key operational metrics

72.0%
PLF achieved during FY 2025-26

93.9%
O&M availability achieved during FY 2025-26

Key differentiators

- Rail-under-rail system supported by a private railway siding extending over 50 km
- State's first 765 kV transmission line commissioned, with evacuation at 765 kV and 400 kV
- Barrage at Dhapewada on the Wainganga River, developed under a cost-sharing arrangement with VIDC
- Operations aligned with nine ISO standards
- Coal sourcing secured through SECL, WCL, and MCL

Efficiency improvement

- Annual overhauls of Units 3 and 4 & Capital overhaul of unit 1 completed, including renewal of statutory approvals
- Air preheater baskets replaced in Units 1 and 4 to address performance constraints
- Unit 1, 3 & 4 Vacuum pump cooler chemical cleaning done
- Unit 1 & 4, FRH coils (C34 to C53) 20 Nos. replaced with SS347 grade material

Capex highlights

₹ 21 crore
Capex incurred for activities including reliability, availability, as well as efficiency improvement initiatives

3-4 Years
Expected break-even for applicable capex activities

Awards & Accolades

- At 36th Chapter Convention on Quality Concepts (CCQC-2025), organised by the QCFI Nagpur Chapter on 14th September 2025, APL, Tiroda secured five prestigious awards across multiple categories
- APL, Tiroda team secured two prestigious awards across two categories at the 39th National Convention on Quality Concepts (NCQC-2025), organised by the QCFI, Greater Noida in the month of December 2025
  - Chemistry & Environment QC – "Abhipsha": Excellence Award
  - Tech-commercial 5S – "Prayas": Par Excellence Award
- APL, Tiroda received Gold category award in 4th Cycle of AWMA in July 2025
- "Real time critical bypass alarm alert system" granted from Patent Office

Key operational metrics

71.4%

PLF for FY 2025-26

Key differentiating factors

- Adani Power-Kawai operates with a commitment to stringent safety and operational standards
- Ash utilisation as on date is 96%, underscoring its dedication to sustainability and environmental stewardship
- The in-house, full-fledged training facility and capability-building centre (APTRI) features 660 MW simulator training facilities, empowering personnel with cutting-edge skills and expertise

Enhancing plant efficiency

- Executed a comprehensive Overhaul (COH) of Unit 1 to enhance operational reliability and improve overall unit availability
- Replaced the hot, intermediate, and cold-end baskets of the Air Preheater (APH) during the Unit 1 COH, resulting in enhanced boiler performance and a realised improvement of 4 kcal/kWh in the station heat rate
- Upgraded the DCS control processor from FCP 270 to FCP 280, improving system reliability, processing capability, and overall control efficiency
- Replacement of Turbine Ventilation valves with new modified valves for improvement in Station heat rate
- Adoption of advanced maintenance techniques, such as boiler quick erect scaffolding and modular scaffolding for FRH coils, during the Unit 1 COH helped optimise the overhaul duration, enhance unit availability, and improve overall overhauling quality
- Replaced old and aged air conditioners in the plant area with energy-efficient inverter air conditioners, resulting in reduced auxiliary power consumption

- Implemented a coal blending strategy to meet PPA requirements and enable operation at technical minimum load, thereby contributing to improved operational flexibility and supporting grid stability
- Conducted operational trials to facilitate the transition from base load operation to flexible operation in response to changing grid demand and the growing integration of renewable energy sources

Capacity expansion

- Phase II & Phase III expansion underway with the addition of four ultra-supercritical units of 800 MW capacity each
- Main plant equipment ordering initiated for the Phase II & Phase III projects
- Expansion will increase the plant's combined installed capacity upon completion

Digital transformation and Cost optimisation

- Undertook multiple data analytics and digitisation initiatives to optimise operational costs and drive continuous improvement across the plant
- Deployment of the PhotoMat tool in SAP for plant inventory, enabling better management and improved operational efficiency
- Developed and deployed QR codes for all firefighting equipment to enable comprehensive monitoring, including installation details, testing records, upcoming test due dates, and other critical information
- Project Darpan initiated for Fuel Management cycle digital transformation
- Developed an integrated coal management tool leveraging advanced analytics to improve coal yard management and support more informed decision-making for determining optimal coal blending ratios

- Two Teams of APL-Kawai won Par-Excellence Award in 5's & Quality Circle during AHCCQC-2025 held at Ahmedabad
- APL-Kawai 2 teams won "Par-Excellence" Awards at NCQC-2025 held at Noida
- Received Gold Category Award in APL Station Excellence Framework for Business Excellence Assessment (ABEM) -2024
- Received Diamond Category award during 4th Cycle of AWMA Assessment

Capex highlights

₹ 75 crore
Capex incurred for reliability, availability as well as efficiency improvement

3-4 Years
Expected break-even for applicable capex activities

enhance MRS system availability, reduce maintenance costs, and achieve power optimisation.

AI assistant "AskAI" – Project Beacon

An AI assistant was developed to enhance user experience in interacting with internal documents.

Integrated Coal Management Tool – Project Beacon

Developed an integrated coal management tool leveraging advanced analytics to improve coal yard management and support more informed decision-making for determining optimal coal blending ratios.

Key operational metrics

51.9%

PLF achieved during FY 2025-26

Key differentiating factors

- PPA structures with pass-through variable costs link generation, heat rate, and auxiliary power consumption to revenue outcomes
- Long-term PPAs and low-ash plant design support emissions management and sustainable ash utilisation

Enhancing plant efficiency

- Auxiliary power improvement through installation of VFD in Condensate Extraction Pumps (CEP) of both units, overhauling of Mill-1D, etc.
- Heat rate improvement initiatives implemented, including Unit-1 NDCT fill replacement & rectification during Annual Overhauling (AOH) and LED lighting upgrades

Infrastructural upgrades

- ICCP systems integrated to protect concrete structures, including cooling towers
- Flue Gas Desulphurisation system upgrade in progress to support full-capacity operation

Capex highlights

₹ 428 crore

Capex incurred for activities including reliability, availability, as well as efficiency improvement initiatives

Challenges and mitigation strategies

Challenge	Mitigation approach
Reliability of seawater system due to silt formation	▪ Annual inspection and desilting of north and south intake pipelines
Structural corrosion in a saline environment	▪ Condition-based structural repairs and protective painting ▪ Rectification of corroded civil structures, including chimney and NDCT ▪ ICCP installation in NDCT 1 and NDCT 2
Non-competitive merit order despatch pricing	▪ Fuel cost optimisation through SHR and APC improvement initiatives under LAKSHYA ▪ Cost-efficient sourcing of imported coal
Frequent start-stop operations due to reserve shutdowns	▪ Preventive maintenance to maintain operational readiness ▪ Operational optimisation to manage demand variability ▪ Enhanced unit flexibility to respond to grid requirements ▪ Close coordination with State Load Despatch Centres

timing and location. Using machine learning models such as principal component analysis, extreme gradient boosting, and Bayesian optimisation, it offers a comprehensive solution to optimise boiler operations and parameters efficiently.

Clinker Detection Tool

The purpose of this project is to determine the tendency for coal slagging and clinker formation by analysing real-time changes in operational parameters using machine learning models. Additionally, it examines how various coal properties influence boiler performance. A comparative classification model was developed to evaluate and recognise patterns from three years of historical data, including both clinker and non-clinker samples. The project focusses on two primary objectives:

- Predicting coal slagging propensity based on ash elemental properties
- Detecting clinker formation within the boiler by monitoring real-time operational parameter variations

with Microsoft applications for tasks such as querying, document retrieval, and performing actions. This intelligent conversational system can instantly access accurate information from its knowledge base, guide users step-by-step through procedures, and minimise reliance on manual searches. Once added to Teams chat, it is accessible via smartphone as well. Two bots were developed: one answers questions related to the plant technical diary, and the other addresses operational SOPs.

Key operational metrics

71.9%

PLF achieved in FY 2025-26

Enhancing plant efficiency

- AOH of Unit 1 completed in Nov'25, including major maintenance to improve heat rate and auxiliary power consumption
- Corrective and preventive maintenance carried out to support safe and reliable operations
- Generation costs optimised through strategic coal blending

Capacity expansion

- Phase II expansion is under advanced stage with the addition of two ultra-supercritical units of 800 MW capacity each
- Main plant equipment ordering initiated for the expansion project
- Expansion will increase the plant's combined installed capacity upon completion

Process optimisation through ACOE project

- Metal excursion optimisation along with Mill combination
- Coal feeding strategy tool (trial pending)
- Coal procurement tool final handover pending
- MS temperature improvement completed

Workplace management

- IMS Annual Surveillance audit completed for QMS, EMS, EnMS & OHSMS by M/s TUV and recommended for continuation for one year
- TPM implementation initiated with the help of M/s TQM International Pvt. Ltd in CHP area to improve
- 5S -2nd Surveillance Audit completed by QCFI for the year 2025-26 in July'25 and recommended for continued certification
- ISMS stage-2 external audit successfully completed at Raipur as part of APL ISMS audit and recommended for one year

Awards & Accolades

- Three teams, Team EMD, CHP & AHP achieved Gold Trophy & Team Chemistry and O&E got Silver Trophy in CCQC-2025 Bhilai Chapter
- The C&I team participated in the 11th National Conclave 2025 on 5S initiative and received the Excellence Award

Capex highlights

₹ 51 crore

- Enhancing efficiency and maintenance
- Ensuring system reliability
- Upgrading outdated components
- Integrating advanced technologies

3-4 Years

Break-even tenure for applicable capex projects

Thermal Power Plant at Raipur, Chhattisgarh

completion

Key operational metrics

73.0%

PLF achieved during FY 2025-26

Efficiency and reliability

- SHR improvement of 14 kcal/kWh observed. The major contributor to this gain is reduction of dry flue gas loss (10 kcal/kWh) post APH basket replacement and improvement of IPT cylinder efficiency (4 kCal/kWh) post IPT OH
- APH exit FG temperature reduction of 11°C, PA and SA heat transfer improvement by about 37°C and 32°C respectively on account of reduction of leakage by about 3.25% and improvement in gas and air side efficiency by 7% and 10% respectively post APH OH
- HPH 5B replaced to restore design heating performance and improve heater reliability

Capacity expansion

- Phase II expansion addition of two ultra-supercritical units of 800 MW capacity each work has started, and 38% of work completed
- Phase III expansion TOR received on 06.12.2025. (2 X 800 MW)
- Expansion will increase the plant's combined installed capacity upon completion
- Railway line construction work is in progress with a completion target date of June 2026

Energy optimisation

- APC improvement of 0.34%. The major contributor being IDF power consumption reduction post APH to ESP inlet duct and APH leakage arresting
- Power optimisation from PA fan by reduction of air flow by 40 TPH post venturi defect rectification in mill G and H

Technological upgradation

- Optimisation of Down Payment Request (DPR) approval workflow in SAP
- AI-based Smart Isolation Locker with integration of Arc-Flash Suite detection. The project is in progress
- Integrated Combustion Tool is to generate and provide recommendations in controllable boiler parameters, analysing real-time data to optimise its performance with respect to Flue Gas exit temperature, RH Spray, Excess Air (O2), MST, RHT, MSP and all other variables which are defined as performance indicators of the Boiler

Capex highlights

₹ 87 crore

Capex includes expenditure on the following activities:

- Generator J-strap modification/replacement
- APH basket replacement
- HP heater replacement
- O&M new stores racking system
- Chimney painting
- Construction on RCC road

3-4 Years

Expected break-even tenure for applicable capex projects

VR videos, the programme enhances practical understanding without exposing trainees to actual hazards. The initiative standardises safety training, improves retention levels, and enables measurable assessment through built-in evaluation tools. Leadership-led demonstrations and early adoption have strengthened the site's commitment to technology-driven safety excellence.

B. Integrated Combustion Tool

The Integrated Combustion Tool analyses real-time boiler parameters to provide actionable recommendations for optimised combustion performance. By monitoring key variables such as flue gas temperature, O_2 levels, RH spray, and steam temperatures, the system helps operators run boilers more efficiently. This digital tool enhances operational stability, reduces fuel losses, and supports higher boiler efficiency. Overall, it contributes to continuous process improvement and data-driven decision-making.

like CO_2, SO_2, NOx, and CO_2, ensuring a safer environment for chemists. A new concrete platform for the calorimeter enhances operational stability and minimises heat-related risks. The initiative has improved workplace safety, comfort, and long-term reliability in lab operations.

D. Digital Safety Initiatives (Dashboards Implementation)

APL Raigarh implemented an integrated suite of digital dashboards to enhance safety data visibility and decision-making. The Training Dashboard, Incident Dashboard, Hazard Spotting Dashboard, and ATS Dashboard provide real-time insights into safety performance, incident trends, training compliance, and action closures. These digital tools have reduced manual reporting, increased transparency, and supported predictive risk management. Collectively, they form a comprehensive digital safety ecosystem, transforming the site's safety governance.

Thermal Power Plant at Raipur, Chhattisgarh

- Phase III expansion TOR received on 06.12.2025. (2 X 800 MW)
- Expansion will increase the plant's combined installed capacity upon completion
- Railway line construction work is in progress with a completion target date of June 2026

77.4%

PLF achieved during FY 2025-26

Station infrastructure improvement

- Integrated Security Control Room (ISCR) oversees Security Operations, Emergency Response and Crisis Management with 24×7 real-time monitoring through 115 CCTV cameras, 39 AI-enabled perimeter cameras, network horn speakers at key boundary points, 30-day video storage, and continuous surveillance for unsafe acts, conditions and post incident investigations
- Key civil facilities completed, including Fire Station, and Gate Complex
- Development and repairing of roads and drains and RCC flooring inside the plant - Improved transportation and drainage within the plant, reducing delays and preventing waterlogging

- Taken up various projects over jobs like Lifts installation, Air washer installation at various locations to easy movement of resources
- New Data center construction for plant IT needs
- Installation of Weigh bridges at various locations
- Installation of Fire detection and alarm system at various important Plant locations
- New Store shed and racking system for improvement of material storage

Capacity expansion

Phase II Expansion

- Expansion underway with the addition of two ultra-supercritical units of 800 MW capacity each
- Expanded capacity earmarked to supply power under a long-term Power Supply Agreement with MPPMCL

Phase III Expansion

- Further expansion proposed with the addition of two ultra-supercritical units of 800 MW capacity each
- Main plant equipment ordering initiated for the Phase III project
- Expansion will increase the plant's combined installed capacity upon completion

were successfully carried out in Unit-1.

- During the trial, the unit achieved a ramp rate of up to 2.8% per minute at higher loads (above 70%)
- At lower loads (below 50%), the unit consistently achieved a ramp rate of 1% per minute, demonstrating stable flexibility across operating ranges

Unit 1 BTLD System Upgrade:

- Replaced the obsolete Harbin BTLD system of Unit-1 (41 sensors, C&I cards and software with no OEM support) with a new Hitech make system, including sensor & guide pipe replacement, new air tubing, solenoid valves, and complete DCS-BTLD panel cabling and termination
- The new installation significantly enhances system reliability and ensures long-term maintainability

across leadership, strategy, operations, and workforce management

- 5S and Quality Circle practices implemented, supported by detailed turbine COH floor plans to optimise space and time utilisation

Awards

- Gold Award at QCFI Convention-2025 held in Varanasi on 05th October 2025.
- Honoured by the Indian Red Cross Society for its outstanding contribution to the blood donation drive in 2024.

Expansion

- Further expansion proposed with the addition of two ultra-supercritical units of 800 MW capacity each
- Main plant equipment ordering initiated for the Phase III project
- Expansion will increase the plant's combined installed capacity upon completion

Key operational metrics

70.0%

PLF achieved in FY 2025-26

Digital transformation

- The E-Logbook live from 15.07.2025, enables quick, accurate shift recording, improves O&M visibility, reduces errors, and ensures smoother handovers for reliable plant operation
- A Smart RFID-based Confined Space Entry System has been implemented to automatically track personnel entering and exiting confined areas, enhancing safety, visibility, and compliance
- Transfault Navigator is an in-house web tool that quickly identifies tower details and fault locations on transmission lines, enabling faster patrolling, quicker restoration, and improved network reliability
- Paperless Store MRS enables quick, digital creation and approval of material requisitions, reducing paperwork and speeding up material issuance
- Digitised CCTV-based counting tracks entry and exit headcount automatically for accurate and real-time monitoring
- Automatic static weighbridge reports are auto shared with management, ensuring real-time visibility of material movement and improved monitoring
- The Asset Performance Monitoring (APM) tool continuously tracks process deviations and equipment performance, triggering automatic alerts for abnormalities to enable early issue detection, timely corrective action, and improved equipment reliability

Operational optimisation

- Coal receipt from Trucks has been increased to reduce fuel costs
- Automation of the Bottom Ash Slurry Pump scoop operation improves system health and enhances environmental compliance by ensuring stable, reliable, and controlled ash disposal
- A level transmitter has been installed, enabling accurate measurement of ash level and water volume in the Hydrobin, thereby allowing safe optimisation of deashing cycles

Auxiliary power reduction initiatives

- Bottom Ash deashing time reduced through replacement of deashing line orifice with nozzles
- Energy savings achieved through further CEP Speed optimisation by reducing pump discharge pressure
- Energy savings in Draft System achieved by attending Duct and Air preheater leakages in Unit 1

Heat rate reduction initiatives

- Main steam and hot reheat temperatures optimised through Shiftwise monitoring and ranking system
- Station DM make-up reduced by attending high energy drain valve passing
- Heat rate improvement by Replacement of Air preheater in Unit 1

Capex highlights

₹ 183 crore

Capex incurred for reliability, availability as well as efficiency improvement

3-4 Years

Expected break-even tenure for applicable capex projects

Key operational metrics

79.1%

PLF achieved in FY 2025-26

Efficiency improvement

- Roller reversal and replacement carried out across multiple mills to reduce specific energy consumption
- Unit 2 duct & expansion bellow leakages and air ingress addressed during a short shutdown to reduce fan power consumption
- BFP recirculation valve passing arrested by replacement of trim set/internals of valves to lower auxiliary power usage
- Unit#2 Condenser Water box cleaning completed to improve unit heat rate and to reduce delta P
- CT fill replacement done in U#1 (05 Nos.) to improve cooling tower performance
- Replacement of HPSV lights with LED in CHP area (102 Nos.)

Capacity expansion

- Revival of the stalled Phase II expansion involving additional capacity of 1,320 MW
- Planning initiated for Phase III expansion of 1,600 MW to further scale generation capacity
- Combined expansion capacity 2,920 MW locked in across Phase II and Phase III projects

Major reliability & operational efficiency projects:

Reliability	▪ HP LP Bypass Valves installation in both Unit 1 & 2 (U#2 replacement planned in AOH) ▪ Upgradation of Coal feeder controller Unit- 2-6 Nos. - Completed ▪ High Energy Drain Control & manual isolation valves replacement in both units - Planned in AOH ▪ DCS DO card replacement done for some critical applications total - 36 Nos.- Completed ▪ Painting of structure & equipment - Under progress ▪ CHP belt conveyor replacement - Under progress
Operational Efficiency	▪ Pressurised Ash Conveying System for 2 Passes implementation under progress ▪ Unit-2 HPH #3 replacement is planned in AOH starting from Feb 20, 2026 ▪ Unit-2 APH baskets replacement is planned in AOH starting from Feb 20, 2026 ▪ CT Fills replacement in U#1 - 5 cells - Completed ▪ CT fan blade replacement planned for 06 Cells

- Planning initiated for Phase III expansion of 1,600 MW to further scale generation capacity
- Combined expansion capacity 2,920 MW locked in across Phase II and Phase III projects

performed in both the units to address the key liabilities to operate the unit at full load.

Key operational metrics

48.2%
PLF achieved during FY 2025-26

Efficiency improvement

- After takeover, AOH of both the units carried out in FY 2025-26. AOH was performed in both the units after a very long gap of 5 years
- APH basket replaced in both the units to improve the heat rate
- All the coal burners replaced in both the units as condition of burners were very poor and combustion was improper
- Major overhauling of ESP carried out in both the units which includes ESP spring and spikes replacement
- Condenser flood tests completed for both units, with corrective actions implemented to address ingression
- Domestic coal blending along with imported coal started in both the boilers to improve the heat rate
- Replacement of drift eliminator in all the Induced Draft Cooling Tower to restrict the corrosion of nearby structures and equipment
- ID fans of both units were replaced and operation philosophy modified to prevent frequent failure of ID fan blades
- Several steps taken to improve the reliability of coal mills like installation of dedicated filter machines, replacement of oil pumps, hydraulic cylinders, coal pipe sleeves and coal mill internals

Capex highlights

₹ 145 crore
Capex for improvement in safety, reliability, equipment availability, operational efficiency as well as to reduce overhauling time

Key operational metrics

65.5%

PLF achieved during FY 2025-26

First utility in India

That installed a Flue Gas Desulphurisation (FGD) unit with 100% capacity and Achieve ISO 50001 Energy Management System certification on the day of launch.

Technological Innovations

ADTPS continued to drive modernisation and digital transformation through several initiatives:

- Deployment of a specialised camera system for mill internal inspection, eliminating confined-space hazards
- RFID-enabled real-time digital monitoring of confined-space entry and exit
- Reliability enhancement of chlorine leak detectors through digital upgrades
- Installation of safety projector lights on EOT cranes
- Digital systems for medicine expiry alerts and store material shelf-life tracking
- Implementation of advanced digital DC battery chargers and continuous battery-health monitoring
- Remote rack-in/rack-out capability for HT breakers directly from the Main Control Room
- Development of Excel-based logic simulators for critical equipment protection systems
- Introduction of QR-based navigation system for visitor guidance inside the plant
- Development of a QR-based coal feeder calibration system, minimising manual data entry and reducing errors

Capex highlights

₹ 91 crore

Capex planned for improvement in safety, reliability, equipment availability, operational efficiency as well as to reduce overhauling time

Efficiency & Reliability Improvements

Unit–1 Capital Overhaul (COH)

- Unit #1 Capital Overhaul was completed in 38 days, finishing 2 days ahead of schedule, during which the entire Boiler Economiser coils were replaced for the first time
- Replacement of refurbished HP turbine module and servicing of IP/LP turbines, improving heat rate
- Repair of HP Heater 5 & 6 parting plate leakages, enhancing heat rate
- Partial replacement and jet washing of APH baskets for efficiency improvement
- Reduction in auxiliary power consumption through Flue Gas Duct R&M, bellow replacements, and APH seal improvement
- Replacement of BFP–1A cartridge, contributing further to APC reduction

Sustainability highlights

Environmental Initiatives

- Continuous **real-time emission data** sharing with MPCB and CPCB
- Achievement of FY 2025-26 target under the Chairman's 100 million Plantation Programme by planting **5 lakh mangroves**
- Over the last three years, **1,53,155 terrestrial trees and 12.65 lakh mangroves** have been planted

Outlook

ADTPS remains committed to operational reliability, digital transformation, and environmentally responsible power generation. The facility will continue to strengthen its performance through technology adoption, process optimisation, and deep-rooted community engagement, supporting Adani Power's broader vision of sustainable and inclusive growth.

Awards & Accolades

- **26th National Award for Energy Efficient Unit** by CII
- Certificate of Excellence in the **18th State Level Award for Excellence in Energy Conservation and Management** by MEDA
- At the 39th National Convention (December 2025, Greater Noida):
  - Team **Fort** – Par Excellence Award
  - Teams **Innoquest** and **Avishkar** – Excellence Award

Key operational metrics

58.7%

PLF achieved during FY 2025-26

Key differentiators

In 2019, VIPL faced bankruptcy, leading to its case moving to NCLT in 2023. revival efforts began in Oct 2024, with key milestones including the synchronisation of units with the grid in May 2025, showcasing the company's progress and recovery efforts, following are the key differentiators.

- PPA & FSA commenced with MSETCL & SECL
- Since the inception, vibration levels in Unit#2 Turbine have been high – after revival the vibrations are now within acceptable parameters
- DCS upgradation for Units 1 and 2 to improve operational reliability
- Implementation of the SCADA system for DSM
- Implementation of the Kronos system
- Implementation of the business transformation activities

Enhancing plant efficiency

- Post-acquisition & Post-revival, the maximum continuous run achieved by Unit-2 was 108 days
- Cooling tower Fills (non-clogging type) replacement in progress in 6 cells in Unit-2
- High-energy drain and safety valve surveys conducted, with valve lapping completed during planned shutdowns
- Condenser water jet cleaning in both units completed, and air ingress points addressed to improve heat transfer
- New Instrument Air Compressors (2 Nos.) installed in Main plant
- New Instrument Air Compressors (2 Nos.) installed in U-1 Ash handling plant

Capex highlights

₹114 crore

Capex planned for improvement in safety, reliability, equipment availability, operational efficiency as well as to reduce overhauling time.

Challenges and mitigation strategies

Challenge	Mitigation approach
Vacuum Issue in unit#2	Condenser Hydro jetting & Chemical Cleaning
ESP Ash evacuation issue	ESP & associated system maintenance
Generator Spare Issue (Stator Bar)	Under Procurement
Unit-2, AVR one channel not available	Procurement initiated

Social and Governance

with wellbeing of our planet, people and communities. Our robust governance structure integrates ESG and climate considerations into every aspect of our business planning and decision-making, paving the way for a resilient future. Our ESG approach is grounded in environmental stewardship, risk-aligned decisions, social responsibility, and ethical governance, promoting responsible value creation.

Adani Power Limited, Godda

- Awarded with **Quality Circle Forum of India Award**
- Secured **IBC's Best Use of Technology in Safety Award**
- Won **Union of Japanese Scientists and Engineers (JUSE) Award**

Adani Power Limited, Raipur

- Honored with the prestigious **NSCI Golden Stars Award** for Excellence in Safety and achieved rating of **'Four Golden Stars'** from the National Safety Council of India (NSCI)

Mahan Energen Limited

- QC team bagged the **Gold Award** at the VLCCQC 2025 held in Varanasi

Adani Power acknowledges its responsibility to address environmental and climate-related challenges while also ensuring Nation's energy security.

Biodiversity.

- Risk assessment, minimisation of impacts, mitigation measures
- Habitat restoration and species monitoring around the project sites

Water and Waste Stewardship

- Progress towards water neutrality
- Enhance percentage of freshwater replenishment
- Water recycling, rainwater harvesting and ZLD systems
- Waste management aligned with circular economy principles

Energy and Emissions Management

- Optimisation of thermal efficiency
- Scaled integration of renewable energy
- Focussed reductions in GHG emissions in line with national goals

Responsible Materials Management

- Responsible sourcing
- Resource use efficiency

Thermal Power Plant at Udupi, Rajasthan

the company's strategy, reinforcing its commitment to building a resilient and future-ready portfolio. Alongside these priorities, we continued to create shared value for communities around our operations through initiatives in health, education, and sustainable livelihoods, in partnership with the Adani Foundation.

We continue to make measurable progress on environmental performance, with emission intensity of 0.86 tCO_2e/MWh, reflecting continued focus on operational efficiency and emissions management. Our entity-level specific water consumption stood at 2.13 m^3/MWh, well below our internal target of 2.5 m^3/MWh. We also achieved 113% ash utilisation, reinforcing our commitment to circular resource use and waste minimisation. Further, we reaffirmed our commitment to biodiversity conservation through endorsement of the IBBI 2.0 Declaration.

In the FY 2025-26, we have also been certified 'Single-Use Plastic Free' across our operational plants and are working towards achieving 'Zero Waste to Landfill' certification across operations, supported by robust waste management systems. All our hinterland plants continue to operate on the 'Zero Liquid Discharge' principle, strengthening long-term water security and operational resilience.

During the year, Adani Power was classified under the 'Leadership' category by CareEdge ESG and in the 'Aspiring' category by NSE Sustainability Ratings & Analytics. A score of 69 in the S&P Global Corporate Sustainability Assessment (CSA) reinforces our position among leading performers in the sector.
These recognitions from leading ESG rating agencies reflect a strong and improving ESG performance, underpinned by robust governance, risk management, and alignment with global sustainability benchmarks.

Going forward, our priorities will remain focused on advancing the circular economy, strengthening climate resilience, and embedding ESG considerations more deeply across the value chain.

R N Shukla

frameworks. Our Board of Directors, supported by the independent director chaired Corporate Responsibility Committee (CRC) provides a robust oversight of our sustainability roadmap, ensuring ESG and climate priorities are weaved into our long-term strategy. The CRC regularly apprises the Board on sustainability performance, risks and progress through its quarterly meetings. We maintain transparency through comprehensive disclosures including SEBI-BRSR filings, ESG and Integrated Reports, investor presentations, stakeholder consultations and engagement forums, CSR impact assessments, social performance reporting and updates on our website. These disclosures are aligned with national and globally recognised frameworks such as BRSR, GRI, ISSB's IFRS S1 & S2.

Pg. 152

Audits and Assurance

Periodic internal and external audits establish & strengthen the integrity and credibility of our Integrated Management System (IMS) and associated environmental & ESG performance. Audit findings and corrective actions are closely monitored through a structured compliance tracking system to ensure continual improvement.

Our Audit and Assurance Framework

- Periodic reviews by internal audit & risk functions
- Periodic IMS surveillance and certification audits
- Independent third-party assurance as per SEBI-BRSR compliance

Building Internal Capabilities and Awareness

We strengthen employees' capabilities through internal and external training programmes to achieve positive environmental performance. Our in-house platforms, including e-Vidyalaya's Percipio and Adani Power Training and Research Institute (APTRI), equip employees with essential knowledge and skills on sustainability and ESG-related topics.

908

Employees were trained on climate change and ESG in FY 2025-26

of meeting rising electricity demand, while advancing sustainability. According to the International Energy Agency (IEA), the emerging and developing economies will account for 85% of the increase in global electricity demand over the next three years. As one of the fastest-growing major economies, India plays a central role in the global energy transition. Driven by the sustained economic expansion, India's energy demand is expected to grow at the fastest rate among major economies, with its share in global primary energy consumption projected to double by 2035.

Over the past decade, India's power sector has witnessed strong expansion driven by rising demand, infrastructure development, and strong policy support for both conventional and renewable energy sources. Electricity generation has increased from 1,168 billion units (BUs) in 2015-16 to an estimated 1,709 billion units (BUs) in FY 2025-26, reflecting the scale and pace of growth required to power the nation's development.

Note: Values represent percentage share of total installed capacity (as of March 2026)

Powering Nation's Progress, Responsibly

India's Energy Targets

Renewable Energy Capacity	Additional Coal-based Capacity
500 GW by 2030	**100 GW** by 2035

Despite rapid renewable expansion, thermal power remains critical to ensuring nation's energy security and economic growth, accounting for about 48% of India's total installed capacity. To contribute further, Adani Power is developing a 23.72 GW capacity addition pipeline by 2032, representing 30% of India's additional coal-based capacity requirement. Adani Power remains committed to advancing sustainability by deploying ultra-supercritical technology in all upcoming projects, delivering superior thermal efficiency with reduced carbon emissions.

- Maximise harnessing solar power to meet auxiliary power consumption

Goal	Focus	Key Levers
Medium-Term Goal (2030 - 2040)	Technology integration and fuel transition	Deploy techno-commercially viable technologies, including the adoption of alternate fuels like biomass, ammonia, Compressed Biogas (CBG), and energy storage technologies
Long-Term Goal (2040 - 2070)	Achieve Net Zero emissions by 2070	Adoption of next-gen energy technologies like green hydrogen and SMRs for new TPPs Neutralise residual emissions through a technically and commercially feasible CCUS pathway to achieve net zero emissions

- Responsible for execution, monitoring, and reporting of ESG and climate-related agenda
- RMC and CRC ensure that climate-related risks are embedded in the Enterprise Risk Framework and mitigated through effective risk management

Leaders)

Chaired by the CEO, the committee executes ESG and climate strategy across the operations, translating the Board's vision into action

performance and revenue streams.

Internal Carbon Pricing

At Adani Power, an Internal Carbon Pricing (ICP) framework has been embedded to integrate carbon accountability into core business decisions, with a current focus on Scope 1 emissions. The framework serves as a strategic tool to guide investments towards lower emission and cost efficient projects, while embedding climate risk considerations into planning and decision-making. This proactive approach strengthens operational resilience and positions sustainability as a long-term competitive advantage.

Climate-Linked Performance Incentives

Climate strategy is reinforced through performance-linked accountability across all levels of the organisation. KPIs related to emission reductions, energy efficiency, and climate resilience have been integrated into incentive structures of the leadership and management, including the CEO, the CSO, Environment and Sustainability Manager, and Process and Operation Manager. By linking rewards to climate outcomes, we ensure shared accountability and sustained momentum in delivering our climate commitments.

Strategic Focus Areas

- Close monitoring of power generation and energy demand
- Strategic investments in innovation and R&D
- Improve operational reliability through energy-efficient technologies
- Data-driven decision-making through automated control systems
- Water–Energy Nexus Optimisation

Our approach to energy efficiency is guided by a dedicated Energy and Emissions Policy, implemented through an Integrated Management System (IMS) encompassing QMS, EMS, OHMS, WeMS, AMS, and EnMS. Oversight is provided by a dedicated Operational and Technical Services (OTS) Cell, which drives energy optimisation across

Achieve and Trade (PAT) scheme, we deploy plant-specific strategies to meet PAT targets and the national conservation goals.

We continuously strengthen the internal capabilities through employee training and awareness programs to embed responsible energy behaviour across the organisation.

our operations while advancing national clean energy and air quality goals.

Key Highlights

- Successfully conducted pilot trials using agro-residue-based biomass pellets across multiple units. All our plants are technically feasible for co-firing of biomass
- Currently, 3.7% biomass co-firing is being carried out at Tiroda thermal power plant
- Currently, 0.3% biomass co-firing is being carried out at Korba thermal power plant

Thermal Power Plant at Mundra, Gujarat

Thermal Power Plant at Kawai, Rajasthan

GHG Emission Intensity

Reducing our GHG emissions is crucial to reduce our environmental impact. We acknowledge the greenhouse gas (GHG) emissions from our plants and have implemented targeted mitigation strategies to address them. These include our commitment to renewable energy adoption and large-scale technology upgrades that enhance efficiency and reduce emissions. As a result, our emissions intensity stood at 0.86 tCO_2e/MWh.

Supercritical and Ultra-Supercritical Technologies

At Adani Power, supercritical and ultra-supercritical technologies drive our low carbon growth strategy. The technologies are deployed across all upcoming plants and phases, embedding efficiency at scale while advancing climate action.

Sustainable Mobility

To advance sustainable mobility, we promote low-carbon employee commuting through company-operated buses and vehicles, and carpooling options. Further, we have introduced electric vehicles for use within our plant premises, replacing diesel-operated vehicles.

- Supercritical and ultra-supercritical boilers enable faster load response and greater operational agility
- State-of-the-art steam bottoming cycle technology delivers high returns with modest investment

Performance Benefits

- >45% thermal efficiency (~1300 bps higher than conventional plants)
- Lower coal consumption per MWh, directly cutting CO_2 emissions
- Reduced operating costs with higher productivity

Outcome

- Higher electricity generation per tonne of coal for high efficiency at lower incremental cost

Emissions (Scope 3)

As a crucial element of our Scope 3 footprint reduction strategy, we are systematically addressing the key emission hotspots beyond our operational control, particularly those linked to the upstream logistics and fuel sourcing.

Efficient Fuel Choices

Across our plants, the use of improved fuel quality enhances combustion efficiency, helping reduce Scope 3 emissions under Category 3 from fuel sourcing. Lower ash content further reduces fly ash generation, thereby lowering Category 5 emissions across the value chain.

ESG Assessment Across Value Chain

ESG assessment of upstream and downstream value chain partners has been integrated into the onboarding process in line with the BRSR guidelines.

Thermal Power Plant at Tiroda, Maharashtra

GHG Emissions Profile

Emissions ($MTCO_2e$)	FY23	FY24	FY25	FY26
Scope 1 Emissions	4,90,32,768.27	7,29,48,754.50	8,64,27,664.95	9,00,65,058.43

Waste Management

Goals

- **Achieve Single-Use-Plastic Free status for 100% operational sites**
- **Achieve 5% annual reduction in waste generation intensity**

the earlier stages of operations. Regular waste audits through various Govt. bodies are conducted to assess waste streams, identify improvement opportunities and inform focussed interventions.

Our targeted source reduction measures help us reduce waste intensity and improve overall operational efficiency. These measures include:

- **Optimisation of coal handling** and combustion efficiency to minimise fly ash generation at source
- **Routine equipment calibration** (boilers, mills, ESPs) to prevent material losses and reduce inefficiencies
- **Switching to low-hazard or non-hazardous chemicals** where feasible, especially in water treatment and auxiliary processes
- **Extending equipment life** through preventive maintenance, reducing scrap metal and hazardous waste from damaged components

functions

- **Training programmes** on waste-minimisation practices, enabling employees and contractors to adopt efficient handling and disposal methods

Recycling and Circular Solutions

Our waste management strategy is anchored in recycling, recovery and circularity.

Circular Practices in Action

- High Ash Concentration Slurry is used to transfer **safe and efficient ash disposal with minimal water usage**
- Maximised ash utilisation through value-added applications, advancing circularity and resource efficiency
- Integrated recycling programmes ensure effective segregation and disposal of recyclable materials
- Collaboration with authorised vendors enables safe and

- Organic waste convertors installed at all locations transform kitchen waste into manure, used in landscaping and green belt development
- Established a Fly Ash Utilisation Promotion and Research Park, and built dedicated rail-based infrastructure to transport fly ash from the Tiroda plant
- Installed waste-paper recycling units at Tiroda, Kawai, and Udupi TPPs to close the material loop by converting office paper waste into reusable products, strengthening our circular economy practices

Power channelled majority of the generated ash into value-added applications such as cement, brick manufacturing, and road construction, minimising onsite accumulation while supporting circularity and reducing reliance on virgin raw materials in allied industries.

- Supplied as a raw material to the agencies related to cement and ready-mix concrete industries for effective utilisation
- Strengthened ash utilisation efforts through an in-house fly ash brick manufacturing plant, enabling seamless conversion of ash into value-added construction materials

In FY 2025-26, 18.88 million tonne ash utilised leading to 2.46 million tonne of GHG emission avoidance (off-set).

Waste-Related Performance in FY 2025-26

Waste generated, diverted and disposed

Indicators	FY23	FY24	FY25	FY26
Hazardous Waste				
Waste generated (MT)	251.36	386.48	480.65	267.23
Waste diverted from landfill (%)	7.57	81.66	98.06%	100%
Non-Hazardous Waste				
Waste generated (MT)	1,05,32,804.16	1,28,76,036.11	1,54,51,000.16	16,791,319.51
Waste diverted from landfill (%)	0.01%	0.02%	0.20%	100%

At Adani Power, we follow a structured approach to manage materials efficiently by optimising resource utilisation and embedding circular economy principles across the operations. This approach extracts maximum value from all materials, leading to the conservation of natural resources. The Company leverages a real-time, IT-enabled decision support platform integrated with a robust Enterprise Resource Planning (ERP) framework that enables end-to-end visibility across procurement, inventory management, logistics and finance, empowering data-driven decision-making. Ultimately, by streamlining material flows and strengthening operational controls, the platform enhances efficiency, minimises value chain waste, and supports sustainable value creation for all stakeholders.

Key Measures

- Maintained FIFO (First-in, First-out) for daily coal consumption
- Implemented measures to avoid and minimise loss of coal and its quality due to spontaneous ignition, fugitive emission by adequate coal stack management
- Ensured efficient blending of different quality of coal

Material Consumption (in Metric Tonnes)

Parameter	FY23	FY24	FY25	FY26
Coal	3,64,25,494.73	5,12,71,728.69	6,12,42,677.00	6,40,83,056.59

Thermal Power Plant at Raigarh, Chhattisgarh

Responsible Water Usage

Goals

Maintain **Water Intensity below 2.5 m³/MWh**

Maintain **Zero Liquid Discharge** status for **100% of our hinterland plants**

of our hinterland

operating sites are Zero Liquid Discharge (ZLD) plants

2.13 m³/MWh

water efficiency in FY 2025-26

Thermal Power Plant at Raigarh, Chhattisgarh

- Benchmarking performed against industry standards for water usage

* MoEFCC: Ministry of Environment, Forest and Climate Change
CPCB: Central Pollution Control Board
SPCB: State Pollution Control Board

Effluent Management and Discharge Practices

We maintain strict water quality controls to limit discharges within the regulatory limits across all operational locations.

At Hinterland-Based Plants

- 100% of the effluent water is collected, treated and reused
- Operate as ZLD units with no effluent discharge into the water bodies

At Coastal Plants

- Treatment of cooling water before releasing into the deep sea, adhering to the norms as per MoEF&CC, CPCB and the concerned State Pollution Control Board
- Continuous real-time monitoring through online analysers at outfall channels

— Periodic monitoring and testing of water quality through NABL-accredited laboratories along with reporting to the MoEF&CC demonstrate our transparency and compliance with regulatory standards.

Please read about our six months' environmental compliance reports from **here**

long-term planning.

Managing Water Stress: Focus on High-Risk Sites

Our Kawai Thermal Power Plant in Rajasthan is located in a water-stressed region classified as 'over-exploited' by the Central Ground Water Authority (CGWA). Recognising the urgency, we have designated Kawai as a priority site within our water governance framework. During the reporting year, we consumed 2.35 m³ of water in this plant.

Targeted Interventions at Kawai Site

- Enhanced monitoring of withdrawal, consumption and discharge
- Increase recycling for non-potable applications such as cooling, toilet flushing and irrigation
- dust suppression
- Level transmitters and alarms are provided in various sumps/pits to avoid overflow of water
- Periodic water audits are conducted to identify and eliminate inefficiencies
- Optimised cleaning and maintenance procedures for responsible use

Responsible Wastewater Management

- Deployed advanced wastewater treatment technologies to improve effluent quality and reduce pollutant levels
- Continuous monitoring and testing to ensure regulatory compliance

Optimising Water Sources

- Water sourcing is aligned with regional availability, with seawater utilised at coastal plants and surface water at hinterland plants
- further strengthened water conservation efforts by increasing storage depth and improving recharge efficiency

Training and Awareness

- Regular trainings and water stewardship campaigns raise employee's awareness on responsible water use and wastewater quality
- An open-door policy encourages employee's ideas on water efficiency, with recognition for their contributions

— Water Usage Targets

Our internal water consumption targets are devised to drive performance beyond regulatory requirements, even in areas where regulatory limits are not defined.

Raipur TPP	2.27	2.26	2.29	1.89

Safety Management Systems

We have implemented the Adani Group's Safety Management System framework across all our locations to embed safety, health and wellbeing into everyday operations. The system provides a consistent, and structured approach to identifying risks, strengthening protocols and promoting safe behaviours.

Thermal Power Plant at Thoothukudi, Tamil Nadu

Integrate safety considerations in all decisions, activities and actions.

Report and encourage

Report and encourage others; resolve safety and vulnerability issues, learning from lead and lag parameters.

Mentor

Support and guide new stakeholders in safety guidelines and standards.

Facilitate

Facilitate risk management by integrating safety in design and operations to address vulnerabilities.

Reward and recognise

Reward and recognise safe behaviour and felt leadership.

Reprimand

Reprimand others for wilful safety infringement.

protocols and world-class frameworks to create a robust safety shield around our operations.

Our Integrated Safety Toolkit

- Safety Interaction (SI)
- Vulnerability Safety Risks (VSR)
- Safety Checks and Assurance (SCA)
- Site Risk and Field Audits (SFRA)
- Process Hazard Analysis (PHA)
- Pre-Startup Safety Review (PSSR)
- HIRA
- JSA

Multi-Layered Assurance

- Monthly gap analyses for high-risk activities across all plants
- Weekly SRFA for proactive risk identification
- Internal site audits, virtual cross-functional reviews and certified third-party assessments

Incident Management

- Multiple reporting channels empower employees and workers to report unsafe acts, conditions or incidents
- Root Cause Failure Analysis (RCFA) inform corrective actions
- Critical Vulnerable Factor (CVF) framework cascades learnings across the Group

Targeted Capability Building

- Structured training programmes tailored to specific roles and risk profiles of workforce
- Training content aligned with industry standards and delivered in local languages for wider reach

Safety in Daily Operations

- Routine toolbox talks and task briefings
- Job-specific training and job hazard Analysis (JSA) embedded into work execution

Emergency Preparedness

- Regular safety mock drills across all plants
- Focus on readiness, response capability and situational awareness

58,931 hours
of safety training provided to permanent employees

3,84,680 hours
of safety training provided to contractual workers

Udupi, Mahan, Tiroda, Godda, Raipur, Dahanu and Raigarh plants to ensure adequate planning for the execution of ground controls at shop floors. 25 Employees from each plant attended the campaign.

SAFEX Go Live

A hands-on session organised for all O&M and project sites familiarised teams with hazard spotting, inspection Tool, and CVF modules.

Safety in Boiler Operations

A training session on Boiler Operations Safety Measures covered more than 500 team members from the operations team

External Training

Demonstrations from external training expertise for Smart LOTO Systems and Transmission Tower Safety Solutions raised employee awareness

- Safety advisory for structural stability is currently under development
- Standardised Work at Height (W@H) protocol for work above 15 metres, with advisory for all personnel engaged in maintenance and operational activities at height
- High-level "OHS Directives" created by the Group Safety and shared with all Bus
- Guidelines developed and shared to ensure safe Boiler Clinker Management

Digital and Technological Intervention

- **SAFEX OHSMS Digital Transformation:** Webinar organised by Group Safety on Safety Risk Assessment, Governance, Training Tracker, Survey Engine, Incident Management & Process Hazard Analysis (PHA) Manager

Mundra and Raigarh by external agencies to assess workplace exposure to noise, dust, heat, stress and chemical risks

National Fire Service Week

Adani Power marked National Fire Service Week under the theme "Unite To Ignite, A Fire Safe India". We conducted several awareness programmes, mock drills and fire safety demonstrations across Adani Power sites, extending safety awareness to all employees, nearby communities and schools.

Safety Performance in FY 2025-26

Cadre Hiring & Developing Leadership Pipeline

Strengthening early career talent acquisition and structured leadership development to build a Future-Ready talent pipeline.

Future-Ready Skills & Livelihood Creation

Investing in upskilling and livelihood generation, aligned with business growth and national skilling priorities.

Accessibility & Inclusion

Enhanced structural accessibility across the Adani Corporate House and 100% compliance with the RPwD Act, 2016, promoting dignity and inclusion for persons with disabilities.

Workforce Analytics, Performance & HR Technology

Leveraging data, dashboards, and HR technology aligned with global annual-reporting guidance to enable performance insights and decision-making.

Agile Organisation and Operating Model

Lean structures enabling broader roles, merit-based growth and faster, higher quality decision-making.

Workforce Welfare

Enhancing living standards, safety and compliance through industry-leading welfare initiatives, particularly at the remote sites.

Employee Health and Well-Being

Holistic wellness framework integrating preventive, digital, and community-based healthcare.

Culture, Engagement & Leadership Connect

Promoter-driven employee communication and engagement practices, promoting transparency, leadership accessibility, and strong employee connection.

projects shaping India's long-term economic and sustainability agenda

environments, and large integrated value chains, accelerating employees' technical, commercial and leadership capabilities

3 **Future-Focussed High Growth Platforms**

Participation in business creation, scale-up and transformation through exposure to high growth and future facing

4 **Early Ownership and Leadership Opportunities**

Career progression driven by outcomes, impact and capability, rather than tenure or hierarchy

5 **Cross-Business Mobility and Limitless Exposure**

Diverse career paths across varied domains within a single ecosystem, accelerating learning, adaptability and leadership-readiness

6 **Value-Led Growth**

Growth guided by core values – Courage, Trust and Commitment, and rooted in the Growth with Goodness philosophy, which balances scale and performance with responsibility, safety, inclusion and sustainability

EVP Aligned with Future Capabilities

AI, Advanced Analytics and Digital Transformation

Providing employees with exposure to:

- Enterprise-scale AI and analytics
- Smart Infrastructure and integrated digital platforms
- Capability building aligned to digital skills and evolving business models

Sustainability and Climate-Aligned Capabilities

Positioning employees for future economy through:

- Participation in Renewable energy, green hydrogen and energy transition initiatives
- Climate-aligned infrastructure development
- Responsible resource management and ESG-led decision-making
- Capability enhancement in green skills, sustainability leadership and climate-conscious business acumen

Future Leadership & Adaptive Skills

Fostering employee adaptability and leadership-readiness through:

- Exposure to complex, multi-stakeholder environments
- Cross-business and cross-sector mobility
- Leadership roles that require speed, judgement and accountability

Ways of Working, Collaboration and Innovation	▪ Entrepreneurial, execution-driven mindset ▪ Adjacency-led business model enables cross-entities collaboration ▪ Shared platforms for knowledge-sharing, joint planning and integrated decision-making ▪ Experimentation and learning through execution and continuous improvement
Ethical Decision-Making	▪ Codes of conduct and governance standards ▪ Strong emphasis on people stewardship, psychological safety, overall wellbeing, human rights, inclusion and respect ▪ Encouragement to open dialogue, constructive challenge and respectful dissent ▪ Grievance and whistleblowing mechanisms ▪ Responsible stakeholder engagement

Culture as a Multiplier	▪ Drive agility, accountability, innovation and resilience ▪ Leadership communication and role modelling to institutionalise adaptability
Measuring Change Effectiveness	▪ Employee engagement and change adoption indicators ▪ Leadership capability assessments ▪ Talent-readiness metrics for critical and future roles ▪ Course correction and continuous improvement
Outcomes	▪ Resilient, skilled and future-ready workforce ▪ Organisational agility to navigate disruption

strengthen long-term competitiveness.

Drishti, Darpan and Beacon enable faster and more informed decisions

Organisational Effectiveness

Adani Power is deliberately redesigning its organisational structure by reducing hierarchical layers and adopting a cluster-based O&M models to enhance speed, accountability, and scalability. This leaner, more agile structure improves operational efficiency and responsiveness, while ensuring our organisational priorities are perfectly aligned with national energy goals.

Adani Power's Agile Transformation Model

Structural Effectiveness

- Delayering as per Group Philosophy
- HO capped at three layers
- Site organisations capped at five layers
- Faster escalation, clearer accountability, and reduced approval latency

Cluster-Based Operating Model

Five O&M clusters (G1–G5) with pooled expertise will benefit by:

- Reduced duplication of efforts
- Better utilisation of highly skilled resources
- Standardised maintenance and overhaul practices

Centralised Excellence, Decentralised Execution

- O&M expertise (equipment/system-wise)
- Analytics Centre of Excellence
- Project management standards
- Sites focus on execution, not reinvention

Productivity Discipline

- Manpower cost maintained at ~1.5–2% of revenue despite capacity doubling
- Organisational effectiveness measured through Man/MW ratio, EBITDA/MW ratio
- SHR and fuel efficiency ownership

Workforce Planning Principles

- Capacity-linked manpower planning rather than historical ratios
- Phased onboarding aligned to COD milestones, ramp-up curves and cluster deployment

Talent Acquisition Strategy

- Cadre-based hiring (DET/GET/ETs) and strong internal succession to strengthen future leadership pipeline
- Selective lateral hiring only for niche expertise, reducing long-term lateral hiring dependency
- Focused hiring on projects and O&M leveraging digital and analytics-based insights

Acquisition Integration (M&A)

- Rapid cultural and operating integration
- Bringing M&A assets to Adani Power operating benchmarks through cluster O&M, digital platforms and leadership assimilation

- Periodic audits and governance oversight through HR leadership

acquisition with ESG and human rights commitments.

Cadre Hiring

Cadre-based hiring forms the backbone of Adani Power's long-term talent strategy. Through structured intake of DET/GET/ET cadres, we build a strong "bottom of the pyramid" talent base for a steady supply of technical depth and leadership potential.

Strategic Advantage

- Builds future leadership pipeline aligned with long asset life cycles
- Reduces dependence on lateral hiring at senior levels
- Facilitates faster cultural assimilation and skill standardisation
- Enables cost-effective workforce scaling with capacity expansion

Cadre hiring is closely integrated with the "Power Up Initiative", succession planning, and cluster-based O&M models, ensuring leadership continuity as the organisation scales towards ~42 GW capacity by FY 2031-32.

progression. Before seeking external talent, we systematically assess internal fit through transparent Internal Job Postings, succession pipelines and structured talent reviews.

In FY 2025 26, the majority of open positions were filled through internal candidates, delivering significant advantages:

- Strong succession depth for critical roles
- Effectiveness of cadre-based development
- Reduced time to fill and onboarding risks
- Higher employee engagement and retention

Percentage of Open Positions Filled by Internal Candidates

FY26	**72.40**
FY25	141.92
FY24	39.06

communities, enhancing local employment and aligning our growth with regional socio-economic development. Local sourcing also strengthens our relationships with the local communities and builds a workforce with a strong contextual understanding of local environments.

We actively promote career progression of local talent, including supervisory and leadership roles. Structured assessments, capacity development programmes, and succession planning frameworks help identify high-performing local employees with strong leadership potential.

Local Hiring Benefits:

- Improved workforce stability and retention
- Reduced migration-related disruption
- Faster operational integration
- Direct socio-economic upliftment in host communities

long-term leadership sustainability at the site and cluster levels.

300

of local hires in the overall talent pool in FY 2025-26

Thermal Power Plant at Raipur, Chhattisgarh

In line with the Adani Group's DEI philosophy, we are committed to building a balanced, inclusive and diverse workforce by progressively reducing the average age of employees, and enhancing gender diversity. Respectful workplace practices and proactive grievance redressal reinforce equity and inclusion across sites and projects. DEI is integrated into talent strategy and ESG commitments, rather than being treated as a standalone initiative.

Key DEI Commitments Aligned with STRAP:

- 15% target for female representation in campus hiring
- Inclusive leadership development through Power-Up programme
- Fair succession access for critical roles
- Strong governance, transparency, and ESG alignment

1.97:1

Gender pay ratio (Male to female)

(employees other than BoD & KMP)

Care And Motivation

Employee Wellbeing and Support

For the Adani Group, employee wellbeing is recognised as a key driver of organisational performance rather than just an HR initiative. We believe that the physical, mental, emotional, financial, occupational, social and spiritual wellbeing of our people is tightly linked to productivity and sustained excellence.

Employee wellbeing is supported through a host of measures including workplace safety, healthcare access and stable employment practices. Housing facilities, medical support, safety-focussed operations, structured counselling and behavioral support ensure physical and psychological safety. For our employees and workers working in operating environment with high risk exposure, health and safety compliance remains a core priority. Overall, the organisation's wellbeing approach is centred on stability, safety, predictability and robust support systems for employees.

The Adani Group places strong emphasis on psychological safety, enabling employees to express views, raise concerns and share ideas without fear of retaliation.

Adani Power's Integrated Wellbeing Measures

- Stable earnings environment
- Reduced merchant exposure to minimise workforce anxiety during market volatility
- Safe & compliant operations with Zero-harm focus embedded in O&M and project execution
- Living & working infrastructure with townships, trainee accommodation, leadership facilities
- Healthcare & welfare support through health checkups, onsite medical support and creche facility
- Progressive group-level wellbeing policies integrated with site-level initiatives

Sanitation Infrastructure Across Project Sites

Deployed 55+ sanitation blocks with eco-friendly systems to prevent groundwater contamination and environmental degradation

Rest Shelters for Occupational Health and Safety

Introduced rest shelters at construction sites, with clean drinking water, shade and dining spaces, protecting refuge against harsh weather and reducing fatigue-related risks

Currently 16 shelters are operational at Mundra

Standardised Accommodation for Labour Colonies

Modular, scalable housing (1,000 – 5,000 pax configurations) are being implemented near construction sites for unskilled and construction labour

Leadership-Led Townhalls

During the year, the employees were engaged through the **Parivar Ki Baat** Townhall series led by Shri Karan Adani

Listening to Our People, Acting on Their Voice

Between November 2023 and March 2024, the Adani Group conducted a Chairman-led group-wide engagement survey through WhatsApp to maximise participation. The survey featured 50 questions across 13 engagement themes, delivered in one-question-per-day format. 26,000 employees participated and provided a detailed view of employee sentiment across business, locations, tenure and age cohorts.

The employee voice survey recorded a strong engagement score of 4.1/5, reflecting strong employee engagement and providing key actionable insights to strengthen employee experience across the Group.

candidates

- 2,900+ successful internal transitions, boosting retention and career growth (until January 2026)

Way Forward: Setting Priorities for FY 2026-27

- Expanding cadre intake by 15%
- Launching a digital-first learning academy
- Implementing AI-assisted workforce planning tools
- Enhancing inclusion metrics and accessibility mapping
- Full scale adoption of remaining labour code rules
- Deepening community livelihood partnerships

Human Rights and Labour Relations

Upholding Human Rights

At Adani Power Limited (APL), commitment to human rights is more than merely a compliance requirement; it is a core value integrated into our growth and ESG transformation agenda.

Our human rights approach is aligned with globally recognised frameworks, including the UN Guiding Principles on Business and Human Rights and the ILO Declaration on Fundamental Principles and Rights at Work. This commitment is governed by the Board-approved Group Policy on Human Rights, reviewed periodically. Senior leadership provides oversight of policy implementation, with accountability embedded across businesses.

The Human Rights accountability starts at the highest levels, with principles integrated into internal policies, operational processes and supplier expectations, extending across all business units, employees, contract workers, vendors and partners.

across APL's operations and value chain. Our training architecture is inclusive, ensuring that every individual understands their rights and responsibilities. Our training curriculum is strictly aligned with the Group Policy on Human Rights, focussing on key themes that safeguard workplace dignity. Central learning platforms track the training record for permanent employees and workers.

- Key human rights training themes include prohibition of child and forced labour, non-discrimination, prevention of harassment, grievance redressal, non-retaliation, and workplace dignity
- Digital training modules and instructor-led programmes were delivered covering employees, workers, security personnel, and third-party staff

- A specialised DEI and Human Rights training video in Hindi was rolled out for workers and third-party personnel at entry points, project sites and contractor onboarding locations, ensuring site-level reach

Zero

cases of human rights violations reported in FY 2025-26 including child labour, forced labour, discrimination, or wages

Zero

cases of human rights violations of indigenous communities reported in FY 2025-26

100%

of security personnel (including the third-party personnel) trained on human rights policies and procedures

Remediation of Negative Impacts

The organisation maintains robust grievance redressal and whistleblower mechanisms, enabling employees to raise concerns safely and confidentially. Reported cases undergo formal investigation, followed by appropriate resolution and corrective actions. Case metrics and outcomes are tracked and disclosed, as applicable, to reinforce accountability and continuous improvement.

rules.

Respecting Labour Relations

Freedom of Association and Collective Bargaining

At APL, we uphold the right to freedom of association and collective bargaining as a fundamental principle of workplace dignity and inclusion. In line with the Adani Group's policy on 'Freedom of Association', all employees and workers – whether directly employed or engaged through business partnerships – are entitled to associate freely and pursue collective bargaining without interference or discrimination. While none of our workforce is currently represented by independent trade unions or covered under formal collective bargaining agreements, we actively promote dialogue and representation through a dedicated Functional Committee. This Committee includes worker representatives and serves as a platform to address key labour-related matters such as fair wages, occupational health and safety, human rights and overall working conditions. It reflects our commitment to fostering a respectful, transparent and participatory work environment.

Living Wages

APL ensures the payment of minimum living wages as defined by the regulations to support decent living standards and demonstrate responsible employment practices.

Adoption of New Labour Codes

In compliance with the New Labour Codes, as notified by the Government of India on November 21, 2025, we have implemented all the applicable provisions across our HR systems. We have also established cross-functional compliance committees for future-readiness. Digitalisation of registers, wage structures, and contractor-related documentation are other key facets of this strategy. We have initiated awareness programmes to update our employees and contractors with the new codes.

Read more about our human rights and labour relations approach in BRSR on **page 382**

Approach to Sustainable Supply Chain Management

At Adani Power, we are committed to building a sustainable and ethical supply chain that aligns with our core values and long-term ESG objectives. Our ability to deliver reliable thermal power depends fundamentally on the integrity, transparency and resilience of our procurement practices. Our approach integrates environmental stewardship, social responsibility and ethical governance throughout every stage of sourcing lifecycle, from initial vendor identification to ongoing supplier development and performance monitoring.

Building Future-Ready Ecosystems

In an era defined by rapid technological transformation, our focus this year has been on strengthening both our internal and external ecosystems to remain resilient, agile, and future-ready. Recognising that our suppliers are a critical extension of our operations, we initiated structured training and engagement programs aimed at enabling continuous upgradation of their technical and operational capabilities.

A key strategic thrust has been our commitment to understanding and adopting Artificial Intelligence (AI) and data-driven solutions. Through awareness programs and collaborative sessions, we are helping our people and partners develop competencies that will define the next phase of industrial growth.

As we look ahead, our goal remains clear: to build a technology-enabled ecosystem that creates value, strengthens collaboration, and ensures our readiness to navigate future opportunities and challenges efficiently.

Thermal Power Plant at Tiroda, Maharashtra

Read about our Supplier Code of Conduct

Responsible Sourcing Strategy

Our Responsible Supply Chain Management Policy defines standards and behaviours expected of our suppliers and contractors. Our procurement decisions prioritise vendors who demonstrate strong ethical conduct, social and environmental responsibility. Total procurement spent in FY 2025-26: ₹ 46,859 crore, with local spent of ₹ 8,374.8 crore.

Key Focus Areas of Responsible Sourcing Strategy

- Active engagement with suppliers who prioritise resource conservation, emission reduction and waste minimisation across their operations
- Supporting inclusive development through local sourcing and procurement from domestic suppliers, strengthening local economies and supply chain resilience

Read about our Responsible Supply Chain Management Policy

Supplier Onboarding Journey

Identification
Potential supplier identification based on business, technical and sustainability requirements

Pre-screening
Initial eligibility checks against national and international standards

Pre-qualification
Detailed assessment of ESG performance, regulatory compliance and alignment with Adani Power values and objectives

Approval
Qualified suppliers are approved and added to the master vendor list for further engagement

Supplier Assessment and Performance Monitoring

Comprehensive annual ESG screening is conducted to monitor supplier performance and manage risks. The assessment follows a risk-based approach combining the desk-based reviews and onsite evaluations.

Each supplier is assigned an ESG performance score based on the assessment outcomes. The insights from the supplier assessment inform tailored corrective action plans, where required, to strengthen suppliers' performance on sustainability parameters.

Supplier Human Rights Risk Assessment

Human rights requirements are integrated into our new vendor onboarding process, ensuring alignment with our ethical standards at the commencement of the business relationship. In FY 2025-26, 100% suppliers underwent ESG screening including human rights assessment covering prevention of sexual harassment, discrimination, child labour, forced or involuntary labour, human trafficking, freedom of association, collective bargaining and equal remuneration.

FY 2025-26 Assessment Outcomes

100%
of existing significant suppliers screened in alignment with the Business Responsibility and Sustainability Reporting (BRSR) framework, as mandated by the SEBI.

100%
of onboarded suppliers screened for ESG critieria.

Capability Development

Supplier Competency Enhancement

We view suppliers as essential to building a resilient and future-ready supply chain. We take a collaborative approach to enhance supplier competencies and performance, including:

- Regular engagement, training and awareness programmes, including ESG topics
- Remote and on-site support for implementing corrective action plans
- Access to industry ESG insights to benchmark their own progress and identify areas of improvement

Internal Capability Enhancement

We strengthen internal capabilities through targeted training and awareness programmes, equipping employees with the knowledge and tools to effectively support our supplier ESG programmes.

Read more about our responsible sourcing practices in BRSR on **Pg. 407**

A primary feature of the Group's CSR strategy is its focus on sustainable empowerment.

learning, and partnering to create pathways for opportunity, resilience, and shared progress.

The Foundation works across geographies with a life-cycle approach and inclusive framework to enable change where it matters the most. Currently, it is operating in 7,247 villages across 22 states, positively impacting 13.3 million lives. Its interventions span critical development areas, including education, health and nutrition, sustainable livelihoods, climate action, and community development, with a strong focus on children, women, youth, and marginalised populations. The strategies of the Foundation are aligned with national priorities and Sustainable Development Goals (SDGs), ensuring that its initiatives contribute to nation-building and holistic development.

Read more about the Adani Foundation here
https://www.adanifoundation.org/

for the benefit of the people without distinction of caste or community, sector, religion, class or creed, in the fields of education, community health, and promotion of social and economic welfare and upliftment of the people in general.

transparency, and accountability. Periodic assessments, including baseline studies, need assessments, and impact evaluations, enable data-driven decision-making and continuous improvement. By adopting a need-based and participatory approach, we ensure that programmes are tailored to local contexts and respond meaningfully to community needs and aspirations.

The entity follows a participatory, community-centric model in villages, building trust through regular village consultations, need assessments, and partnerships with local self-governance bodies, district administration, and community organisations. A consistent on-ground presence, transparent communication, and grievance mechanisms strengthen inclusion and accountability.

imparting training on technical & financial aspects and facilitating access to credit but also enables enterprise development by fostering backward & forward linkages through both offline and online platforms. Adani Power's Education initiatives focus on upgrading school infrastructure and creating enabling environment to build long-term human capital and aspirations.

	self-reliant communities.			
Total		**279.86**	**18,19,615**	

Community Risk Management

Key community risks in **areas of operation of Adani Power** include degrading quality of education, water scarcity, climate-driven livelihood vulnerability, low levels of skills among youth, and environmental concerns. These risks are integrated into the **Enterprise Risk Assessment Process** through regular social risk assessments, stakeholder feedback, and site-level risk registers and are categorised by severity, likelihood, and their impact on community and business operations for a comprehensive oversight.

Mitigation Approach, Monitoring and Review Mechanism

All these risks exacerbate the vulnerability of the local population which Adani Enterprise's initiatives seek to address through targeted interventions in Education, Health & Nutrition, Livelihoods, Climate Action, and basic Rural Infrastructure Development. Healthcare and Nutrition challenges are addressed through intervention woven around provisioning doorstep primary healthcare services and nutrition to children under 5 years of age and pregnant and lactating mothers. Livelihood vulnerabilities are mitigated by promoting income diversification, skill development, enterprise support, and promotion of sports. Environmental risks are managed through green belt development, continuous monitoring, and compliance with statutory norms. Water and climate risks are mitigated through rainwater harvesting, augmenting water conservation capacity, and promoting efficient water-use practices. All interventions are monitored through defined indicators, field reviews, beneficiary feedback, audits, impact assessments, and third-party evaluations, ensuring adaptive and responsive management.

Investments in Risk Management and Mitigation

Sustained investments are made in education, healthcare infrastructure and access to primary healthcare, water security, livelihood diversification & skill enhancement, environmental safeguards, and community capacity-building initiatives to enhance community resilience and ensure long-term risk mitigation.

CSR Governance

Oversight of our CSR initiatives rests with the Board-level Corporate Social Responsibility (CSR) Committee, which provides strategic guidance and direction. The Committee formulates the annual CSR plan and submits it to the Board for review and approval. Meeting at least twice each year, the Committee reviews performance across key focus areas to ensure the effective execution of CSR initiatives.

At the operational level, site-based CSR teams work closely with the Adani Foundation to monitor, evaluate, and strengthen project implementation across plant locations. This robust governance framework ensures that our CSR initiatives remain compliant, impactful, transparent, and aligned with the evolving needs of the communities we serve.

Assessing impact of operations on communities

We undertake third-party impact assessments of CSR programmes at periodic intervals, typically once every two to three years, to assess the effectiveness and sustainability of our initiatives. For projects of significant scale or strategic importance, such assessments are conducted annually, as recommended by the CSR Committee. The frequency of these assessments is aligned with statutory requirements, internal guidelines, and Board and CSR Committee recommendations, ensuring transparency, accountability, and continuous improvement.

We have conducted Impact assessments for the following initiatives:

- Livelihood Development Initiatives
- Health Initiatives
- Water Conservation Initiatives
- Aamchi Shala Adarsh Shala Initiative
- Utthan Initiative

Cultural and traditional occupations: Groups engaged in crafts and trade, requiring support for skill development and market access.

Socially and geographically marginalised groups: Villages located in remote area locations with poor access to basic services.

Economic vulnerability: Women, youth, artisans, and small traders with limited income diversification opportunities.

Agrarian and pastoral livelihoods: Households dependent on farming, livestock, and related rural occupations.

Geographic proximity to development corridors: Economically vulnerable households living in villages near plant and large infrastructure project sites, where rapid development increases the need for community support.

Influence of Structured Stakeholder Engagement on Program Conception, Design, and Implementation

Structured stakeholder engagement significantly shaped the program throughout its life cycle.
Inputs from community members, women's groups, youth, village leaders, and local institutions ensured the initiative remained **relevant, inclusive, and grounded in local realitie**s.

Program Formulation: Consultations help identify key concerns – livelihood insecurity, limited services, climate risks, and skill gaps – while validating community needs and aspirations. This ensures that the program's objectives are realistic and aligned with local priorities.

Program Design: Continuous dialogue enables the selection of appropriate target groups and tailoring of interventions to local socio-cultural contexts.

Stakeholder Consultation and Engagement

Stakeholder Consultation	▪ Identify and consult with key stakeholders for CSR projects such as local community members, NGOs, government officials ▪ Gather and document their feedback, concerns and expectations
Need Assessment	▪ Conduct participatory need assessment with rural communities, identifying and prioritising their needs
Program Planning and Resource Allocation	▪ Develop detailed program plan catering to the community needs ▪ Outline activities, milestones, timelines and responsible parties ▪ Allocate budget and manpower for project execution ▪ Incorporate feedback from affected communities into operational and project decision-making
Monitoring and Evaluation	▪ Execute project in partnership with stakeholders adhering to the project plan ▪ Keep communities informed of the project progress, seeking their inputs
Monitoring and Impact Assessment	▪ Close monitoring of the project against the timelines ▪ Conduct Impact Assessment to evaluate impact on communities ▪ Seek feedback from affected communities ▪ Deploy findings from monitoring and evaluation and community feedback to enhance project effectiveness

education is a powerful catalyst for social and economic transformation, especially in rural and underprivileged areas. Recognising this, the Foundation champions education not only as a fundamental right but as a transformative force that fuels aspirations and opportunities. We remain committed to empowering children with knowledge, critical thinking and confidence to build better futures.

Through an extensive network of 43 schools, strategic partnerships, and pioneering programmes, the Adani Foundation aims to make quality learning accessible, aspirational, and inclusive for all. With its flagship initiatives, such as Project Utthan, which focusses on improving learning and academic outcomes, and Udaan, which encourages students to dream big and explore possibilities, the Foundation is effectively shaping the aspirations of young India, nurturing the next generation of leaders and innovators and building a more equitable future.

Minds

Programme Goal

To inspire ambition among young learners by providing real-world exposure and opportunities

Programme Description

Project Udaan is a unique learning initiative of the Adani Foundation designed to ignite ambition among young minds, inspiring them to possibilities. Through curated exposure visits to Adani Group's world-class facilities, ports, power plants, edible oil refineries, solar plants, and airports, students gain firsthand insights and experience into large-scale business operations. Inspired by Mr Gautam S. Adani's transformative visit to Kandla Port as a child, Udaan encourages students to envision their own path to success.

and strengthening local health systems. Our mobile healthcare units, multi-specialty health camps, and rural clinics are vital in ensuring access to primary care to underserved and elderly people with limited mobility. By focussing on both preventive and curative approaches, the Foundation's healthcare ecosystem is improving the well-being of India's most vulnerable populations.

Our SuPoshan initiative is instrumental in mitigating malnutrition and anaemia among children, adolescent girls, and women of reproductive age. The project empowers village-level volunteers, SuPoshan Sanginis, who serve as catalysts for behavioural change by monitoring health, providing nutritional counselling, and facilitating life-saving medical treatment.

of cases being preventable or treatable. Nearly 90% of those affected reside in the low- and middle-income countries, where access to eye care remains out of reach.

Launched in August 2024, the Adani Foundation's Eye Care Programme aims to address this gap by providing eye screenings, primary eye-care services, and awareness on eye health to the school-going children, women, the elderly, and truck drivers. The initiative focusses on early detection and prevention of vision problems. Eyeglasses are

and well-being.

- **Health Camps:** A total of **20,538 patients** received medical care through a series of **multispecialty, gynaecology, general, and mega health camps** conducted across **eight sites.** These camps provided comprehensive diagnostic and treatment services, ensuring broad community access to quality healthcare. **11,441** patients treated in static clinic in Singrauli.
- **Other Health initiatives: 9,538** people benefited from Adani Arogya card at Udupi site. 4,454 people

essential medical equipment, has significantly enhanced healthcare delivery for the community. These improvements have created a more hygienic, safe, and patient-friendly environment, enabling healthcare professionals to offer timely and effective medical services. Beneficiaries now have improved access to diagnostics, treatment, and preventive care – resulting in better health outcomes, reduced waiting time, and strengthened trust in local healthcare infrastructure.

STORY OF CHANGE
ACTION ON GROUND

Last-Mile Care, Delivered at the Doorstep

For Kanya Bai, a 70-year-old visually impaired widow from Barla Village, Baran, Rajasthan, access to timely healthcare was a daily challenge. She belonged to a tribal community and was dependent on her son, a marginal farmer with limited means and income. She developed persistent diarrhoea and abdominal pain for over six weeks; her condition posed serious risks of dehydration and complications.

Through the Mobile Health Care Unit (MHCU) operated by the Adani Foundation, quality care reached her doorstep when it was needed most. A long-term MHCU beneficiary, Kanya Bai, received comprehensive care and support, including clinical assessment, timely medication, fluid and electrolyte management, nutritional support, and continuous monitoring. The intervention led to significant improvements in her health, effective disease monitoring and management, and the prevention of further complications. This underscores the impact of last-mile healthcare, especially for elderly and vulnerable populations. The MHCU's sustained presence restored Kanya Bai's health and improved her quality of life.

across on-farm, off-farm, and non-farm sectors, fostering resilience, inclusion, and lasting social impact, shaping resilient communities.

Our initiatives focus on boosting, diversifying, and sustaining incomes through:

- **Women-led Enterprises:** Recognising women as powerful agents of change, the Foundation promotes women entrepreneurship by fostering leadership, enhancing knowledge, and ensuring access to critical networks and markets
- **Project Saksham:** This skilling programme equips youth with invaluable technical and entrepreneurial skills, propelling them toward greater employability and self-reliance
- **Sathwaro:** Dedicated to empowering India's artisan communities, this initiative transforms traditional and cultural heritage into viable, income-generating opportunities
- **Agricultural Development:** Programmes in natural farming, animal husbandry, and dairy development help farmers leverage technology to boost yields and resilience

STORY OF CHANGE:
ACTION ON GROUND

Turning Dreams Into Reality

Mangesh, a young aspirant from Tiroda, Maharashtra, grew up in a modest household. With his father managing half an acre of land and his mother a homemaker, resources were limited. While pursuing graduation after completing his Class 12 education, Mangesh dreamt of serving the nation by joining the armed forces. Despite his determination, he faced significant hurdles. His district lacked quality coaching facilities, financial constraints, limited access to professional training, and self-study proved insufficient to prepare for highly competitive defence and police recruitment exams.

He learned about the Adani Foundation's Pre-Selection Training Programme for Youths for the Army and Police Services. The programme aimed to transform rural youth into physically fit, academically proficient, and mentally strong candidates for defence and police recruitment. Enrolling immediately, Mangesh underwent structured physical training, classroom-based academic coaching, and confidence-building sessions. Through consistent efforts and support, he improved his fitness, enhanced his knowledge, and gained immense confidence. His perseverance paid off when Mangesh was selected into the Maharashtra Security Force. He credits his success to the Adani Foundation's programme for providing him the guidance, discipline, and confidence to succeed.

to uplift the quality of life, enhance potential, and bolster the growth of the communities.

Key pillars of community development include:

- **Infrastructure Development:** Construction of essential infrastructure, such as roads, water conservation systems, drinking water access points, and installation of streetlights to improve quality of life
- **Disaster Support & Crisis Aid:** Offer immediate aid and support to communities during times of crisis, natural calamities and major accidents
- **Empowerment & Inclusion:** Facilitate access to government schemes, championing sports to cultivate unity and discipline, and provide greater opportunities for the specially-abled to ensure no one is left behind
- **Community Engagement:** Focus on boosting opportunities and engagement to foster resilience and lasting prosperity, transforming communities into vibrant, self-sufficient ecosystems

biodiversity preservation, and renewable energy adoption, the Foundation addresses the most pressing ecological challenges while laying the foundations for sustainable communities. Our efforts extend beyond environmental protection to deliver future-ready solutions for enduring social and economic well-being for the coming generations.

Our climate initiatives focus on:

Green Transformation:

Developing and revitalising wastelands through structured plantation drives and increasing the use of renewable energy to enable a cleaner and greener society.

Water Stewardship:

Promoting large-scale conservation of water to ensure its availability for domestic and agricultural purposes throughout the year.

STORY OF CHANGE: ACTION ON GROUND

Transforming Livelihoods in Sondiha Village of Jharkhand

Located in the Podaiyahat subdivision of Godda district, Jharkhand, Sondiha village is home to 1,568 people spread across 208 hectares. Agriculture is the primary livelihood, but farmers struggled with water scarcity due to the absence of irrigation facilities. The village's century-old Tubhiya Pond remained dry for most of the year, leaving farmers dependent on rainfed agriculture and exposed to drought.

For over 40 years, Bimal Chandra Shah, a marginal farmer cultivating 20 acres, could grow only paddy during the Kharif season. His income was limited to ₹5,000 – ₹6,000 per bigha, with family members earning barely ₹15,000 – ₹20,000 annually through casual labour.

In 2018, the Adani Foundation undertook pond deepening of Tubhiya Pond under its Water Conservation Initiative. This intervention increased the pond's water storage capacity 2.5 times to 11,513 cubic metres. It ensured year-round irrigation and improved crop productivity, transforming farming practices across the village. Bimal shifted to multi-crop cultivation of paddy, wheat, maize, and pulses, while diversifying into horticulture and pisciculture. Crop yield rose from 150 to 250 quintals per season, and his annual income increased by ₹3 lakh.

The pond now irrigates 60 acres, benefiting over 100 farmers, reducing migration and improving food security. The deepening of Tubhiya Pond has transformed Sondiha village's agricultural landscape, demonstrating that water conservation can catalyse climate resilience and rural prosperity.

development in rural India, recognising its power to build discipline, foster teamwork and drive community development. Through focussed interventions, such as the "Garv Hai" programme, we've nurtured promising young athletes by providing financial assistance, professional coaching, and access to quality training infrastructure across multiple disciplines.

Our efforts go beyond elite athlete development. From providing coaching to organising inter-Gram Panchayat tournaments in popular rural sports, such as volleyball, kabaddi and cricket, and strengthening local teams with latest sports kits, the Adani Foundation aims to create a strong, inclusive sports culture at the village level. These sustained initiatives are pathways to self-belief, recognition and opportunity for rural youth, enabling them to pursue their passion and unlock their full potential.

Category) held in Gaya, Bihar, in 2025, where her team advanced to the quarterfinals.

Saniya's rise from a small village to the national stage reflects the transformative power of sports and structured training programmes. Her success inspires other rural girls to pursue their aspirations with confidence. Through programmes like Utthan Khel Kumbh, the Adani Foundation creates pathways for young athletes to shine on national platforms, fostering confidence, discipline, and hope for a brighter future.

Robust Corporate Governance Structure

Led by our strong commitment towards ensuring good governance across the organisation, we have adopted a robust structure to enable effective conduct of business. We follow a one-tier Board system, with the Board of Directors at the helm of APL's corporate governance. The Board actively formulates the Company's strategy, oversees management, and ensures compliance. This Board-led governance structure helps in enhancing accountability and strategic decision-making at the Company, enhancing the stakeholder trust.

— The Board at APL is committed to conducting the Company's business operations based on the tenets of courage, trust and commitment, upholding the highest standards of ethics and integrity.

Board Composition

The APL Board comprises highly experienced persons of repute and eminence. It has a good and diverse mix of Executive and Non-Executive Directors, with 50% of the Board members being Independent Directors, including an Independent Woman Director. The Board composition is in conformity with the applicable provisions of the Companies Act, 2013 ("Act") and SEBI Listing Regulations, as amended from time to time, as well as other applicable statutory provisions.

Company's business through clearly-defined roles. This enables functional efficacy and compliance.

Board's Role

As the Company's highest corporate governance authority, the Board is mandated with ensuring oversight of the Company's governance systems and processes. Specialised sub-committees aid the Board in maintaining oversight of our governance practices.

Key Responsibilities

- Active monitoring of our business strategy, key developments, and major activities – this ensures integrity and transparency in the conduct of our business operations, ensuring compliance and alignment with corporate values
- Responsibility to operate in a manner designed to meet the evolving aspirations of the stakeholders and the various societal expectations
- Review of APL's Annual Integrated Report, and sustainability-related disclosures and publications through the Board's Corporate Responsibility Committee (CRC), which provides assurance to the Board on the ESG aspects

Please refer to the CRC's Charter for more details.

operations and assures the Board on progress towards ESG goals

- Oversees formulation and implementation of ESG and climate change-related policies
- Oversees management of ESG and climate issues in line with UNSDGs, national and international ESG reporting and rating standards, and industry best practices
- Reviews Company's stakeholder communication, including sustainability, ESG & Climate reports, ESG disclosures, ratings, scores and improvement plans
- Receives quarterly updates from the Corporate Sustainability Team on individual business-specific ESG progress

engagement and community's welfare and development programmes

- Identifies CSR initiatives, recommends the budget allocations, and oversees effective implementation of CSR programmes in line with the CSR policy
- Reports to the Board and ensures compliance with legal requirements

Board's Oversight on Economic and ESG Impacts

The Board, along with its committees including the Corporate Responsibility Committee (CRC), are mandated with overseeing the management of the Company's environmental, social and economic performance. Our governance committees, as delegated by the Board, handle the specific responsibilities with regard to our climate and ESG commitments.

Read about our ESG governance on **Pg. 170**

with performance and industry practice.

How NRC works

- It identifies and recommends individuals for appointment to the Board, based on defined criteria covering qualifications, experience, integrity, independence, diversity and leadership capability
- It evaluates candidates for their professional expertise, positive attributes, and ability to devote adequate time, in line with the Company's Remuneration Policy, Board Diversity Policy, and the requirements under the Companies Act and SEBI (LODR)
- It also uses performance evaluation outcomes and succession planning considerations to guide decisions on re-appointments and new nominations

iii. Sustainability-linked incentives

iv. Clawback and Malus Policy

organisational performance, and good governance practices.

Our Nomination & Remuneration Policy

APL has a formally approved a Nomination & Remuneration Policy that lays down the principles, framework and governance standards for determining the appointment, evaluation and remuneration of the Board of Directors, Key Managerial Personnel (KMP) and Senior Management Personnel, in a structured and regulatory-aligned manner. The Committee's responsibilities are clearly stated in the terms of references as approved by the Board of Directors.

Board Diversity Policy

We have a dedicated Board Diversity Policy to guide our approach to diversity in Board composition.

Key tenets of the policy

- Fostering gender diversity, emphasising the uniqueness of perspective brought into decision-making by women directors
- Nurturing diversity in nationality, cultures and ethnicity, strengthening our strategic discussions and decision-making processes
- Ensuring diversity in skills and expertise across various domains, such as finance, operations, risk management, sustainability, ESG & technology

Board Meetings and Reporting

The Board calendar for the financial year 2026-27 is provided under the Corporate Governance Report on page no. 338 of this Integrated Annual Report.

Board Evaluation and Effectiveness

APL's Board conducts a structured annual evaluation as a whole, and also for its Committees, Individual Directors, and the Chairperson. This mechanism is repeatedly affirmed across multiple statutory filings and Board-approved documents, noting that the evaluation covers composition, competencies, duties and independent judgement, meeting effectiveness, and governance behaviours.

Remuneration Committee (NRC), as mandated under Section 178 of the Companies Act, 2013 and SEBI Listing Regulations.

External evaluation

We plan to transition from internal assessments to an independent external evaluation. The Company had been conducting internal evaluations till now. As a better governance practice, we shall be contemplating to engage an independent external agency to perform the Board, Committee, and Director evaluations. This indicates a pathway aligned with global best practices.

The external agency, once appointed, is expected to conduct evaluation using the

Safeguarding

- Regular risk assessment and management
- Comprehensive policies, procedures and protocols
- Training and communication

Monitoring and Identifying

- Whistleblower/vigil mechanism
- Grievance mechanism
- Regular internal and external reviews of compliance controls

Resolving

- Meticulous investigation of reported grievances and whistleblowing complaints
- Implementation of corrective measures and compliance controls

Policy Commitments

(GRI 2-23)

We have adopted a comprehensive framework of governance policies to not only ensure compliance with statutory regulations but also to transcend them and adhere with best practices in management of sustainability topics. The policies are reviewed and approved by the APL's Board which is also the highest governance authority at APL. We conduct regular trainings for our employees, workers, suppliers and contractors on various environmental, social and governance aspects of the operations, including environment, health and safety, cybersecurity, anti-bribery and anti-corruption, human rights, code of conduct.

In addition, individual appointment letters are issued to the Independent Directors, specifying the terms of their appointment and their duties in accordance with the provisions of the Companies Act and applicable laws.

A template of such appointment letter is available at https://www.adanipower.com/investors/corporate-governance

Employee Code of Conduct

Our Employee Code of Conduct lays down the ethical conduct, integrity, honesty, fairness and responsibility expected from our employees in the Company's day-to-day operations.

Conflict of Interest

Under the Code of Conduct, the APL Directors and Senior Management are explicitly prohibited from engaging in any situation that creates a direct or indirect conflict with the interests of the Company. These include activities that

Prevention of Insider Trading is approved by the Board, and inter alia, strictly prohibits Directors and employees from dealing in the securities of the Company while in possession of unpublished price-sensitive information in relation to the Company. We follow a Zero Tolerance policy with regard to the enforcement of the Code, and the Prohibition of Insider Trading Committee, established at Group level, deals in all such matters.

Anti-Bribery and Anti-Corruption

(GRI 205-1)

Underlining our zero tolerance towards all forms of corruption and bribery – both direct and indirect, we have implemented a formal policy on Anti-Bribery and Anti-Corruption (ABAC). The policy ensures compliance with national and international legal and ethical requirements with respect to bribery and corruption. As per the policy, we carry out periodic risk assessment across our business operations to

The policy underscores our Zero Tolerance towards all forms of unwelcome behaviours categorised as sexual harassment. Any such issue is handled and addressed by Group Monitoring Committee, and the Internal Complaints Committees (ICC) at the unit level.

Remediation of Negative Impacts

(GRI 2-25, 2-26)

Whistleblower Mechanism

We have in place a well-defined Whistleblower policy to ensure compliance with the Code of Conduct. The policy empowers employees and Directors to report any actual or suspected wrongdoings, unethical conduct, improper activities, and financial irregularities. We have provided several secure channels to enable our people to lodge a protected disclosure, and ensuring confidentiality and protection without the fear of retaliation.

- the Board and its Committees (Corporate Responsibility Committee, Risk Management Committee, Stakeholder Relationship Committee and Audit Committee)
- Board Committees, supported by Management-level ESG Committee and Site/Business level teams, to drive our sustainability agenda at all levels

engagements, covering Child labour, Forced / involuntary labour, Sexual harassment, Discrimination at workplace and Wages

Digitalisation and Cybersecurity Leadership in APL

Mr. Nitin Rohilla

(CISO/CIO – Adani Power Limited)

- Overall experience of 37 years in Digitalisation, Information Technology and Cybersecurity
- Instrumental in overseeing and leading digitalisation initiatives in Adani's Power business

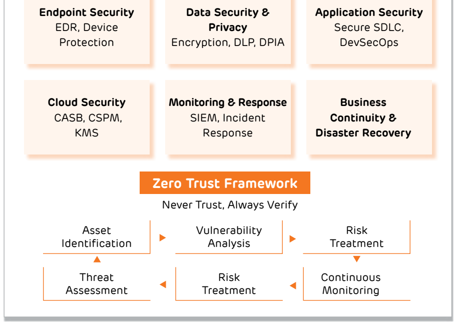
the protection of our cyber assets and ensuring trust, we continue to invest in advanced and specialised cybersecurity technologies for the development of in-house capabilities against cyber risks.

- Centralised 24x7 Cyber Security Operations Center (SOC) continuously monitors, detects, analyses, and responds to cyber threats across enterprise systems, leveraging AI-enabled security analytics
- AI and ML-driven threat detection capabilities enhance proactive risk identification, behavioural analysis, and automated mitigation of emerging cyber threats
- Robust Operational Technology (OT) security framework safeguards critical infrastructure, ensuring operational continuity, safety, and regulatory compliance

development, cyber range simulations, and security product testing

- In-house Application Security (AppSec) function integrates DevSecOps practices, including SAST and DAST, to proactively assess internally developed applications and maintain a secure development lifecycle
- Data Loss Prevention (DLP) solutions monitor and control data transfers to prevent unauthorised data exfiltration and protect sensitive corporate information
- Enterprise-wide Identity and Access Governance (IAG) enforces role-based access controls and strengthens identity lifecycle management
- Advanced perimeter security controls implemented to monitor, detect, and safeguard network boundaries against external threats

safeguarding data protection and privacy, we have institutionalised structured and mandatory cybersecurity awareness and skill development programmes across the organisation. These regular training initiatives including phishing as well as social media simulations are designed to equip employees with the knowledge, vigilance, and practical tools required to identify, prevent, and respond effectively to evolving cyber threats. Role-based and specialised training programmes are delivered to address function-specific risk exposures and responsibilities, ensuring targeted capability enhancement across business and technology teams. Through continuous learning, simulated exercises, and awareness campaigns, we are embedding a strong culture of cybersecurity, accountability, and data privacy throughout the organisation.



- **Defence Model and Technical controls**

  Covered above

- **Incident Management and Response Mechanism**

  Through a comprehensive Cybersecurity Incident Management Policy and Procedure with a defined Cybersecurity Crisis Management Plan and periodic simulations.

- **Independent Assurance Reviews:** Reviews performed by the Management Audit and Assurance Services (MAAS) team to provide additional oversight and independent validation of security practices.
- **ISMS Objective Monitoring:** Continuous monitoring and evaluation of Information Security Management System (ISMS) objectives aligned with ISO/IEC 27001:2022 requirements.
- **Governance and Compliance Oversight:** Regular tracking of compliance metrics and remediation actions through established governance forums to ensure sustained adherence to security standards and regulatory requirements.

that plays a significant role in enabling economic and social contributions and advancing the achievement of sustainable development goals. This commitment is aligned with our aspiration to become a global leader in businesses that enhance lives and support nations in developing value for all stakeholders over the long term while reinforcing our commitment to transparency, fostering trust among stakeholders and supporting the development of a more accountable and responsible global tax framework.

Thermal Power Plant at Raipur, Chhattisgarh

4 Stakeholder Engagement

Our tax team collaborates with governments and industry bodies through participatory dialogues, to help shape and influence tax policies, while ensuring compliance with emerging regulations. We are dedicated to interacting with all stakeholders in a manner grounded in integrity and transparency, guided by our defined tax principles. As we adapt to the changing global tax environment, we prioritise meaningful stakeholder engagement, forward-looking advocacy, and organisational responsiveness.

5 Risk Management and Controls

We follow sustainable tax practices with high governance. We identify tax risks with the perspective that they may be avoided / mitigated. Our tax governance framework focusses on how tax risks are identified, managed, monitored and mitigated. Wherever significant positions are taken, we seek advice from external experts / senior counsels. The key positions adopted are appropriately documented along with the basis for the same.

Standard operating procedures are built for tax processes, with the objective to follow uniform and standardised procedures. Material tax matters are reported to the committee / sub-committee of Board of Directors, as considered appropriate. Additionally, the Company has established the necessary vigil mechanism for employees and directors to report concerns about unethical or improper activities or any irregularities.

6 Advocacy

We have developed an advocacy framework leading to a constructive and transparent dialogue with governments and policymakers across all tax facets (policy, legislation and administration). These advocacy initiatives are engaged either directly by us or through relevant industry bodies with the objective of appropriate representation before the Government and policymakers on key tax issues / concerns that impact business or lead to unintended consequences.

In-house Tax Team comprising Tax Professionals

Thermal Power Plant at Mundra, Gujarat

The Board periodically reviews all strategic tax matters in its meetings. Comprehensive due diligence is carried for Mergers and Acquisitions, to effectively manage risks and ensure certainty.

TAX RISK MANAGEMENT APPROACH

1 **Risk Assessment**
Continuous tracking and monitoring of changes in tax legislations and policies

2 **Self Assessment**
Regular review of controls and governance practices to prevent non-compliances

3 **Resource Management**
Engage external tax expertise to get clarity on the tax laws, where needed

4 **Industry Benchmark**
Examine industry peers' tax approach to manage tax risks

the Company's policies, the safeguarding of its assets, implementing and maintaining internal control, preventing and detecting frauds and errors, ensuring the accuracy and completeness of the accounting records and identifying and ensuring that it complies with the laws and regulations applicable to its activities.

Those charged with governance are responsible for overseeing the Company's and its subsidiaries' financial reporting process.

Inherent Limitations in Preparing the Tax and Other Contributions

The management of the Company is responsible for preparing the Basis of Preparation in compliance with relevant requirements including applicable laws and regulations and is also responsible for making estimates that are reasonable in the circumstances and assessing that the basis is appropriate in the context of determination of the Tax and Other Contributions. The Basis of Preparation may not be suitable for another purpose.

Independent Auditor's Responsibility

Our responsibility is to examine whether the Tax and Other Contributions for the financial year 2025-26 has been properly prepared in all material respects in accordance with the Basis of Preparation.

We conducted our engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000: Assurance Engagements Other than Audits or Reviews of Historical Financial Information issued by the International Auditing and Assurance Standards Board.

BDO applies International Standard on Quality Management 1, which requires BDO to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

In accordance with the terms of our engagement, this independent assurance report on the Tax and Other Contributions has been prepared and issued at the request of APL solely for inclusion in its 'ESG Overview' section of Integrated Annual Report for the financial year 2025-26 and should not be used by any other person or for any other purpose or in any other context. We are appointed to only verify the Tax and Other Contributions in accordance with the Basis of Preparation of APL shared with us and are not the auditors of APL and BDO shall not be liable to the Company or to any other party for any claims, liabilities or expenses relating to this report. Any party other than APL who obtains access to our report or a copy thereof and chooses to rely on our report (or any part thereof) will do so at its own risk. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or, into whose hands it may come without our prior consent in writing.

Our report is released to APL on the basis that it shall not be copied, referred to or disclosed, in whole (save for inclusion in APL's 'ESG Overview' section of Integrated Annual Report for the financial year 2025-26) or in part, without our prior written consent.

1. There are no material changes and commitments affecting the financial position of your Company which have occurred between the end of the financial year and the date of this report.
2. There has been no change in nature of business of your Company.

lower volumes partly offset by capacity expansion. Other income for FY 2025-26 registered an increase of 34.11% over the previous year primarily on account of higher one-time income during the year mainly carrying costs on regulatory claims, late payment surcharge and refund from government authorities.

b) **Operating and Administrative Expenses**

Consolidated Operating and Administrative Expenses during FY 2025-26 were ₹ 34,434.41 crore as compared to ₹ 34,897.65 crore in FY 2024-25. The percentage of Operating and Administrative Expenses to Total Income has marginally increased to 59.51% in FY 2025-26 from 59.24% in FY 2024-25.

c) **Depreciation and Amortization Expenses**

Consolidated Depreciation and Amortization Expenses during FY 2025-26 were ₹ 4,564.53 crore, which has increased by 5.93% from ₹ 4,308.88 crore in FY 2024-25 mainly on account of acquisitions.

d) **Finance Costs**

Consolidated Finance Costs during FY 2025-26 were ₹ 3,366.83 crore as compared to ₹ 3,339.79 crore in FY 2024- 25.

₹ 270.25 crore in FY 2024-25. Finance Costs decreased to ₹ 339.78 crore from ₹ 440.70 crore in FY 2024-25.

Profit Before Tax decreased to ₹ 983.25 crore in FY 2025-26, as against ₹ 1,182.48 crore in the previous year. Profit After Tax for FY 2025-26 was ₹ 784.47 crore, compared to ₹ 374.19 crore in FY 2024-25. Total Comprehensive Income for the year was ₹ 785.78 crore as compared to ₹ 373.35 crore in the previous year.

Financial Performance of Moxie Power Generation Limited (MPGL):

MPGL contributed ₹ 2,985.22 crore for FY 2025-26 as compared to ₹ 1,580.94 crore for FY 2024-25 towards Consolidated total income and ₹ 425.85 crore for FY 2025-26 as compared to ₹ (127.17) crore for FY 2024-25 towards EBITDA. MPGL's share of depreciation and finance cost was ₹ 301.79 Crore and ₹ 271.07 crore, respectively in FY 2025-26 as compared to ₹ 211.70 crore and ₹ 148.65 crore, respectively for FY 2024-25. MPGL's PBT was ₹ (147.01) crore for FY 2025-26 as compared to ₹ (487.52) crore for FY 2024-25. Profit After Tax for FY 2025-26 was ₹ 268.21 crore, compared to ₹ (370.91) crore for FY 2024-25. Total Comprehensive Income for FY 2025-26 was ₹ 268.52 crore, compared to ₹ (371.29) crore for FY 2024-25.

FY 2025-26 was ₹ 552.44 crore.

Credit Rating

All the four domestic credit rating agencies i.e. CRISIL Ratings, India Ratings, CARE Ratings and ICRA Ratings have reaffirmed the ratings assigned to long-term and short-term bank loan facilities of your company at AA/Stable and A1+ respectively and also reaffirmed the ratings assigned to Non-Convertible Debentures at AA/Stable.

CARE Ratings has placed ratings assigned to long-term bank loan facilities of Korba Power Limited on Rating Watch with Positive Implications with AA- rating.

India Ratings has reaffirmed the ratings assigned to long-term and short-term bank loan facilities of Mahan Energen Limited to AA-/Stable and A1+ respectively.

Dividend and Reserves

Dividend:

The Board of Directors of your Company ("Board"), after considering the relevant circumstances holistically and keeping in view your Company's Dividend Distribution Policy, has decided that it would be prudent not to recommend any dividend for the year under review.

equity shares of the Company, pursuant to which 1 (one) equity share having face value of ₹ 10/- (Rupees Ten only) each fully paid-up, was sub-divided/split into 5 (five) equity shares having face value of ₹ 2/- (Rupees Two only) each fully paid-up. Consequently, the authorised share capital of your Company as on March 31, 2026 stood at ₹ 24800,00,00,000 divided into 12400,00,00,000 equity shares of face value of ₹ 2 each.

Non-Convertible Debentures ("NCDs")

During the year, your Company allotted 7,50,000 secured, listed, rated, taxable, non-cumulative, redeemable, non-convertible debentures ("Debentures") each bearing a face value of INR 1,00,000 aggregating to ₹ 7,500 crore to various Qualified Institutional Buyers (Mutual Funds, Private Banks, Insurance Companies, and others), on a private placement basis.

The said Debentures are listed and traded on the wholesale debt market segment of BSE Limited.

Public Deposits

There were no outstanding deposits within the meaning of Section 73 and 74 of the Act, read with rules made thereunder at the end of FY 2025-26 or the previous financial years. Your Company did not accept any deposit during the year under review.

Expansion (Brownfield and Greenfield Projects):

Your Company is undertaking a major expansion of the thermal power generation capacity of itself and its subsidiaries by developing projects with a combined capacity of 23,720 MW. This capacity expansion, which is planned to be completed by FY 2031-32, will take your Company's combined power generation capacity to 41,870 MW.

As a part of this expansion program, your Company is developing 13 projects utilizing the latest available technology, comprising 28 Units of 800 MW capacity employing Ultra-supercritical technology and two Units of 660 MW capacity employing Supercritical technology. Of this, projects comprising 14,120 MW capacity are coming up at brownfield sites, while the balance 9,600 MW projects are coming up at greenfield sites.

Your Company possesses 100% of the land required for setting up these projects. Your Company has also given advance orders to key equipment suppliers for the supply of the Ultra-supercritical Boilers, Turbines, and Generators (BTG) for entire expansion program. Further, your Company has also tied up 11,720 MW of the upcoming capacity under long-term Power Supply Agreements ("PSAs") with various State DISCOMs.

As of March 31, 2026, your Company has four projects under execution, comprising of 2x800 MW (1,600 MW)

to be subsidiary of your Company due to amalgamation with your Company:

- Adani Power (Jharkhand) Limited (w.e.f. April 4, 2025)

Pursuant to the provisions of Section 129, 134 and 136 of the Act read with rules made thereunder and Regulation 33 of the SEBI Listing Regulations, your Company has prepared consolidated financial statements of the Company and a separate statement containing the salient features of financial statement of subsidiaries, joint ventures and associates in Form AOC-1, which forms part of this Integrated Annual Report.

The annual financial statements and related detailed information about the subsidiary companies shall be made available to the shareholders of the holding and subsidiary companies seeking such information on all working days during business hours. The financial statements of the subsidiary companies shall also be kept for inspection by any shareholders during working hours at your Company's registered office and that of the respective subsidiary companies concerned. In accordance with Section 136 of the Act, the audited financial statements, including consolidated financial statements and related information of your Company and audited accounts of each of its subsidiaries, are available on website of your Company www.adanipower.com.

Regulations, the Board has identified core skills, expertise, and competencies of the Directors in the context of the Company's business for effective functioning. The key skills, expertise and core competencies of the Board are detailed in the Corporate Governance Report, which forms part of this Integrated Annual Report.

Appointment/Cessation/Change in Designation of Directors:

During the year under review, the following changes took place in the Directorships:

Appointment:

- Mr. Manmohan Srivastava (DIN:02190050), was appointed as an Additional Director (Non Executive and Independent) on the Board of your Company with effect from May 31, 2025, for a first term of three years. His appointment was approved by the shareholders vide a Special Resolution passed through General Meeting on June 25, 2025.
- Mr. S.B. Khyalia (DIN: 02470485) was appointed as Additional Director (Executive, designated as Whole Time Director and Chief Executive Officer) on the Board of your Company with effect from May 31, 2025. His appointment was approved by the shareholders vide a Special Resolution passed through General Meeting on June 25, 2025.

companies, which precluded his earlier induction.

Cessation:

Mr. Sushil Kumar Roognta (DIN: 00309302) and Mrs. Chandra Iyengar (DIN: 02821294) ceased to be Independent Directors of your Company w.e.f. November 10, 2025, on completion of their tenure. The Board places on record the deep appreciation for valuable services and guidance provided by them during their tenure of directorship.

Re-appointment of Director(s) retiring by rotation:

In accordance with the provisions of Section 152 of the Act, read with rules made thereunder and Articles of Association of your Company, Mr. Gautam S. Adani (DIN: 00006273) is liable to retire by rotation at the ensuing AGM and being eligible, offers himself for re-appointment.

The Board, on the recommendation of Nomination and Remuneration Committee (NRC) of the Company, recommends the re-appointment of Gautam S. Adani as a Director for your approval. Brief details, as required under Secretarial Standard-2 and Regulation 36 of SEBI Listing Regulations, are provided in the Notice of ensuing AGM.

Declaration from Independent Directors:

Your Company has received declarations from all the Independent Directors of your Company confirming that they meet the criteria of independence as prescribed

As required under the Act and the SEBI Listing Regulations, your Company has constituted various statutory committees. Additionally, the Board has formed other governance committees and sub-committees to review specific business operations and governance matters including any specific items that the Board may decide to delegate. As on March 31, 2026, the Board has the following statutory and governance committees.

Statutory Committees:

- Audit Committee
- Nomination and Remuneration Committee
- Stakeholders Relationship Committee
- Risk Management Committee
- Corporate Social Responsibility Committee

Governance Committees:

- Corporate Responsibility Committee
- Information Technology & Data Security Committee
- Legal, Regulatory & Tax Risk Committee
- Reputation Risk Committee
- Mergers & Acquisitions Risk Committee

governance issues, etc. Performance evaluation of Independent Directors was done by the entire Board, excluding the Independent Director being evaluated.

The results of the evaluation confirmed high level of commitment and engagement of the Board, its various committees and senior leadership. The recommendations arising from the evaluation process were discussed at the Independent Directors' meeting held on March 17, 2026, and also at the NRC meeting and Board meeting held on March 17, 2026. The suggestions were considered by the Board to optimize the effectiveness and functioning of the Board and its committees.

Independent Directors' Meeting

The Independent Directors met on March 17, 2026, without the attendance of Non-Independent Directors and members of the management. The Independent Directors reviewed the performance of Non-Independent Directors, the Committees and the Board as a whole along with the performance of the Chairman of your Company, taking into account the views of Executive Directors and Non-Executive Directors and assessed the quality, quantity and timeliness of flow of information between the management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

guiding principles for the Nomination and Remuneration Committee for identifying the people who are qualified to become the Directors. Your Company's Remuneration Policy is directed towards rewarding performance based on review of achievements. The Remuneration Policy is in consonance with existing industry practice.

We affirm that the remuneration paid to the Directors is as per the terms laid out in the Remuneration Policy.

Board Diversity

Your Company recognizes and embraces the importance of a diverse Board in its success. The Board has adopted the Board Diversity Policy which sets out the approach to the diversity of the Board of Directors. The said Policy is available on your Company's website and link for the same is given in **Annexure A** of this report.

Succession Plan

Your Company has an effective mechanism for succession planning which focuses on orderly succession of Directors, Key Management Personnel and Senior Management. The NRC implements this mechanism in concurrence with the Board.

Directors' Responsibility Statement

Pursuant to Section 134(3)(c) read with Section 134(5) of the Act, the Board, to the best of their knowledge and

operating effectively;

f. proper systems have been devised to ensure compliance with the provisions of all applicable laws and that such systems are adequate and operating effectively.

Internal Financial control system and their adequacy

The details in respect of internal financial controls and their adequacy are included in the Management Discussion and Analysis Report, which forms part of this Integrated Annual Report.

Risk Management

Your Company has a structured Risk Management Framework, designed to identify, assess and mitigate risks appropriately. The Board has formed a Risk Management Committee ("RMC") to frame, implement and monitor the risk management plan for your Company. The RMC is responsible for reviewing the risk management plan and ensuring its effectiveness. The Board has also constituted few sub-committees of RMC to ensure focused discussion on specific risks such as information technology & data security, legal, regulatory & tax, reputation and commodity price risk. The Audit Committee has additional oversight in the area of financial risks and controls. The major risks identified

Corporate Governance Report

Your Company is committed to maintaining high standards of corporate governance practices. The Corporate Governance Report, as stipulated by SEBI Listing Regulations, forms part of this Integrated

with Section 92(3) of the Act is made available on the website of your Company and can be accessed using the link www.adanipower.com.

Transactions with Related Parties

All transactions with related parties are placed before the Audit Committee for its prior approval. An omnibus approval from the Audit Committee is obtained for the related party transactions which are repetitive in nature.

All transactions with related parties entered into during the year under review were at arm's length basis and in the ordinary course of business and in accordance with the provisions of the Act and the rules made thereunder, the SEBI Listing Regulations and your Company's Policy on Related Party Transactions.

The Audit Committee comprises solely of the Independent Directors of your Company. The members of the Audit Committee abstained from discussing and voting in the transaction(s) in which they were interested.

During the year, your Company has not entered into any contracts, arrangements or transactions that fall under the scope of Section 188 (1) of the Act. Accordingly, the prescribed Form AOC-2 is not applicable to your Company for FY 2025-26 and hence does not form part of this report.

The Statutory Auditors have confirmed that they are not disqualified to continue as Statutory Auditors and are eligible to hold office as Statutory Auditors of your Company. A representative of the Statutory Auditors of your Company attended the previous AGM of your Company held on June 25, 2025.

The Statutory Auditors have expressed their unmodified opinion on the Standalone and Consolidated Financial Statements and the Auditors' Report does not contain any qualification, reservation, adverse remark or disclaimer. The Notes to the financial statements referred in the Auditors' Report are self-explanatory and do not call for any further comments.

Secretarial Auditors and Secretarial Auditors Report

Pursuant to section 204 of the Act, read with the rule made thereunder and Regulation 24A of SEBI Listing Regulations, M/s Chirag Shah and Associates, Practicing Company Secretaries (C. P. No. 3498; Peer reviewed certificate no. 6543/2025) were appointed as a Secretarial Auditor to undertake the Secretarial Audit of your Company for the first term of five consecutive years from financial year 2025-26 to financial year 2029-30. M/s. Chirag Shah & Associates has confirmed that the firm is not disqualified to continue as a Secretarial Auditor and is eligible to hold office as Secretarial Auditor of

March 31, 2027. A resolution seeking approval of the Shareholders for ratifying the remuneration payable to the Cost Auditors for FY27 is provided in the Notice of the ensuing AGM.

The Cost Audit Report for the year 2024-25 was filed before the due date with the Ministry of Corporate Affairs.

The cost accounts and records as required to be maintained under section 148(1) of the Act are duly made and maintained by your Company.

Reporting of frauds by Auditors

During the year under review, the Statutory Auditors and Secretarial Auditor of your Company have not reported any instances of fraud committed in your Company by Company's officers or employees which are required to be reported to the Audit Committee under Section 143(12) of the Act.

Secretarial Standards

During the year under review, your Company has complied with all the applicable provisions of Secretarial Standard-1 and Secretarial Standard-2 issued by the Institute of Company Secretaries of India.

Particulars of Employees

Your Company had 3967 (standalone basis) employees as of March 31, 2026.

your Company has laid down a Prevention of Sexual Harassment ("POSH") Policy and has constituted Internal Complaints Committees ("ICs") at all relevant locations across India to consider and resolve the complaints related to sexual harassment. The ICs include external members with relevant experience. The ICs, presided by senior women, conduct the investigations and make decisions at the respective locations. Your Company has zero tolerance on sexual harassment at the workplace. The ICs also work extensively on creating awareness on relevance of sexual harassment issues, including while working remotely. The employees are required to undergo mandatory training/ certification on POSH to sensitize themselves and strengthen their awareness.

During the year under review, your Company has not received any complaint pertaining to sexual harassment.

The employees undergo mandatory training / certification on POSH Policy to sensitize themselves and strengthen their awareness.

Compliance with Maternity Benefits Act, 1961

Your Company is committed to ensuring a safe, supportive, and inclusive workplace for all women employees. All eligible women employees have been extended the benefits under the said Act, including maternity leave, nursing breaks, and other statutory entitlements as prescribed. Your Company has duly

after scrutiny by the internal audit team, were not substantiated, requiring no action to be taken.

Conservation of Energy, Technology Absorption, Foreign Exchange Earnings and Outgo

The information on conservation of energy, technology absorption and foreign exchange earnings and outgo stipulated under Section 134(3)(m) of the Act read with Rule 8 of the Companies (Accounts) Rules, 2014, as amended, is provided as **Annexure D** of this report.

Cyber Security

In view of increased cyberattack scenarios, the cyber security maturity is reviewed periodically and the processes and technology controls are enhanced in-line with the threat scenarios. Your Company's technology environment is enabled with real time security monitoring with requisite controls at various layers starting from end user machines to network, application and the data.

During the year under review, your Company did not face any incidents or breaches or loss of data breaches in Cyber Security.

Code for Prevention of Insider Trading

Your Company has adopted a Code of Conduct ("PIT Code") to regulate, monitor and report trading in your

1. Your Company did not issue any equity shares with differential rights as to dividend, voting or otherwise.
2. Your Company did not issue shares (including sweat equity shares) to employees of your Company under any scheme.
3. No significant or material orders were passed by the regulators or courts or tribunals which could impact

states in India, concerned Government Departments, Financial Institutions and Banks. Your Directors thank all the esteemed shareholders, customers, suppliers and business associates for their faith, trust and confidence reposed in your Company.

Your Directors wish to place on record their sincere appreciation for the dedicated efforts and consistent contribution made by the employees at all levels, to ensure that your Company continues to grow and excel.

For and on behalf of the Board of Directors

Gautam S. Adani
Chairman

papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit by using appropriate Information technology tools like virtual data sharing by way of data room and remote desktop access tools, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2026, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter. The physical Inspection or Verification of documents and records were taken to the extent possible.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2026 according to the provisions of:

(i) The Companies Act, 2013 (the Act) and the rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

d. The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021; (Not Applicable to the Company during the audit period);

e. The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;

f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

g. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 (Not Applicable to the Company during the audit period);

h. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not Applicable to the Company during the audit period);

i. SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015: -

The Company has ensured full compliance of Regulation 17(1) with effect from December 4, 2025.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on the agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

of the Company for a period of 3 (three) years w.e.f. November 4, 2025.

3. In the Postal Ballot concluded on December 28, 2025:

   a) Approval for the appointment of Mr. Narendra Nath Misra (DIN: 00575501) as an Independent Director of the Company for a period of three (3) years w.e.f. December 4, 2025

ii. **The percentage increase in the median remuneration of employees in the financial year: 5.72%**

iii. **The number of permanent employees on the rolls of Company: 3,967** (standalone basis) as on March 31, 2026

iv. **Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration:**

- Average increase in remuneration of employees excluding KMPs: 7.50%
- Average increase in remuneration of KMPs: 6.09%*

* For the purpose of calculating % increase in remuneration of KMPs, only those KMPs who were appointed through out the current and previous financial year, are considered for comparison.

v. **Affirmation that the remuneration is as per the Remuneration Policy of the Company:**

The Company affirms remuneration is as per the Remuneration Policy of the Company.

- Advanced measures including **installation of Variable Frequency Drives (VFDs), pump optimization, and seasonal load management strategies** led to significant reductions in auxiliary power consumption.
- Several initiatives delivered **multi-million-unit (MU) energy savings**, reflecting strong operational discipline and process optimization.

Key Impact Areas

I. **Heat Rate Improvement (Activity level Gains at station)**

Major contributors:

- **Mundra:** ~9 kcal/kWh (Economizer addition, overhaul gains)
- **Tiroda:** ~ 4-5 Kcal/kWh (APH Basket, overhaul gains)
- **Kawai:** ~5-6 kcal/kWh cumulative improvement (Overhaul gains, APH Basket)
- **Udupi:**~ 3-4 kCal/kWh (NDCT Cleaning & Overhaul Impact)
- **Korba:** ~ 9-10 kcal/kWh (Condenser cleaning, APH Basket)
- **Raigarh & Butibori:** ~10–11 kcal/kWh improvements
- **Raipur:** Saving of 16 kcal/kWh
- **Mahan:** ~3-4 kCal/kWh (CT Fills Cleaning, Planned maintenance)

II. **Auxiliary Power Consumption (APC) Reduction**

Major contributors:

- **Mundra**: ~13 MU via CEP VFD, Advanced CT Fan blade installation savings
- **Tiroda**: ~6 MU via Capital & annual overhaul activities.
- **Kawai**: ~4.08 MU via CWP optimization
- **Butibori**: 1.23 MU/year per pump
- **Dahanu**: 245 kW + 190 kW APC reduction

- **Tuticorin**: ₹8 Cr (Coal Nozzle replacement, Meters procurement, SCADA Upgradation etc) (the above amount are in ~ [approximation])

(B) Technology Absorption:

(i) The efforts made towards technology absorption:

1. Adoption of Advanced Technologies and Digital Transformation

APL strengthened its digital capabilities through the deployment of advanced analytics, artificial intelligence (AI), and automation tools, including:

- **Project Beacon**, featuring digitized merit order optimization and integrated coal management systems
- Deployment of **AI-based tools for combustion optimization, clinker detection, and coal quality analytics**
- Implementation of **Asset Performance Monitoring (APM), RFID-enabled systems, and smart safety solutions**
- Implementation of **Safety & Reliability Enhancements like Fire Detections upgrades, LPG/Ammonia Leak sensors, Boiler Tube leak detection (BTLD) system**
- Development of the **Inno Power platform** to capture and implement innovative ideas for performance enhancement and resolution of operational challenges.
- Installation of programmable electromechanical automatic lubrication systems on critical equipment to ensure precise lubricant quantities at defined intervals

These initiatives mark a shift toward predictive and data-driven operations, improving decision-making and plant performance.

2. Sustainability and Clean Energy Initiatives

The Company also advanced its sustainability agenda through:

- Deployment of **rooftop solar installations** across multiple plants, contributing to clean energy generation
- **Biomass co-firing initiatives**, notably at Korba, to reduce carbon footprint

Overall, the Company has delivered significant efficiency gains through a combination of engineering upgrades, digital transformation, and operational excellence, resulting in measurable improvements in heat rate, auxiliary power consumption, and sustainability performance across all plants.

(ii) **In case of imported technology (imported during the last three years reckoned from the beginning of financial year)**

NIL

(iii) **The expenditure incurred on Research and Development**

NIL

(C) Foreign Exchange Earnings and Outgo:

The particulars relating to foreign exchange earnings and outgo during the year under review are as under:

(₹ in crore)

Particulars	FY 2025-26	FY 2024-25
Foreign exchange earned	8,913.32	8,395.54
Foreign exchange outgo	14,592.89	13,089.21

Abbreviations used in this section:-

APH- Air Pre-Heater**, NDCT**- Natural Draft cooling Tower, **CT**- Cooling Tower, **CEP**- Condensate Extraction Pump, **VFD**- Variable Frequency Drive, **CWP**- Circulating Water Pump, **TAC**- Total Auto Compressor, **LED**-Light Emitting Diode, **FRH**- Final Re-heater, **HP Heater-** High Pressure Heater, **DCS**-Distributed Control system, **SCADA**-Supervisory Control & Data Acquisition System, **AI/ML**- Artificial Intelligence/Machine Learning, **APM**-Asset Performance Monitoring, **RFID**- Radio Frequency Identification, **BTLD**- Boiler Tube Leakage Detection.

board are disclosed on the website of the company.

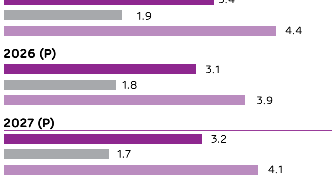
Mr. Narendra Nath Misra
Chairman - CSR Committee
DIN: 00575501



Trade tensions eased following a US-China agreement. This pact reduced tariffs and removed export restrictions on electronic components and minerals. The United States also eliminated certain agricultural tariffs. Overall tariff rates remained comparable to previous levels. Policy uncertainties, while lower than their late-2025 peaks, stayed elevated compared to the prior year. Financial conditions proved supportive despite some market fluctuations. High-growth technology stocks outperformed the broader market. Global trade volumes remained stable. Strong technology exports

global energy markets, particularly following disruptions and security concerns around the Strait of Hormuz, one of the world's most critical energy transit corridors. The resulting uncertainty across key shipping and energy routes led to increased crude oil and natural gas prices, elevating input costs across multiple sectors including power generation, transportation, manufacturing, fertilizers, and logistics. Higher energy prices also contributed to increased costs of essential commodities and industrial raw materials, thereby exerting inflationary pressure across both developed and emerging economies.

The global economy also witnessed increased financial market volatility during the year as investors adopted a cautious approach amid heightened geopolitical risks. Financial conditions tightened across several markets, risk premiums increased, and currency fluctuations added pressure on import-dependent economies. Commodity-importing nations, particularly emerging and developing economies, remained vulnerable to elevated fuel and food prices alongside currency depreciation pressures.

At the same time, the prolonged impact of the Russia-Ukraine conflict continued to weigh on global manufacturing activity and energy-intensive industries, particularly across Europe. Persistently elevated energy prices and supply-side disruptions continued to affect industrial competitiveness, trade flows, and production

arising from the ongoing geopolitical environment.

Advanced economies are expected to grow by 1.8% in 2026, supported by resilient labour markets, technology investments, and selective fiscal support measures. The United States is projected to expand by 2.3%, aided by policy incentives and continued private sector activity, while the Eurozone is expected to record relatively moderate growth of 1.1% amid persistent energy and industrial challenges. Japan's growth is projected at 0.7% following recent policy recalibrations and softer domestic demand conditions.

Emerging markets are expected to continue outperforming advanced economies despite external headwinds. China is projected to grow by 4.4% in 2026, supported by domestic stimulus measures and easing trade pressures, while India is expected to remain among the fastest-growing major economies, driven by resilient domestic demand, infrastructure investments, and manufacturing expansion.

Headline inflation rises to 4.4% in 2026 and then dips to 3.7% in 2027. Advanced economies approach targets gradually. The United States lags slightly in this regard. Policy rates trend downward in the United States and the United Kingdom. They hold steady in the euro area and inch up in Japan. World trade growth moderates to 2.6% in 2026 due to tariff realignments. Technology exports continue to lend vital support.

(Source: World Economic Outlook (IMF)

(Source: PIB (SAE), PIB (FAE), MoSPI)

India remains among the fastest-growing major economies globally, backed by resilient domestic demand, active investment, and ongoing structural reforms. It is important to note that the latest estimates place India as the sixth-largest economy in the world with a nominal GDP of approximately USD 4.15 trillion in 2026, rather than the fourth-largest as previously stated. Despite this, the nation is expected to sustain its growth momentum and could improve its global ranking over the medium term as expansion continues.

Private consumption continues as the key engine. Lower inflation and rising real wages fuel this momentum. Public capital expenditure reached ₹ 12.2 lakh crore. Such outlays advanced infrastructure and stimulated sectors like manufacturing, construction, and energy. Initiatives such as Viksit Bharat 2047 advance self-reliance and capacity enhancement despite external headwinds.

Average headline Consumer Price Index (CPI) inflation recorded a historic low of 1.7% during the first nine months of FY 2025-26, supporting domestic purchasing power through sustained price stability. Due to the global distress, the Ministry of Statistics and Program Implementation (MoSPI) finalised the inflation rate at 3.4% (as of March 2026), anchored by prudent government spending and steady bank credit expansion. The banking system shows fortitude with ample capital buffers and prices may continue to exert pressure on the Indian Rupee and external balances in the near term. Nevertheless, supported by resilient foreign exchange reserves, stable domestic demand, and prudent policy measures, India remains well-positioned to manage external volatility while maintaining macroeconomic stability.

Government spending on infrastructure will continue to provide solid support. Private sector investments keep rising steadily. Policy measures and capacity building further reinforce the manufacturing base. The services sector holds its reliable growth path. Digital progress and resilient exports lend additional strength.

(Source: PIB)

Indian Power Industry

India continued to strengthen its position as the world's third-largest power sector during FY 2025-26, supported by large-scale infrastructure development and rising energy demand across the country. The sector is witnessing a steady transition towards a more diversified and sustainable power mix, with renewable energy contributing nearly 40% of the total installed capacity. While coal continues to remain the primary source for baseload power generation, strong growth in solar and

milestone was achieved on July 29, 2025, when renewable energy sources met 51.5% of electricity demand on a peak demand day of 203 GW.

Supported by investments amounting to ₹ 1.85 lakh crore, the sector significantly reduced the national energy shortage to 0.03% compared with 4.2% in FY 2013-14. Continued infrastructure development also supported electrification initiatives across the country, including the electrification of 18,374 villages and the provision of power connections to 2.86 crore households.

Reduction in Power Shortage

Source - Ministry of Power

India continues to focus on long-term energy transition and decarbonisation initiatives, with a target of achieving 500 GW of renewable energy capacity by 2030. The ongoing expansion in renewable energy infrastructure is expected to strengthen domestic energy security and support the country's clean energy objectives.

(Source: PIB, EnerData)

energy into the national grid. Approximately, 14,500 ckm of dedicated transmission lines have been commissioned under the initiative to support large-scale solar and wind energy integration across regions.

Under the National Electricity Plan, investments amounting to ₹ 9.15 lakh crore are proposed through 2032 for the development of nearly 1,05,000 ckm of transmission lines and 5,95,000 MVA of transformation capacity. The planned infrastructure expansion aims to support the peak power demand of 458 GW and facilitate the evacuation of 500 GW of non-fossil fuel capacity by 2030. Increased adoption of tariff-based competitive bidding and High Voltage Direct Current ("HVDC") technology is also expected to support execution efficiency and strengthen transmission infrastructure to meet the country's growing power demand.

(Source: T&D India, PIB)

Distribution

India's power distribution sector witnessed a significant financial turnaround during FY 2024-25, with distribution companies ("DISCOMs") reporting an aggregate profit after tax of ₹ 2,701 crore. This marked a notable recovery from the substantial losses recorded by the sector over the past decade. Financial improvement was further supported by a reduction in outstanding government

infrastructure improvements, the sector successfully met a peak power demand of 242.49 GW during FY 2025-26, while the national energy shortage declined to 0.03%.

(Source: PIB, Solar Quarter)

Coal Demand and Supply

India's installed power generation capacity expanded reliably through FY 2025-26, with coal remaining the bedrock of the country's base load power architecture. Highlighting a landmark shift toward domestic energy self-reliance, captive and commercial coal mining reached an unprecedented milestone by collectively crossing the 200 Million Tonnes (MT) threshold for the first time. As of March 31, 2026, annual coal production from these specific blocks surged to 210.46 MT, registering a notable YoY growth of 10.22% over the 190.95 MT achieved in the previous fiscal year. Simultaneously, coal despatches scaled up by 7.35% to reach 204.61 MT, driven by optimised logistics, accelerated mine operationalisation, and streamlined evacuation infrastructure. This record-breaking domestic supply momentum significantly bolsters resource security for thermal power plants, mitigating import dependency and stabilising the fuel supply chain required to satisfy India's escalating peak power demands.

(Source: PIB)

of nuclear capacity by 2047.

Despite the aggressive renewable push, coal remains the backbone of India's baseload power. The strategy involves adding 97 GW of coal-based capacity by 2032, utilising high-efficiency Ultra-Supercritical technologies. Thermal plants are increasingly transitioning to flexible operations to manage peak demand, with coal expected

thermal plants totalling 18,110 MW spread across eight states. These include Gujarat, Maharashtra, Karnataka, Rajasthan, Chhattisgarh, Madhya Pradesh, Jharkhand, and Tamil Nadu. A 40 MW solar facility in Gujarat provides additional capacity.

APL is expanding its generation capacity by 23,720 MW to achieve a total generation capacity of 41,870 MW by FY 2031-32.

Holding structure and geographic spread		Operating Capacity	Locked in Capacity	Target Capacity
Adani Power Limited	Mundra (GJ)	4,620 MW		4,620 MW
	Bitta (GJ)	40 MWp		40 MW
	Tiroda (MH)	3,300 MW		3,300 MW
	Dahanu (MH)	500 MW		500 MW
	Kawai (RJ)	1,320 MW	3,200 MW	4,520 MW
	Udupi (KA)	1,200 MW		1,200 MW
	Raipur (CG)	1,370 MW	1,600 MW	2,970 MW
	Raigarh (CG)	600 MW	3,200 MW	3,800 MW
	Godda (JH)	1,600 MW		1,600 MW

Anuppur Thermal Energy (MP) Private Limited*	Anuppur (MP)		2,400 MW	2,400 MW

A completed Double Materiality assessment further strengthens the Company's ability to address both impact-related and financial ESG factors. Such progress highlights APL's focus on elevating environmental, social, and governance standards.

Significant highlights in FY 2025-26

Strategic Acquisitions/Divestments

The Company acquired Vidarbha Industries Power Limited ("VIPL"), a company undergoing Corporate Insolvency Resolution Process under the Insolvency and Bankruptcy Code, following the approval of its Resolution Plan by the Hon'ble National Company Law Tribunal ("NCLT"), Mumbai Bench. VIPL owns and operates a 2x300 MW (600 MW) thermal power plant located in the MIDC Industrial Area, Butibori, Nagpur, Maharashtra.

The cost of acquisition was ₹ 4,000 crore in the form of an upfront cash payment to the lenders of VIPL. The acquisition of VIPL advances APL's position as India's leading private sector power producer, with a combined operating power generation capacity of 18,150 MW.

The Company has expressed interest in acting as an "Implementing Entity" for acquiring certain power assets and investments of Jaiprakash Associates Limited ("JAL"), subject to necessary approvals, as part of a Resolution Plan submitted by its associate concern Adani Enterprises

technology, comprising 28 Units of 800 MW capacity employing Ultra-supercritical technology and two Units of 660 MW capacity employing Supercritical technology. Of this, projects comprising 14,120 MW capacity are coming up at brownfield sites, while the remaining 9,600 MW projects are coming up at greenfield sites.

The Company possess 100% of the land required for setting up these projects. It has also given advance orders to key equipment suppliers for the supply of the Ultra-supercritical Boilers, Turbines, and Generators for its entire expansion programme. Further, it has also tied up 13,320 MW of the upcoming capacity under long-term Power Supply Agreements ("PSAs") with various State DISCOMs.

Of these, the following long-term PSAs were signed during the current year:

- PSA with Assam Power Distribution Company Limited ("APDCL") for supply of power on a long-term basis, comprising the entire capacity of a 3,200 MW (4X800 MW) greenfield Ultra-Supercritical Thermal Power Plant ("USCTPP") to be developed in Assam on Design, Build, Finance, Own and Operate ("DBFOO") model by sourcing fuel from the allocated coal linkage arranged by the Utility under the SHAKTI Policy

- In addition to the above, the Company has also received a Letter of Allocation ("LOA") from the Maharashtra State Electricity Distribution Company Ltd. ("MSEDCL") for supply of 1,600 MW Thermal Power under a long-term PSA, upon APL being declared as the successful bidder in terms of the tender invited and issued from MSEDCL
- Similarly, the Company has received a LOA MSEDCL for supply of 2,500 MW RE RTC ("Renewable Energy Round-The-Clock") power for a period of 25 years

As of March 31, 2026, the Company has four projects under execution comprising the 2x800 MW (1,600 MW) Mahan Phase-II USCTPP of Mahan Energen Limited, 2x800 MW (1,600 MW) Phase-II expansion USCTPPs each at the Raipur and Raigarh plant, and the 2x660 MW (1,320 MW) Supercritical power project of Korba Power Limited. All these projects are progressing in line with the execution schedule.

Subsidiaries, Joint Ventures, and Associate Companies

During the year under review, three entities were formed or acquired by the Company, or its subsidiaries:

- Vidarbha Industries Power Limited (acquired)
- Wangchhu Hydroelectric Power Limited (Incorporated in Bhutan as JV)

Strengths

- **Leading private thermal power capacity:** APL maintains its position as India's largest private thermal power producer. The Company operates over 18 GW of capacity located strategically across multiple states. This scale creates competitive advantages in the energy sector.
- **Advanced supercritical technology portfolio:** The Company's current fleet of power plants includes 60% ultra-supercritical and supercritical units by capacity. These technologies require less fuel per unit of electricity and emit lower levels of carbon. All planned new plants will adopt ultra-supercritical design to maintain environmental efficiency.
- **Optimal plant site selection:** Power plants benefit from locations near coal sources and port facilities. This arrangement lowers transportation expenses and supports smooth operations. Mundra plant operations gain direct advantage from proximity to Adani Port infrastructure.
- **Vertical integration within Adani Group:** The Company accesses integrated operations across coal mining, port handling, and electricity generation. Group coordination reduces exposure to external supply chain disruptions.

Revised estimates now indicate a need for about 97 GW of additional thermal capacity to meet 388 GW of projected peak demand, with a large share expected from private players. The Company has already lined up a 23.7 GW project pipeline to address this opportunity.

APL's position in both long-term and short-term power supply contracts.

- **Group-level reputation concerns:** Scrutiny over Adani Group governance matters may impact investor sentiment. This could complicate capital raising for new projects.

Financial Performance

(₹ in crore)

Particulars	FY 2025-26	FY 2024-25	Change +/-
Continuing Revenue from Operations (1)	53,781	54,503	(1.32%)
Continuing Other Income (2)	1,801	1,970	(8.57%)
Total Continuing Revenue	55,583	56,473	(1.58%)
Total Reported Revenue	57,865	58,906	(1.77%)
Continuing EBITDA (3)	21,285	21,575	(1.34%)
Reported EBITDA	23,431	24,008	(2.40%)
Continuing Profit Before Tax	13,354	13,926	(4.11%)
Reported Profit Before Tax	15,500	16,360	(5.26%)
Tax Charge / (Credit)	2,528	3,610	(29.96%)
Profit After Tax	12,971	12,750	1.74%

(1), (2), (3): Continuing Operating Revenues and Continuing Other Income exclude prior period income recognition. Continuing EBITDA excludes prior period income and expenses

EBITDA: Earnings Before Interest, Taxes, Depreciation, and Amortisation higher operating expenses due to growth in operating capacity and increased expenditure on Corporate Social Responsibility.

Depreciation increased to ₹ 4,565 crore in FY 2025-26 from ₹ 4,309 crore in FY 2024-25. The rise mainly reflected newly acquired power plants.

Finance costs for FY 2025-26 totalled ₹ 3,367 crore against ₹ 3,340 crore in FY 2024-25.

Continuing Profit Before Tax stood at ₹ 13,354 crore in FY 2025-26, compared to ₹ 13,926 crore in the previous year. Profit After Tax was ₹ 12,971 crore, up from ₹ 12,750 crore in FY 2024-25.

Total Comprehensive Income reached ₹ 12,991 crore for FY 2025-26 against ₹ 12,747 crore in FY 2024-25

Performance of Subsidiaries

Mahan Energen Limited (MEL)

Operational Performance of MEL

MEL achieved a Plant Load Factor (PLF) of 77% in FY 2025-26 as compared to 79% in FY 2024-25, while total power sales volume for the two years was 7,864 million units (MU) as compared to 7,911 MU, respectively. Power sales under Power Purchase Agreements (PPAs) increased to 2,943 MU in FY 2025-26 as compared

The acquisition of KPL (erstwhile Lanco Amarkantak Power Limited) was completed by APL on September 6, 2024. During FY 2025-26, KPL achieved a PLF of 79%, as compared to 88% PLF achieved for the seven months ended March 31, 2025. Power sales during the two periods were 3,766 MU and 2,423 MU, respectively.

Financial Performance of KPL

Total Income for FY 2025-26 was ₹ 1,552 crore, compared to ₹ 742 crore in the seven-month period ended March 31, 2025.

EBITDA for FY 2025-26 was ₹ 602 crore, compared to ₹ 187 crore in the seven months ended March 31, 2025.

Finance Costs for FY 2025-26 were ₹ 132 crore as compared to ₹ 94 crore in the seven months ended March 31, 2025.

Profit Before Tax and after Exceptional Items for FY 2025-26 was ₹ 405 crore as compared to ₹ 81 crore for the seven months ended March 31, 2025. The Profit After Tax for FY 2025-26 was ₹ 354 crore, compared to a loss of ₹ 64 crore in FY 2024-25.

Moxie Power Generation Limited (MPGL)

Operational Performance of MPGL

The acquisition of Coastal Energen Private Limited and the amalgamation with MPGL were completed on

Debtor Turnover Ratio (in Times) (Revenue from Operations + Carrying Cost) / (Average Trade Receivables)	4.41	4.56
Inventory Turnover Ratio (in Times) Fuel Cost / Average Fuel Inventory	11.51	10.29
Interest Service Coverage Ratio (in Times) EBITDA / Interest Expense	6.85	8.61
Current Ratio (in Times) Current Assets to Current Liabilities	1.41	1.60
Debt Equity Ratio (in Times) Total Borrowings / Total Equity	0.81	0.66
Operating Margin (%) (EBITDA excluding Other Income + Carrying Cost)/ (Revenue from Operations + Carrying Cost)	37.06%	38.06%
PAT Margin (%) PAT to Total Revenue	22.42%	21.64%
Return on Net Worth PAT / Net Worth	19.53%	22.10%

Explanation for change in Return on Net Worth (RONW):

The RONW of the Company changed from 22.1% for FY 2024-25 to 19.53% for FY 2025-26 due to increase in Total Equity from ₹ 57,674 Crores as of March 31, 2025 to ₹ 66,402 Crores as of March 31, 2026, as more particularly explained in Note 22 to the Consolidated Financial Results for FY 2025-26.

in-house operating experience. The Company's coal sourcing and end-to-end logistics capabilities further reinforce reliable generation and sector-leading profitability in thermal power.

- **Secured growth pipeline:** Land and equipment for a substantial capacity build-out are already tied up, enabling the timely execution of committed projects. A brownfield-weighted expansion mix, driven by an experienced execution engine and project assurance framework, supports faster roll-out and disciplined capital deployment.
- **Large addressable market with policy support:** India's growing baseload and peak demand, along with an estimated requirement for sizeable new thermal capacity by 2032, create a long runway for growth. APL is well placed to participate in this expansion, aided by long-term contracts that offer availability-based, two-part tariff structures and assured fuel linkages.
- **Strong and flexible capital position:** An effectively unlevered capital structure at the standalone level and healthy liquidity give the Company meaningful financial flexibility. A large part of the expansion programme is expected to be supported by internal accruals, underpinning a well-funded growth plan without over-stretching the balance sheet.

Additional information on the risk governance structure and processes is presented in the Risk Governance section under the Strategic Review section of this Integrated Report.

Human Resource

APL places people at the core of its business model, recognising employees as a critical form of capital and a key source of long-term competitive advantage. The organisation is focussed on building a capable, engaged and future-ready workforce through structured development, robust safety practices and a strong leadership pipeline.

People as strategic capital

- Employees are regarded as the foundation of the Company's success, with clear emphasis on enhancing skills, knowledge and productivity
- A relatively young workforce, with an average age of 38 years, combines energy and enthusiasm with relevant industry experience to support execution excellence

Safety and well-being focus

- Employee safety and well-being remain paramount, reflected in initiatives such as the 'Chetna'

Leadership pipeline and succession

- A structured approach to succession planning ensures high-potential professionals and young managers are identified and prepared for critical roles
- Flagship programmes such as Fulcrum, the Adani Leadership Acceleration Program, Takshashila and North Star, run in collaboration with leading management institutes, are developing a robust leadership bench equipped to navigate future challenges

Cautionary Statement

This section may contain forward-looking statements relating to the Company's objectives, projections, expectations and estimates, which are based on certain assumptions about future events. Actual results could differ, as these statements are subject to various external factors beyond the Company's control. The Company undertakes no obligation to publicly update or revise any forward-looking statements to reflect subsequent events or developments.

Corporate Governance Philosophy

Courage, Trust and **Commitment** are the main tenants of our Corporate Governance Philosophy -

- **Courage:** we shall embrace new ideas and businesses.
- **Trust:** we shall believe in our employees and other stakeholders
- **Commitment:** we shall standby our promises and adhere to high standards of business.

The Company believes that sustainable and long-term growth of every stakeholder depends upon the judicious and effective use of available resources and consistent endeavour to achieve excellence in business along with active participation in the growth of society, building of environmental balances and significant contribution in economic growth. The cardinal principles such as independence, accountability, responsibility, transparency, fair and timely disclosures, credibility, sustainability, etc. serve as the means for implementing the philosophy of corporate governance in letter and in spirit.

Governance Principles

At the heart of the Company, governance commitment is a one tier Board system with Board of Directors of the Company (**"Board"**) possessing a disciplined orientation and distinctive priorities.

Ethics and integrity: The Board is committed to the highest integrity standards. Directors commit to abide by the 'Code of Conduct', regulations and policies under oath, endeavoring to demonstrate intent and actions consistent with stated values.

Responsible conduct: The Board emphasises the Company's role in contributing to neighbourhoods, terrains, communities and societies. In line with this, the Company is accountable for its environmental and societal impact, corresponded by compliance

and substance.

- Effective and clear Governance structure with diverse Board, Board Committees and Senior Management.
- Robust risk management framework, strong foundation of Code of Conduct and business policies & procedures.
- Well-defined corporate structure that establishes checks, balances and delegation of authority at appropriate levels in the organisation.

Size and Composition

The Board comprises of highly experienced persons of repute, eminence and has a good and diverse mix of Executive and Non-Executive Directors with 50% being Independent Directors including an Independent Woman Director. The Board composition is in conformity with the applicable provisions of Companies Act, 2013 (**"Act"**), SEBI Listing Regulations, as amended from time to time and terms of shareholders' agreement and other applicable statutory provisions.

As on March 31, 2026, the Board consists of 8 (eight) Directors as follows:

SN	Category	Name of Director	% of Total Board size
1	Non-Executive Promoter Directors	i. Mr. Gautam S. Adani, Chairman ii. Mr. Rajesh S. Adani	25%
2	Executive Director	i. Mr. Anil Sardana, MD ii. Mr. S. B. Khyalia, WTD and CEO	25%
3	Non-Executive Independent Directors	i. Mrs. Sangeeta Singh ii. Mr. Manmohan Srivastava iii. Mr. Shailesh Haribhakti iv. Mr. Narendra Nath Misra	50%

MD: Managing Director | **WTD:** Whole-Time Director | **CEO:** Chief Executive Officer

Brief Details of Board of Directors

Mr. Gautam S. Adani (DIN: 00006273)
(Chairman and Non-Executive Promoter Director)

Board Meetings and Procedure

Meetings Schedule and Agenda

The schedule of the Board meetings and Board Committee meetings are finalised in consultation with the Board members and communicated to them in advance. The Board Calendar for the financial year 2026-27 has been disclosed later in this report and has also been uploaded on the Company's website. Additional meetings are called, when necessary, to consider the urgent business matters.

All Committee recommendations placed before the Board during the year under review were unanimously accepted by the Board.

The Board devotes its significant time in evaluation of current and potential strategic issues and reviews Company's business plans, corporate strategy and risk management issues based on the markets it operates in and in light of global industry trends and developments to help achieve its strategic goals.

The Chief Financial Officer and other Senior Management members are invited to the Board and Committee meetings to present updates on the items being discussed at the meeting. In addition, the functional heads of various business segments/ functions are also invited at regular intervals to present updates on the respective business functions.

Minimum 4 (four) pre-scheduled Board meetings are held every year. Apart from the above, additional Board

During the year under review, Board met **7 (seven)** times on:

1	April 30, 2025
2	May 31, 2025
3	August 1, 2025
4	October 30, 2025
5	November 21, 2025
6	January 29, 2026
7	March 17, 2026

The Board meets at least once in every quarter to review the Company's operations and financial performance. The maximum gap between two meetings is not more than 120 days. The necessary quorum was present in all the meetings.

The attendance of the Board members at the Board meetings and the Annual General Meeting of the Company held during FY 2025-26, is as follows:

7
Meetings

91%
Average Attendance

N.A. = Not Applicable

Attended through video conference | Leave of absence | Attended in Person | Chairperson

During the year, the Board accepted all recommendations of the Committees of the Board, which were statutory in nature and required to be recommended by the Committee and approved by the Board. Hence, the Company is in compliance of condition of clause 10 (j) of schedule V of the SEBI Listing Regulations.

Meeting of Independent Directors:

The Independent Directors meet at least once in a year, without the presence of Executive Directors or Management representatives. They also have separate meeting(s) with the Chairman of the Board, to discuss issues and concerns, if any. During the year, the Independent Directors met once on March 17, 2026. The Independent Directors, inter alia, discussed the issues arising out of the Committee Meetings and Board discussion including the quality, quantity and timely flow of information between the Company Management and the Board that is necessary for the Board to effectively and reasonably perform its duties. In addition to these formal meetings, interactions outside the Board Meetings also take place between the Chairman and Independent Directors.

Statutory Auditors also have independent access to the members of the Audit Committee to discuss internal audit effectiveness, control environment and their general feedback. The Independent Directors also have access to Secretarial Auditor, Cost Auditor and the management for discussions and questions, if any.

Directors' Induction and Familiarisation:

The Board Familiarisation Programme comprises of the following:

- Induction Programme for Directors including Non-Executive Directors
- Immersion sessions on business and functions; and
- Strategy sessions

All new Directors are taken through a detailed induction and familiarisation program when they join the Board of the Company. The induction program is an exhaustive one that covers the history and culture of Adani portfolio of companies, background of the Company and its growth, various milestones in the Company's existence since its incorporation, the present structure and an overview of the businesses and functions.

- Capital Management Plan,
- Sanctions Compliance Framework,
- Human Resources and Framework relating to Prohibition of Insider Trading Framework.

Each event has a multiple sessions followed by Q&A session after each session. Site visits are also organised during one or two of such events.

In summary, through above events / meetings, members of the Board get a comprehensive and balanced perspective on the strategic issues facing the Company, the competitive differentiation being pursued by the Company, and an overview of the execution plan. In addition, this event allows the members of the Board to interact closely with the senior leadership of the Company.

Remuneration Policy:

The Remuneration Policy of the Company is directed towards rewarding performance, based on review of achievements on a periodic basis. The Company endeavors to attract, retain, develop and motivate the high-caliber executives and to incentivise them to develop and implement the Group's Strategy, thereby enhancing the business value and maintaining a high-performance workforce. The Policy ensures that the level and composition of remuneration of the Directors is optimum.

include participation and contribution by a Director, commitment, effective deployment of knowledge and expertise, effective management of relationship with stakeholders, integrity and maintenance of confidentiality and independence of behaviour and judgement.

iii) Remuneration to Executive Directors:

The remuneration of the Executive Directors is recommended by the Nomination and Remuneration Committee to the Board based on criteria such as industry benchmarks, the Company's performance vis-à-vis the industry, responsibilities shouldered, performance/track record, macro-economic review on remuneration packages of heads of other organisations. The pay structure of Executive Directors has appropriate success and sustainability metrices built in. On the recommendation of the Nomination and Remuneration Committee, the remuneration paid/payable by way of salary, perquisites and allowances (fixed component), incentive and/or commission (variable components), to its Executive Directors within the limits prescribed under the Act is approved by the Board and by the Members in the General Meeting.

The Executive Directors are not being paid sitting fees for attending meetings of the Board and its Committee.

Company. The Company has not granted stock options to Non-Executive Directors.

ii) Executive Director:

GOVERNANCE OF SUBSIDIARY COMPANIES

As per criteria given in Regulation 16 of the SEBI Listing Regulations and basis financial statements for the year ended March 31, 2026, the Company does not have any material subsidiary as on the date of this Integrated Annual Report. The subsidiaries of the Company function with an adequately empowered Board of Directors and sufficient resources.

The minutes of the board meetings of the subsidiary companies along with the details of significant transactions and arrangements entered into by the subsidiary companies are shared with the Board of Directors on a quarterly basis. The Financial Statements of the subsidiary companies are presented to the Audit Committee. The information in respect of the loans and advances in the nature of loans to subsidiaries pursuant to Regulation 34 of the SEBI Listing Regulations is provided in Notes to the standalone Financial Statements.

The Company has a policy for determining 'material subsidiaries' which is uploaded on the website of the Company at: https://www.adanipower.com/investors/board-and-committee-charters.

		Companies Act, 2013 ▪ Conversion of loan into equity under Section 62(3) of the Companies Act, 2013 ▪ Creation of mortgage / charge on the properties / undertakings of the Company under Section 180(1)(a) of the Companies Act, 2013

Held through video conference

Code of Conduct:

The Board has laid down a Code of Business Conduct and Ethics (the "Code") for all the Board Members and Senior Management of the Company. The Code is available on the website of the Company www.adanipower.com . All Board Members and Senior Management Personnel have affirmed compliance of the Code. A declaration signed by Managing Director to this effect is attached to this report.

The Board has also adopted separate code of conduct with respect to duties of Independent Directors as per the provisions of the Act.

Whistle Blower Policy:

The Company has adopted a Whistle Blower Policy and has established the necessary vigil mechanism for employees and directors to report concerns about unethical or improper activities and financial irregularities. The Company periodically circulates informative e-mails along with the FAQs on Whistle Blower Policy, Do's and Don'ts etc. to the employees (including new employees) to familiarize them with the policy. The Company also conducts frequent workshops/ training sessions to educate and sensitise the employees. The whistle blower policy also ensures zero-tolerance approach to bribery and corruption and is committed to acting professionally, fairly and with integrity in all its business dealings and relationships, wherever it operates. Company's designated personnel are strongly prohibited from engaging in any form of unethical activity. This includes a prohibition against direct bribery and indirect bribery, including payments that can be routed through third parties. If any employee, partner vendor, supplier, stakeholder suspects or becomes aware of any potential bribery involving the employee, it is incumbent upon the person to report it to the Vigilance and Ethics Officer.

A copy of the said Policy, is available on the website of the Company at: https://www.adanipower.com/investors/corporate-governance.

The Company conducts various training sessions, circulates the informatory e-mails periodically along with the FAQs on Anti-Corruption, Anti-Bribery & Conflict of Interest Policy, Do's and Don'ts etc. to the employees to familiarize them with the policy.

Code on prohibition of Insider Trading:

In compliance with the SEBI (Prohibition of Insider Trading) Regulations, 2015 (**"PIT Regulations"**), the Company has formulated the Code of Conduct for Prevention of Insider Trading (**"PIT Code"**) to regulate

Policy on Related Party Transactions

The Company has adopted the Policy on Related Party Transactions (**"RPT Policy"**) in line with the requirements of the Act and SEBI Listing Regulations, as amended from time to time, which is available on the website of the Company at: https://www.adanipower.com/investors/corporate-governance.

The RPT Policy intends to ensure that proper reporting, approval, disclosure processes are in place for all transactions between the Company and related parties. This Policy specifically deals with the review and approval of Material RPTs, keeping in mind the potential or actual conflicts of interest that may arise because of entering into these transactions. All RPTs by the Company and RPTs by the subsidiary companies, exceeding their respective standalone turnover, were placed before the Audit Committee for review and prior approval. Prior omnibus approval is obtained for RPTs on a yearly basis, for the transactions which are of repetitive nature and/ or entered in the ordinary course of business and are at arm's length. All RPTs entered during the year were in ordinary course of business and on arm's length basis.

The Company had also obtained the prior approval of shareholders for the material RPTs entered into during the Financial Year 2025-26.

in line with the requirements of the Listing Regulations. The objective of this Policy is to lay down criteria for identification and dealing with material subsidiaries and to formulate a governance framework for subsidiaries of the Company. The Policy on Material Subsidiary is available on the website of the Company at https://www.adanipower.com/investors/corporate-governance.

Apart from the above, the Company has adopted many other mandatory and non-mandatory policies, which are available on Company's website at: https://www.adanipower.com/investors/corporate-governance.

Means of Communications

Website:

The Company has dedicated "Investors" section on its website viz. www.adanipower.com, wherein any person can access the corporate policies, Board committee charters, Annual Reports, financial results, investor presentation and shareholding details etc.

disputes related to securities. Investors can now opt for arbitration with Stock Exchanges in case of any dispute against the Company or its RTA regarding delays or defaults in processing investor service requests. This is in addition to the existing SCORES system, where investors initially lodge their complaints or grievances against the Company.

If an investor is not satisfied with the resolution provided by the Company, RTA, or SCORES, they may initiate the Online Dispute Resolution process through the ODR Portal at https://smartodr.in/login. The link to the ODR Portal is also displayed on the Company's website at www.adanipower.com.

In compliance with SEBI guidelines, the Company has communicated this Dispute Resolution Mechanism to all Members holding shares in physical form.

As on March 31, 2026, no matters, relating to the Company, were pending in SMART ODR mechanism.

Other Disclosures

Compliance with Non-mandatory Requirements:

The non-mandatory requirements have been adopted to the extent and in the manner as stated under the appropriate headings detailed below:

The Board:

The Board periodically reviewed the compliance of all the applicable laws and steps taken by the Company to rectify instances of non-compliance, if any. The Company is in compliance with all mandatory requirements of Listing Regulations.

The Company has a Non-Executive Chairman and hence, the need for implementing the non-mandatory requirement i.e., maintaining a chairperson's office at the Company's expense and allowing reimbursement of expenses incurred in performance of his duties, does not arise.

The Board Chair is a promoter, non-independent, non-executive director. Excluding Board Chair, the Board comprises of ~57% Independent Directors. The Company doesn't have any Lead Independent Director as of now.

Disclosure of Related Party Transactions:

During the financial year 2025-26, all Related Party Transactions entered into by the Company were in the ordinary course of business and were at arm's length basis and were approved by the members of Audit Committee, comprising only of the Independent. The details of Related Party Transactions are disclosed in financial section of this Integrated Annual Report. The Board has adopted a policy on materiality of Related Party Transactions and also on dealing with Related Party Transactions.

The Board's approved policy for related party transactions is uploaded on the website of the Company at: https://www.adanipower.com/investors/corporate-governance

Disclosure of accounting treatment in preparation of Financial Statements:

The Company follows the guidelines of Accounting Standards referred to in section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 together with Ind AS issued by the Institute of Chartered Accountants of India.

Fees paid to Statutory Auditors:

Total fees for all services paid by the Company and its subsidiaries, on a consolidated basis, to the Statutory Auditors and all entities in the network firm / network entity of which the Statutory Auditors is a part, is given below:

(₹ in crore)

Payment to Statutory Auditors	FY 2025-26	FY 2024-25
Audit Fees	4.17	4.47
Other Services	1.05	0.43
Out of pocket expenses	0.17	0.20
Total	**5.39**	**5.10**

related to capital markets during the last three years.

Contributions:

The Company has not made any contributions to / spending for political campaigns, political organizations, lobbyists or lobbying organizations, trade associations and other tax-exempt groups.

Code of Conduct:

The Code of Conduct for the Directors and Senior Management of the Company has been laid down by the Board and the same is posted on the website of the Company.

A declaration signed by the Managing Director affirming the compliance with the Code of Conduct by the Board Members and Senior Management Personnel of the Company is appended as an annexure to this report.

Conflict of Interest:

The designated Senior Management Personnel of the Company have disclosed to the Board that no material, financial and commercial transactions have been made during the year under review in which they have personal interest, which may have a potential conflict with the interest of the Company at large.

Details of Loans and Advances by the Company and its Subsidiaries in the nature of loans to firms/companies in which Directors are interested:

The aforesaid details are provided in the financial statements of the Company forming part of this Integrated Annual Report. Please refer to Note 61 of the standalone financial statements.

Proceeds from public issues, rights issues, preferential issues etc.

The uses/application of proceeds/funds raised from public issues, rights issues, preferential issues, etc. (wherever applicable) are disclosed by the Company to the Audit Committee, as part of the quarterly review of financial results.

Details of the Company's material subsidiary as per Regulation 24 of the SEBI Listing Regulations:

Name	Date of Incorporation	Place of Incorporation	Statutory Auditor	Date of Appointment
Not Applicable				

STATUTORY CERTIFICATES:

CEO/CFO Certification:

The certificate required under Regulation 17(8) of the Listing Regulations, duly signed by the CEO and CFO of the Company was placed before the Board. The same is provided as an annexure to this report.

Company Secretary certificate on Corporate Governance:

The Company has complied with all the mandatory requirements specified in Regulations 17 to 27 and clauses (b) to (i) of sub-regulation (2) of Regulation 46 of the SEBI Listing Regulations. It has obtained a certificate affirming the compliances from CS Chirag Shah, Partner, M/s. Chirag Shah & Associates, Practising Company Secretaries, affirming compliance of Corporate Governance requirements during FY 2025-26 and the same is attached to this report.

Certificate from Secretarial Auditor pursuant to Schedule V of the Listing Regulations:

A certificate issued by CS Chirag Shah, Partner, Chirag Shah & Associates, Practising Company Secretaries, pursuant to Schedule V of the Listing Regulations, confirming that none of the Directors on the Board of the Company has been debarred or disqualified from being appointed or continuing as director of the Company by the Securities and Exchange Board of India, Ministry of Corporate Affairs or any such statutory authority as on March 31, 2026, is annexed to this report.

The Company complies with all applicable secretarial standards.

Reconciliation of Share Capital Audit:

A qualified Practicing Company Secretary carried out a reconciliation of Share Capital Audit to reconcile the total admitted capital with NSDL and CDSL and the total issued and listed capital. The Secretarial Audit confirms that the total issued / paid-up capital of the Company is in agreement with the total number of shares in physical form and the total number of dematerialized shares held with NSDL and CDSL.

Raising of funds, if any, through preferential allotment:

During the year under review, the Company did not raise any funds through preferential allotment or qualified institutional placement as specified under Regulation 32(7A) of the SEBI Listing Regulations.

26. Overview of the entity's material responsible business conduct issues

APL conducted a double materiality assessment in FY 2023-24. During this exercise, we engaged with stakeholders including investors, shareholders, customers, community members, academia, regulators, and media. The assessment followed GRI 3: Material Topics 2021 Standards and ESRS General Disclosures, considering both impact and financial materiality. The materiality is being reviewed annually to align with the evolving ESG landscape. The material topics are presented in the following table:

Sr. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate the positive/negative implications)
			Environmental		
1	Air Emissions	Risk	▪ Thermal power generation activities have the potential for adverse impact on environment, thereby affecting social health, wellbeing and stakeholder perception. Major pollutants include particulate matter (PM), sulphur dioxide (SOx), nitrogen oxides (NOx).	▪ APL has been implementing Air pollution control devices (APCDs) like Electrostatic Precipitators (ESPs), Fugitive dust extraction, suppression and control systems, low NOx burners, Flue Gas Desulphurisation (FGD) units and providing adequate stack height meeting the national standards and guidelines.	Negative

	of Assets		refer to those assets that are unable to achieve their original economic return due to changes associated with the energy transition. ▪ Several factors can contribute to assets becoming stranded, including new government regulations that limit the use of fossil fuels, shifts in demand towards renewable energy due to lower energy costs, and legal actions against high emitters.	and adopt relevant energy solutions to ensure business continuity. ▪ Our efforts are dedicated to preserving our assets while enhancing operational efficiencies.	

			social license to operate.	▪ Water sourcing risk assessment is being carried out. ▪ Water conservation and efficiency initiatives have been implemented including, technologies such as closed-loop cooling systems, wastewater recycling, installation of water meters, periodic water audit and rainwater harvesting. ▪ All our hinterland thermal plants are "Zero Liquid Discharge." ▪ Compliance with environmental and other regulations.	

			lower environmental footprint, and improved ESG performance.	and continuous improvement through audits and benchmarking. ▪ Waste utilisation (reuse/ recycle) broadly contributes to circular economy leading to resource saving.	

			Strong labour practices present opportunities to enhance workforce productivity, improve employee engagement and retention, strengthen industrial relations, and align with evolving ESG expectations, thereby reinforcing stakeholder trust.	▪ Regular training, safety drills, and skill-building initiatives enhance workforce capability, while structured grievance mechanisms support stable industrial relations enable continuous monitoring of safety KPIs and compliance.	
10	Community Engagement	Opportunity	By participating in community development activities, a positive societal impact can be generated. This includes creating employment opportunities, supporting local infrastructure projects, and contributing to social welfare programs. Effective community engagement helps build trust and fosters a supportive relationship between the plant and the local population.	The Adani Foundation has been dedicated to creating sustainable opportunities for marginalized communities by facilitating quality education, promoting sustainable livelihood development, fostering a healthy society, and supporting rural infrastructure development.	Positive

				intensity and enable broader participation wherever feasible. ▪ Structured retention and progression mechanisms, including mentorship, transparent career pathways, and bias-resistant systems.	
12	Employee Development and Talent Retention	Opportunity	Investing in employee development and talent retention is critical for the long-term success of thermal power plants. Providing continuous learning opportunities, career advancement programs, and competitive compensation packages can attract and retain top talent. A focus on employee development leads to a skilled and motivated workforce, driving operational excellence and innovation.	APL invests in employee development through a comprehensive skill assessment and tailored training programs, which include technical, behavioural, cultural, and role-based initiatives. The 'e-Vidyalaya's Percipio' platform allows self-directed learning and offers training on various skills, including problem-solving and data analytics. APL also focuses on ethical training, sustainability, and provides opportunities for peer shadowing and cross-functional teamwork.	Positive

			▪ Effective identification, assessment, and mitigation of uncertainties improve preparedness and organisational awareness, supporting continuity planning and stakeholder confidence.		
15	Supply Chain Management	Risk	Effective supply chain management is essential in ensuring the smooth operation of thermal power plants. This involves sourcing high-quality raw materials, maintaining robust logistics networks, and fostering strong relationships with suppliers. Efficient supply chain management can reduce operational risks, lower costs, and enhance the overall reliability of the power plant. Increased ESG risks across the supply chain leading to operational disruptions, reputational damage and affecting stakeholder relations.	APL has a Responsible Supply Chain Management Policy mandating compliance by suppliers and contractors. We prioritise partners aligned with ethical, social, and environmental standards, focusing on reducing emissions, conserving resources, and minimising waste. Through responsible sourcing and promotion of local procurement, we aim to strengthen community development while maintaining our reputation as a responsible business partner.	Negative

			improve efficiency, reduce environmental impact, and enhance competitiveness. Collaboration with research institutions and industry partners can drive groundbreaking innovations that shape the future of thermal power generation

- Ensure 100% compliance with Code of Conduct for Board of Directors.
- To Become one of the top 5 companies in Electricity Generation Sectors in the world in next 05 Years.

Health and Safety:

- Achieve Zero Harm
- Deployment of relevant National and International safety standards.
- Capacity building through learning and development programs.
- Implementation of latest technologies, digitization, AI/ML for monitoring and improvement of safety performance.

Tree Plantation Contribution:

- Contribute to the pledge of planting 100 million trees by 2030.
- Organizing and participating in tree plantation drives.
- Collaborating with environmental organizations and local communities.

Single-use Plastic-Free Certification:

- Achieve Single-use-Plastic-Free (SuPF) certification for 100% of operating locations.

Biodiversity Conservation & Enhancement:

- Biodiversity Risk Assessment in accordance with relevant National and Global Framework of all sites.
- No net loss to biodiversity in business operations.
- Implementation of BMP (Biodiversity Management Plan) for conservation and enhancement.
- 100% alignment with the India Business Biodiversity Initiative (IBBI).

	■ Double Materiality assessment in line with global framework. ■ Integrate material ESG issues into management systems and business strategies. ■ Regularly review and update the materiality assessment to reflect changing stakeholder expectations. **Inclusive Growth through Community development:** ■ Undertaking Corporate Social Responsibility (CSR) initiatives aligned with business impacts. ■ Focusing on projects that leave positive footprints and enhance societal happiness. ■ Engaging with local communities to address their needs and priorities. ■ **Diversity, Equity and Inclusion.** ■ Foster a diverse and inclusive workplace culture. ■ Ensure equal opportunities for all employees. ■ Monitor and report on diversity and inclusion metrics. **Human Rights & Fair labour practices:** ■ Conduct human rights due diligence ■ Implement policies and practices to protect human rights. ■ Periodically review and reporting of human rights and labour practices.

	Environmental Stewardship Operating in the thermal power sector, we are acutely aware of our environmental responsibilities. APL has made meaningful progress in reducing carbon intensity through investments in supercritical and ultra-supercritical generation technologies, improving heat rates, and increasing renewable energy procurement for our operations. Our water stewardship efforts, including "Zero Liquid Discharge" systems and rainwater harvesting, continue to minimise freshwater withdrawal. Fly ash utilisation rates have improved steadily up to 100%, contributing to the circular economy, while over 4.5 million trees planted to date reflect our commitment to biodiversity conservation and enhancement. **Social Impact** Through our partnership with the Adani Foundation, we have positively impacted millions of lives across thousands of villages in education, healthcare, sustainable livelihoods, and community infrastructure. Within the organisation, our comprehensive safety management systems, diversity and inclusion initiatives, and employee development programs ensure a safe, equitable, and empowering workplace for all. **Governance and Accountability** Strong governance underpins our ESG progress. Board-level oversight, combined with robust policies on ethics, anti-corruption, human rights, and responsible supply chain management, ensures that we operate with the highest standards of integrity across our value chain.

Our commitment lies in creating an enriching work environment focused on individual growth for all employees and workers. Regular bi-annual and annual performance reviews form the basis of our training and development efforts, with a substantial investment of ₹ 4.41 crore allocated to this purpose in the reporting period. Collaborating with reputable consultants, we conduct skill assessments and gather employee feedback to tailor personalized learning plans aligned with both individual aspirations and organizational goals.

Our training initiatives extend across digital platforms such as e-vidyalaya's Percipio, and the Adani Power Training and Research Institute (APTRI). These platforms offer flexible learning pathways and mobile accessibility, empowering employees to pursue self-paced learning. Mandated trainings cover critical areas including prevention of sexual harassment (POSH), compliance, sustainability, and risk management, ensuring employees are well-versed in industry standards and best practices. APL also provides training to employees for improving productivity through digital adoption of AI/ ML enabled dashboards and decision systems.

Moreover, we encourage experiential learning through peer shadowing and cross-functional team projects, fostering collaboration and knowledge exchange among employees of diverse backgrounds and expertise levels.

3. Of the instances disclosed in Question 2 above, details of the Appeal/ Revision preferred in cases where monetary or non-monetary action has been appealed.

Case Details	Name of the regulatory/ enforcement agencies/ judicial institutions
Not Applicable	Not Applicable

4. Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.

Yes, APL has formulated an Anti-Corruption and Anti-Bribery policy and the same is available on the website.

https://www.adanipower.com/-/media/Project/Power/Investors/Corporate-Governance/Policies/Anti-Corruption-and-Anti-Bribery-Policy.pdf

Adani Power Limited (APL) is committed to conducting business honestly and ethically. We maintain a zero tolerance policy toward bribery and corruption and are dedicated to acting professionally, fairly, and with integrity in all our business dealings and relationships, wherever we operate. To support this, we have implemented strict systems to prevent, detect, and address bribery.

Under this policy, designated persons are strictly prohibited from engaging in any form of bribery, whether direct or indirect, including through third parties. If any associate suspects or becomes aware of potential bribery involving APL, it is their responsibility to report the concern to the Vigilance and Ethics Officer.

This policy applies to all individuals engaged by APL (including all existing and future entities under APL) across all levels and roles. This includes, but is not limited to, senior management, officers, directors, employees (whether permanent, fixed-term, or temporary), consultants, contractors, trainees, secondees, home-based workers, casual and agency staff, volunteers, interns, agents, sponsors, and any other persons associated with APL or its subsidiaries, regardless of location.

8. Number of days of accounts payables ((Accounts payable *365) / Cost of goods/services procured) in the following format:

	FY 2025-26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)
Number of days of accounts payables	33.15	37.96

9. Open-ness of business Provide details of concentration of purchases and sales with trading houses, dealers, and related parties along-with loans and advances & investments, with related parties, in the following format:

Parameter	Metrics		FY 2025-26	FY 2024-25
Concentration of Purchases	a.	Purchases from trading houses as % of total purchases	NA	NA
	b.	Number of trading houses where purchases are made from	NA	NA
	c.	Purchases from top 10 trading houses as % of total purchases from trading houses	NA	NA
Concentration of Sales	a.	Sales to dealers/distributors as % of total sales	NA	NA
	b.	Number of dealers /distributors to whom sales are made	NA	NA
	c.	Sales to top 10 dealers/distributors as % of total sales to dealers / distributors	NA	NA

	requirement, Lock-Out and Tag-Out, permit to work and road safety etc. Environmental Awareness Overview - Addressing noise pollution, water conservation, energy conservation, waste management, air pollution and biodiversity conservation.	

2. **Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If Yes, provide details of the same.**

Yes, APL has established processes to identify, prevent, and manage conflicts of interest involving members of the Board. The APL Code of Conduct for the Board of Directors sets out clear standards of conduct, including requirements for managing conflicts of interest. Under this code, all members of the Board of Directors and Senior Management are required to act in the best interests of APL and to exercise independent judgment, free from any external influence.

A conflict of interest arises when the personal interests of a director or senior management employee conflict, or may appear to conflict, with the interests of the company as a whole. Any actual or potential conflict of interest must be disclosed promptly to the Company Secretary, supplemented by mandatory conflict of interest declarations that are in place. Employees are required to submit declarations even where no conflict exists. Failure to submit these disclosures within the prescribed timeframe may result in appropriate disciplinary action.

These controls ensure that conflicts of interest are properly identified, transparently disclosed, and effectively managed, thereby safeguarding the integrity and credibility of APL's operations.

APL's supply chain is a critical enabler of India's infrastructure-led growth and a key contributor to inclusive socio-economic development. As one of the country's most diversified infrastructure platforms, our businesses engage with a vast and diverse supplier ecosystem, comprising large enterprises, MSMEs, contractors, transporters, and service providers spread across urban, semi-urban, and aspirational geographies. This engagement is not transactional in nature; it is anchored in long-term partnerships that create shared value for the business and its value-chain partners.

APL's operations and projects are located in regions where local enterprises play a pivotal role in economic activity, including tribal districts, emerging industrial clusters, and remote geographies. By deliberately integrating local suppliers and service providers into our supply chain, APL contributes to grassroots enterprise development, livelihood creation, and regional economic resilience. As these suppliers scale alongside APL's projects, they generate multiplier effects that strengthen local economies, build capabilities, and improve financial stability for communities.

Recognising that access to affordable and timely finance is fundamental to supplier sustainability and growth, APL has made targeted investments in strengthening the financial ecosystem for its suppliers. Adani Group's Vendor financing and invoice discounting mechanisms are enabled through digital platforms such as M1 Exchange and RXIL and partnerships with leading financial institutions have significantly improved suppliers' access to working capital and reduced their cost of funds. These initiatives have delivered tangible benefits, including interest cost savings, enabling suppliers-particularly MSMEs to improve cash flows, invest in capacity expansion, and enhance operational resilience.

This ecosystem-building approach is complemented by a strong foundation of responsible and transparent supplier governance. APL has established a structured framework to promote ethical conduct, safe working conditions, environmental stewardship, and compliance across its supply chain. Through a common Supplier Code of Conduct, ESG-based screening for new suppliers, periodic assessments of existing suppliers, and focused capacity-building initiatives, the organisation seeks to progressively elevate sustainability standards while supporting suppliers in their transition journeys. Rather than serving as a gatekeeping mechanism alone, these processes are designed to enable supplier improvement, long-term alignment, and shared risk management.

We are also committed to ensuring single-use plastic free premises.

The quantity of hazardous waste generated at our facilities is relatively low and is temporarily stored in designated areas prior to disposal in compliance with regulatory requirements. Non-recyclable hazardous waste is disposed of through State Pollution Control Board (SPCB) approved common Treatment, Storage, and Disposal Facilities (TSDFs). Emphasis is placed on segregation at the source, with robust control measures in place to ensure traceability and compliance through to final disposal.

4. **Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

Owing to the nature of APL's product/service offerings, EPR is Not Applicable to us.

Indicate input material	FY 2025 – 26 (Current Financial Year)	FY 2024-25 (Previous Financial Year)
Not Applicable		

4. **Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:**

	FY 2025 – 26 (Current Financial Year)			FY 2024-25 (Previous Financial Year)

b. Details of measures for the well-being of workers:

In order to ensure safety and well-being at workplace, we conduct various training programs for all our employees as well as contractual workers. We focus on making the trainings relevant and practical by engaging our workforce in different modules. We also conduct various awareness and health promotion activities for our employees and contractual workers.

All our operating sites carry out periodical medical examination for employees as well as contractual workers, in compliance with the applicable regulations.

We also have specific health standards and undertake first aid and health emergency management and have employed qualified medical practitioners at each of our site/ locations. To protect our employees and contractual workers, appropriate personal protective equipment (PPEs) is also provided.

3. **Are the premises/ offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.**

Yes, APL conforms with the requirements of the Rights of Persons with Disabilities Act, 2016, and is committed to providing the employees and workers a diverse and equitable work environment. APL's infrastructure plan is designed and constructed to address the accessibility to workplace for differently abled employees and workers. The corporate offices have a ramp at the entry across office locations, the elevators have braille signs and are designed for visually impaired, and there are dedicated toilets for differently abled employees and workers.

4. **Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.**

Yes. APL has a Diversity, Equality, and Inclusion Policy which promotes an inclusive work culture, driven by the values of empathy and mutual respect. APL strives to foster a diverse and equitable environment by embracing and encouraging differences among our employees and workers. These include, but are not limited to, age, disability, gender identity or expression, sexual orientation, race, religion, place of origin, native language, family or marital status, political affiliation, socio-economic status, veteran status, and other characteristics.

Permanent Employees	Yes. The online grievance redressal platform- SPEAK UP provides a structured process for employees to raise concerns, ensuring prompt resolution. The system is designed to redress the grievance within a defined timeline of 14 working days. The grievances are resolved in a fair and time-bound manner, maintaining utmost confidentiality. Additionally, our Whistleblower Policy provides a secure mechanism for reporting any violations, ensuring transparency and accountability within APL. APL also has a policy on prevention, prohibition and redressal of sexual harassment of women at the workplace and has Internal Complaints Committees (ICCs) in compliance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. Members of the ICCs are responsible for conducting inquiries pertaining to such complaints. APL, on a regular basis, sensitizes its employees on the prevention of sexual harassment at the workplace through workshops, group meetings, online training modules and awareness programs. www.adanipower.com/-/media/Project/Power/Investors/Corporate-Governance/Policies/Employee-Grievance-Management-Policy.pdf
Other than Permanent Employees	Yes. Suppliers, Consultants, Retainers, Clients or any other parties that are engaged on a project / periodic basis are governed by the terms & conditions of the contract. Grievances if any, can be raised with concerned HR Business Partners and respective functional heads.

9. **Details of performance and career development reviews of employees and worker:**

We have a robust Performance Management process with an objective to establish utmost clarity in terms of the process to be followed at each step and what is expected from all the stakeholders involved. The process covers activities related to measuring performance of all employees as part of the year-end review, rating & promotion recommendation, moderation and individual feedback. We also have a performance review group (PRG) consisting of a group of people who discuss the performance and behavioral aspects of an individual. All the eligible employees undergo an annual performance appraisal process as determined by APL.

commitment, teamwork orientation, employee empowerment and enlistment, scientific decision-making, continual improvement, comprehensive and ongoing training, and unity of purpose.

Our operations are certified under the ISO 45001 (OHSMS) standard, and all APL sites have linked the Group Safety Management System with their existing Integrated Management System (IMS).

Our health and safety priorities are articulated in our EHS Policy, with the overarching aim of achieving 'Zero Harm to Life.' APL's leadership is committed to the development, implementation, and continual improvement of Occupational Health and Safety (OHS) objectives, policies, and goals. We firmly believe that all injuries, occupational illnesses, and incidents are preventable.

To translate this commitment into action, we have enhanced our efforts on OHS over the past few years through the development of robust processes and governance. In association with the reputed safety consultant M/s. DuPont, we embarked on a Safety Culture Transformation Journey named Project Chetna to achieve excellence and establish benchmarks in OHS performance.

We ensure several levels of checks and balances throughout the organization, supported by comprehensive policies, management systems, and regular training and awareness-raising sessions.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Adani Group has implemented globally recognized Safety Intervention and Risk Assessment programs, including Safety Interaction (SI), Vulnerability Safety Risks (VSR), Safety Checks and Assurance (SCA), Site Risk Field Audits (SRFA), Process Hazard Analysis (PHA), and Pre-Startup Safety Review (PSSR). These programs are fully aligned with business-specific Integrated Management System processes for Hazard Identification and Risk Assessment (HIRA) and Job Safety Analysis (JSA).

APL has adopted this comprehensive framework to evaluate both the potential risks and opportunities associated with job tasks and individual actions. These safety interventions serve the overarching purpose of preventing injuries, protecting assets, and creating long-term sustainable value across all organizational activities and processes.

		Financial Year)	Financial Year)
Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked)	Employees	0	0
	Workers	0.07	0.19
Total recordable work-related injuries	Employees	0	0
	Workers	3	7
No. of fatalities	Employees	0	0
	Workers	1	1
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	2	0

12. **Describe the measures taken by the entity to ensure a safe and healthy workplace.**

The health and safety of our people is our highest priority. To uphold this commitment, we follow a shared responsibility approach that strengthens engagement across all workforce levels and enhances the safety culture at every APL site and location. We continuously work to reduce reportable incidents, minimize injuries, and monitor the safety performance of our operations.

Our occupational health and safety management system is aligned with the Group's Safety Framework and applies to all employees, contractors, business associates, visitors, and the surrounding community. Several of our sites across APL are also certified under ISO 45001:2018.

demonstrating exemplary safety practices across its sites.

13. Number of Complaints on the following made by employees and workers:

Category	FY 2025 – 26 (Current Financial Year)			FY 2024 – 25 (Previous Financial Year)		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks
Working Conditions	4	4	--	0	0	--
Health & Safety	0	0	--	0	0	--

14. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Health and safety practices	100%
Working Conditions	100%

(Note: All APL sites are certified ISO 45001:2018 by Third party)

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

All incidents are investigated thoroughly as per Group Safety Guidelines on Incident Reporting & Investigation and learning is shared across sites to ensure non-occurrence of similar incidents. Also, employees and workers are encouraged to report the maximum number of unsafe acts and conditions to eliminate such incidents.

	Year)	Year)	Year)	Year)
Employees	0	0	0	0
Workers	2	0	2	0

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

Yes, after reaching the retirement age, and based on business needs, some distinguished employees are retained as advisors or consultants. Additionally, throughout their employment, various skill enhancement programs are offered to ensure their continued employability.

5. Details on assessment of value chain partners

	% of value chain partners (by value of business done with such partners) that were assessed
Health and safety practices	100%
Working Conditions	100%

(*Value chain partner include direct suppliers of APL & contractors)

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

As a part of our strategy to prevent health and safety related incidents, we have identified two focus areas which are contractor safety management (CSM) and operational discipline. CSM procedure provides support in manpower deployment whereas the operational discipline ensures that proper measures to eliminate hazards are taken at all our sites.

Customers	No	Regular Customer's Meet, Business Visits, Sales Visit, Customer Satisfaction Survey	Frequent, Need based	Quality, Timely Delivery, Order Placements
Suppliers	No	Regular Supplier's Meet, Suppliers Assessments, Seminars, Conferences	Continual	Quality, Sustainability, Cost

Community and NGOs	Yes	Community Meetings	Frequent and Need based	CSR, Education, Welfare
Media	No	Press Conferences, Telephonic and E-mail Communication	Continual, Need based	Outlook, Announcements
Peers and Key Partners	No	Industry Associations, Events, and Conferences	Need based	Knowledge Sharing
Academia & Research Institutions	No	Meetings, Visits, Academics related tours	Need based	Knowledge Sharing, Recruitments

Second, we engaged and collaborated with stakeholders through a tailored engagement plan that reflected the specific nature, concerns and aspirations of each group.

Third, we systematically reviewed and consolidated the feedback received and used it to prioritise our ESG material topics. These material topics directly inform our ESG strategy and action plans, including the targets we set and the ESG-related policies and commitments adopted by APL.

The materiality is reviewed annually to align with the evolving ESG landscape.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

APL operates multiple plants across India, and we recognize our responsibility to support the communities residing around these locations, particularly marginalized and vulnerable groups. We are committed to safeguarding their rights, interests, and natural and cultural resources, while also enabling them to participate in and benefit from local development initiatives.

We understand the critical need for reliable and high quality healthcare services, especially among economically disadvantaged populations. In response, we have worked extensively to enhance access to essential healthcare infrastructure and services. Key initiatives include our Mobile Health Care Units and health checkup camps conducted in government schools, in the neighboring communities, which have significantly improved community outreach and health outcomes.

The said Human rights policy extends to our business partners who are responsible for ensuring compliance with the same and make sure that the workforce employed at different Adani businesses are provided with relevant trainings to make them aware of their rights and obligations.

APL also has a Supplier Code of Conduct (SCC) that covers various human rights aspects; all procurement agreements with critical suppliers include conditions pertaining to labour standards and occupational health and safety.

Although APL at present does not have a structured system of monitoring the training hours for the contract manpower, however, they are trained and sensitized about human rights through initiatives on labour practices and CSR activities.

We are also working on to further strengthen our existing approach to human rights training and engagement including setting up a digital platform for better tracking and recording of hours of trainings conducted on ESG including human rights for different category of employees including workers.

(workers include skilled, semi-skilled & un-skilled out sourced contract labor)

Note: As a part of our learning and development strategy we ensure that all the employees have access to Human Rights training and there are e-modules on the relevant topics in the learning management tools. The onboarding exercise for all new employees includes Human Rights awareness as part of their induction session. This induction session is held on monthly basis and focuses on aspects of POSH, and Code of Conduct. While the training on different elements of human rights is covered under various awareness and training program organized APL, we are further strengthening our existing approach to human rights training and engagement including setting up a digital platform for better tracking and recording of hours of trainings conducted on ESG including human rights for different category of employees including workers.

Complaints on POSH as a % of female employees / workers	0	0.85
Complaints on POSH upheld	0	0

Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%
Others – please specify	--

(Assessment carried out by statutory authorities)

11. **Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.**

Not Applicable.

opportunities and fostering a diverse and inclusive work environment.

Our workplaces are designed to provide necessary support and reasonable accommodations that enable employees with disabilities to perform their roles effectively. At our corporate offices, we have installed ramps at entry points and lobbies for wheelchair access, designated restrooms for differently abled employees, and elevators equipped with Braille signage for individuals who are visually impaired.

Our other locations also comply with national and local accessibility requirements to accommodate the needs of differently abled individuals. All existing and new APL infrastructure is developed with a comprehensive accessibility plan, ensuring inclusive access across work areas, restrooms, common spaces, and movement zones within and around our facilities.

4. **Details on assessment of value chain partners:**

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	100
Discrimination at workplace	100
Child Labour	100
Forced Labour/ Involuntary Labour	100
Wages	100
Others - Please specify	100

(Value chain partners cover APL's direct suppliers & contractors working in APL premises)

5. **Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above**

No significant risks identified during assessment.

for Purchasing Power Parity (PPP) (Total energy consumed / Revenue from operations adjusted for PPP)	revenue		
Energy intensity in terms of physical output	(GJ/MWh)	9.61	9.54
Energy intensity (optional) – the relevant metric may be selected by the entity		--	--

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Independent assessment carried out by M/s. TUV India Pvt. Ltd. A copy of their assessment statement is attached as annexure to this report.

2. **Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.**

Yes, Targets set under the PAT scheme have been achieved.

In PAT cycle VII Mundra, Tiroda, Kawai & Udupi TPPs have achieved their target in FY25-26.

4. Provide the following details related to water discharged*:

Waste intensity per rupee of turnover from operations **Metric tonnes /₹**	0.000029	0.000026232
Waste intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total waste generated [MT] / Revenue from operations adjusted for PPP)	0.000590	0.000600
Waste intensity in terms of physical output	NA	NA

wherever possible.

Hazardous waste is handled, segregated, stored, and transported in accordance with applicable regulatory requirements and best industry practices. It is stored in designated storage facilities and sent to State Pollution Control Board (SPCB)-approved Common Treatment, Storage, and Disposal Facilities (TSDF) for safe and compliant management. Additionally, APL is extending equipment life through preventive maintenance, thereby reducing scrap metal and hazardous waste generated from damaged components.

Apart from hazardous waste, the most significant non-hazardous waste streams include scrap metal, wood waste, glass, tires, e-waste, cardboard, and paper. These waste streams are managed in alignment with our 3R approach to maximize reuse and recycling. All our sites and locations are working towards achieving Zero Waste to Landfill certification wherever feasible.

11. **If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

Sr. No.	Location of operations/ offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
1	Mundra TPP	Coal Based Thermal Power Plant	Yes, environmental and CRZ clearance conditions are complied with.
2	Tiroda TPP		Yes, environmental clearance conditions are complied with.
3	Udupi TPP		Yes, environmental and CRZ clearance conditions are complied with.
4	Dahanu TPP		Yes, environmental and CRZ clearance conditions are complied with.
5	Thoothukudi TPP		Yes, environmental and CRZ clearance conditions are complied with.

The policy is supported by a formal governance framework that facilitates systematic biodiversity management across the organization. We are committed to the objectives of the Convention on Biological Diversity (CBD) and are a signatory to the Indian Business & Biodiversity Initiative (IBBI). In line with this commitment, we have set an ambitious target to achieve a net positive biodiversity impact across all our operations and projects.

Comprehensive biodiversity conservation plans have been implemented across all operational locations, integrating strategic measures such as greenbelt development, community tree plantations, wildlife safe passages, biodiversity awareness signage, vehicle speed limit enforcement, on site food waste management, and targeted awareness programs for employees, contractors, and local communities.

To accomplish this, our Integrated Management System (IMS) supports biodiversity mapping across our business locations and promotes greater awareness among stakeholders. This structured approach ensures that biodiversity considerations remain an integral part of our long term sustainability efforts.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along with summary	Outcome of the initiative
1	Biomass co-firing of 3.7 % at Korba TPP and 0.9 % at Tiroda TPP achieved.	Not Applicable	▪ Successfully avoided approximately 0.3 million tCO2e GHG emissions due to biomass cofiring.
2	Provision of Fly Ash waste to cement industries for utilisation in clinker production.		▪ Successfully avoided approximately 3.7 million tCO2e GHG emissions due to ash utilisation in clinker production.

Not Applicable					

3. **Describe the mechanisms to receive and redress grievances of the community.**

APL has established a formal grievance redressal mechanism supported by a structured Grievance Redressal Register that systematically tracks each complaint from submission through to resolution, capturing key details such as applicant information, nature of the grievance, persons involved, associated compensation, resolution status, and date of closure. Community engagement is facilitated through regular interactions between APL and CSR representatives and local stakeholders, including Panchayat members and village leaders, with periodic feedback and review meetings and village level committees ensuring ongoing coordination and monitoring. Program Officers, working under the supervision of the CSR Head, serve as the first point of contact for community members to submit grievances either orally or in writing, ensuring timely and effective redressal on a one-to-one basis.

Under the provisions of EIA notification, 2006. As part of the Environmental Clearance process for development project, public consultation (public hearing) has been carried out to receive concerns/ suggestions/ demands/ grievance/ comments from local communities. The same has been addressed as part of Social EMP.

4. **Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

	FY 2025-26 Current Financial Year	FY 2024-25 Previous Financial Year
Directly sourced from MSMEs/ small producers	18.8%	25.7%
Sourced directly from within the district and neighbouring districts	18.3%	35%

3	Madhya Pradesh	Singrauli	6.05

3. (a) **Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)**

No, we do not have a policy on this as yet.

(b) **From which marginalized /vulnerable groups do you procure?**

Not Applicable

(c) **What percentage of total procurement (by value) does it constitute?**

Not Applicable

4. **Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:**

S. No	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share

Not Applicable		

Safe and responsible usage	**Not Applicable,** considering the nature of APLs product and services offerings
Recycling and/or safe disposal	

3. Number of consumer complaints in respect of the following:

	FY 2025-26 Current Financial Year		FY 2024-25 Previous Financial Year		Remarks
	Received during the year	Pending resolution at end of year	Received during the year	Pending resolution at end of year	
Data privacy	0	0	0	0	--
Advertising	0	0	0	0	--
Cyber-security	0	0	0	0	--
Delivery of essential services	0	0	0	0	--
Restrictive Trade Practices	0	0	0	0	--
Unfair Trade Practices	0	0	0	0	--
Other	0	0	0	0	--

4. Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary recalls	NA	NA
Forced recalls	NA	NA

Not Applicable, as business nature is B2B.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Not Applicable.

1/P/CIR/2024/177, dated 20 December 2024;

3) *SEBI circular SEBI/HO/CFD/CMD-2/P/CIR/2021/562, dated 10 May 2021;*

4) *The SEBI notification SEBI/LAD-NRO/GN/2023/131, dated 14 June 2023, related to BRSR reporting requirements;*

5) *The BRSR Core – Framework for Assurance and ESG Disclosures for the Value Chain, as stipulated by SEBI circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122, dated 12 July 2023;*

6) *SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2025/42, dated 28 March 2025.*

7) *World Resources Institute (WRI) / World Business Council for Sustainable Development (WBCSD) Greenhouse Gas (GHG) Protocol (A Corporate Accounting and Reporting Standard).*

8) *National Guidelines on Responsible Business Conduct, 10 December 2018*

For the purpose of this assurance engagement, the primary reporting criteria comprised the SEBI BRSR Core framework, including Annexure I – Format of BRSR Core, and the Industry Standards on Reporting of BRSR Core issued vide SEBI circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated 20 December 2024. Other referenced frameworks, standards and guidance documents, including the WRI/WBCSD GHG Protocol and applicable SEBI circulars, were used as supplementary interpretative and measurement guidance, where relevant to specific disclosures and KPI calculations

Management's Responsibility

APL developed the BRSR's content pertaining to the BRSR principles across *nine BRSR principles covering Essential and Leadership Disclosures* including the Core disclosures (*nine attributes as per Annexure I - Format of BRSR Core*). APL management is responsible for carrying out the collection, analysis, and disclosure of the information presented in the BRSR (web based and print), including website maintenance, integrity, and for ensuring its quality and accuracy in reference with the applied criteria stated in the BRSR, such that it is free of intended or unintended material misstatements. APL Management is responsible for establishing, implementing and maintaining adequate internal controls over sustainability data collection, aggregation and reporting. APL will be responsible for archiving and reproducing the disclosed data to the stakeholders and regulators upon request. The Reporting Organization is responsible for complying with applicable laws.

Scope

Reasonable Assurance – BRSR Core: TUVI performed reasonable assurance procedures over the nine BRSR Core attributes and related KPIs prescribed under Annexure I of the SEBI BRSR Core framework.

Boundary

The assurance engagement covered APL's 12 Thermal Power Plant Locations and One Solar Power Plant within the defined reporting boundary through a combination of onsite assessment and desk based review procedures. The defined reporting boundary included 100% of the identified Power Plant Locations within scope for completeness assessment, analytical review and data validation procedures.

Detailed substantive assurance procedures and supporting evidence review were performed on a sample basis representing approximately 80% of the reported ESG data within the assurance scope using risk and materiality considerations. The selected operational locations and disclosures were considered representative of APL's material operational activities and ESG impacts for the reporting period.

The combination of onsite and remote assurance procedures was determined using a risk based assurance approach considering operational materiality, contribution to consolidated ESG KPIs, historical reporting observations, data complexity, centralization of reporting controls, geographical spread and accessibility of supporting records. Remote assurance procedures included live walkthroughs, virtual interviews, centralized evidence review, reconciliations, analytical procedures and corroborative assurance of supporting records.

An **on-site assessment** was conducted at Ahmedabad head office (Adani Corporate House, Shantigram, Near Vaishnodevi circle, SG highway, Khodiyar, Ahmedabad, 382421 on 16th February 2026 to 20th February 2026, 14th April 2026 to 17th April 2026 and Dahanu Thermal Power Station (Dahanu, Dist. Palghar, Maharashtra – 401601) on 12th February 2026.

Our Responsibility

TUVI's responsibility is to perform the assurance engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), "Assurance Engagements Other than Audits or Reviews of Historical Financial Information", issued by the International Auditing and Assurance Standards Board (IAASB), and to express an independent assurance conclusion based on the procedures performed and evidence obtained.

The assurance engagement included reasonable assurance procedures over the nine BRSR Core attributes prescribed under Annexure I – Format of BRSR Core and selected non Core BRSR disclosures covering the nine BRSR principles, including applicable Essential Indicators and selected Leadership Indicators, within the agreed assurance scope.

Our procedures included risk assessment, walkthroughs, evaluation of selected internal controls relevant to ESG data collection and reporting, document review, recalculation checks, analytical review procedures, data traceability assessments and corroborative assurance of selected disclosures and supporting records. For selected disclosures, TUVI adopted a combined assurance approach involving evaluation of process level controls together with substantive assurance procedures based on assessed risk and materiality considerations.

Our engagement did not include assessment of the adequacy or effectiveness of APL's ESG strategy, management approach, future commitments, or performance improvement initiatives beyond the defined assurance scope.

This assurance statement has been prepared solely for the intended users identified in this report and should be read together with the defined scope, criteria, methodology and inherent limitations described herein.

Assurance Methodology

TUVI planned and performed the assurance engagement in accordance with ISAE 3000 (Revised) using a risk based approach. The reporting criteria were evaluated for relevance, completeness, reliability, neutrality and understandability. Assurance procedures were designed considering materiality, risk of misstatement, data complexity, estimation uncertainty, operational significance and the nature of ESG disclosures within the defined assurance scope.

The objective of the engagement was to assess whether the disclosures included within the defined assurance scope were prepared, in all material respects, in accordance with the applicable BRSR reporting criteria.

Area	Assurance Type	Nature of Procedures
BRSR Core KPIs	Reasonable Assurance	Detailed substantive testing, recalculation procedures, source review, control testing and risk based sampling procedures

corroborative assurance of selected KPIs and disclosures within the defined assurance scope.

ii. Control testing procedures were performed for applicable BRSR Core KPIs. For selected non Core BRSR disclosures, assurance procedures primarily included validation checks, consistency assessments, supporting evidence review and analytical review procedures commensurate with the nature, materiality and risk profile of such disclosures.

iii. Based on the procedures performed within the defined assurance scope, no control observations were identified that, individually or collectively, were assessed to result in a material unresolved misstatement of the assured disclosures. During the engagement, various reconciliation observations, manual adjustment requirements, decentralized reporting inconsistencies and data standardization gaps were identified across operational locations. These observations primarily related to data aggregation, MIS alignment, unit conversion practices, evidence traceability and reporting standardization processes and were addressed through revised submissions, reconciliations, supporting evidence and management clarifications prior to conclusion of the engagement. Opportunities for strengthening ESG data governance, centralized validation controls, automated reconciliation mechanisms and reporting standardization processes were separately communicated to management as part of continuous improvement recommendations.

iv. For selected non Core BRSR disclosures, TUV adopted a combined assurance approach involving evaluation of process level controls together with substantive assurance procedures. The extent of substantive testing performed was determined considering walkthrough results, control design assessment, data traceability evaluation, reconciliation outcomes and assessed risk of material misstatement.

5. Sampling methodology

i. TUVI applied a risk based sampling methodology to select representative samples of ESG disclosures, supporting records and operational locations within the defined assurance scope. Sampling considerations included materiality, risk of misstatement, data complexity, operational significance, estimation uncertainty, geographical spread of facilities and contribution of locations to ESG impacts.

ii. A desk based coverage review was performed for 100% of the identified Power Plant Locations within the reporting boundary for purposes of completeness assessment, analytical review and data validation. Detailed substantive assurance procedures, recalculation checks and corroborative evidence review were performed on a sample basis using risk and materiality considerations.

b) Industry Standards on Reporting of BRSR Core;

c) Applicable guidance under ISAE 3000 (Revised); and

d) Relevant ESG measurement methodologies and protocols, where applicable.

The procedures performed were designed to obtain sufficient appropriate evidence to support the assurance conclusion in accordance with ISAE 3000 (Revised).

Opportunities for Improvement

The following are the opportunities for improvement reported to APL. However, they are generally consistent with APL management's objectives and programs. APL already identified below topics and Assurance team noted the same to achieve the Sustainable Goals of organization.

1. APL may further strengthen its ESG management approach by leveraging technology tools and software platforms for real time monitoring of ESG performance
2. APL may further strengthen periodic ESG data validation and reconciliation controls across decentralized operational locations to enhance consistency and completeness of ESG reporting inputs.
3. APL may further strengthen ESG data governance, completeness monitoring and evidence retention practices through automated validation checks, standardized reporting templates, periodic reconciliation controls, escalation protocols for delayed data reporting and enhanced monitoring of decentralized operational data submissions.

Conflict of Interest & Independence

In the context of BRSR assurance requirements prescribed by SEBI, TUVI maintains policies and procedures to identify, evaluate and manage potential conflicts of interest in order to preserve independence, objectivity and impartiality throughout the assurance engagement.

TUVI maintains organizational safeguards to ensure impartiality despite performing scheme owner, verifier and certification functions within the same organization. Such safeguards include segregation of responsibilities, independence confirmations, documented conflict of interest controls, independent technical review and oversight mechanisms in accordance with ISO 14064 3:2019 and ISO 17029:2019.

Reasonable Assurance Conclusion – Selected Non-Core BRSR Disclosures: In our opinion, the selected non Core BRSR disclosures covering the nine BRSR principles, including applicable Essential and Leadership Disclosures within the agreed assurance scope, have been prepared, in all material respects, in accordance with the applicable SEBI BRSR reporting criteria. Based on the procedures performed and evidence obtained during the engagement conducted in accordance with ISAE 3000 (Revised), the selected non Core BRSR disclosures are reasonably presented and supported by sufficient appropriate evidence obtained during the assurance engagement.

Additional Observations on Reporting Principles: Based on the procedures performed within the defined assurance scope, TUVI noted the following observations relating to presentation and reporting practices adopted in the BRSR.

- **Governance, leadership and oversight**: The messages of top management, the business model to promote inclusive growth and equitable development, action and strategies, focus on services, risk management, protection and restoration of environment, and priorities are disclosed appropriately.
- **Connectivity of information**: APL discloses *nine BRSR principles covering Essential and Leadership Disclosures* and *nine attributes as per Annexure I - Format of BRSR Core* and their inter relatedness and dependencies with factors that affect the organization's ability to create value over time.
- **Stakeholder responsiveness**: The Report covers mechanisms of communication with key stakeholders to identify major concerns to derive and prioritize the short, medium and long term strategies. The Report provides insights into the organization's relationships (nature and quality) with its key stakeholders. In addition, the Report provides a fair representation of the extent to which the organization understands, takes into account and responds to the legitimate needs and interests of key stakeholders.
- **Materiality**: The material issues within 9 attributes and corresponding KPI as per BRSR requirement are reported properly.
- **Conciseness**: The Report reproduces the requisite information and communicates clear information in as few words as possible. The disclosures are expressed briefly and to the point sentences, graphs, pictorial, tabular representation is applied. At the same time, due care is taken to maintain continuity of information flow in the BRSR.
- **Reliability and completeness**: APL has established internal data aggregation and evaluation systems to derive the performance. APL confirms that, all data provided to TUVI, has been passed through Quality Assurance/Quality Control function. The majority of the data and information was assured by TUVI's assurance team (on sample basis) during the BRSR assurance and found to be reasonably consistent with supporting records reviewed, procedures performed and no material misstatements were identified in the assured disclosures. All data is reported transparently, in a neutral

Company as at March 31, 2026, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

In certain cases where the regulatory order(s) are subject matter of appeal with higher appellate forums / authorities, and the amount of claims are not ascertainable, revenues for change in law claims are not recognised, pending outcome of the final decision. In view of the complexity and judgement involved in estimation of the amounts of such claims and recoverability thereof, the same is considered as a key audit matter.	historical information and other available internal and external data. - Performed substantive procedures over management's estimates, including comparison with historical claims, regulatory precedents and other corroborative evidence. - Tested on a sample basis, the accuracy of the underlying data used for computation of such claims. - Tested the joint reconciliations of trade receivables performed by the Company with the respective Discoms, wherever available with underlying records. - Tested the status of the outstanding receivables and recoverability of the overdue / aged receivables through inquiry with management, and collection trends in respect of receivables. - Assessed the disclosures in accordance with the requirements of Ind AS 115 "*Revenue from Contracts with Customers*".

key audit matter considering the significant judgements involved in the determination thereof.	measuring / computing the claims and verified the working as per CERC regulatory orders, Appellate Tribunal and the Court rulings. - Tested the status of the outstanding receivables and recoverability of the overdue / aged accruals through inquiry with management, and collection trends in respect of receivables. - Assessed the disclosures in accordance with the requirements of Ind AS 115 "*Revenue from Contracts with Customers*".

Information Other than the Financial Statements and Auditor's Report Thereon (Other Information)

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position,

either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether

Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid financial statements have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in sub-clause (2)(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014;

(c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

(d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

(e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from

i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 45 to the standalone financial statements;

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 31 to the standalone financial statements;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

iv. a) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 65 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in

us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The dividend on compulsory redeemable preference shares in respect of the same declared for the previous year and paid by the Company during the year, is in accordance with section 123 of the Companies Act 2013 to the extent it applies to payment of dividend.

As stated in note 63 of the standalone financial statements, the Board of Directors of the Company have proposed dividend on compulsory redeemable preference shares for the year which is subject to the approval of members at the ensuing Annual General Meeting. The dividend declared is in accordance with Section 123 of the Act to the extent it applies to declaration of dividend.

adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Reference to these Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

and also engaged in trading, investment and other business activities incidental and ancillary to power generation and sales. The Company is also exploring opportunities in international power business and in nuclear power in India.

The Company, together with its subsidiaries and a joint venture currently has multiple power projects located at various locations with a combined installed and commissioned capacity of 18,150 MW and another 23,720 MW under construction / development phase as of year end. The Company, together with its subsidiaries sells power generated from these projects under a combination of long term / medium term / short term Power Purchase Agreements (PPAs), Supplemental Power Purchase Agreement (SPPAs) and on merchant bases and is also engaged in trading, investment and other business activities incidental and ancillary to power generation and sales. The Company is also exploring opportunities in international power business and in nuclear power in India.

The financial statements were approved for issue in accordance with a resolution of the directors on April 29, 2026.

on the basis that it will continue to operate as a going concern.

The financial statements are presented in INR (₹) which is also the company's functional currency and all values are rounded to the nearest crore, except when otherwise indicated. Amounts less than (₹) 50,000 have been presented as "*".

2.2 Summary of material accounting policies

a Property, Plant and Equipment and Capital Work-in-progress

Recognition and initial measurement

Property, Plant and Equipment are stated at original / acquisition cost grossed up with the amount of tax / duty benefits availed, less accumulated depreciation and accumulated impairment losses, if any. All directly attributable costs relating to the project activities, including borrowing costs relating to qualifying assets incurred during the project development period, net of income earned during the period till commercial operation date of the project, are recorded as project expenses and disclosed as a part of Capital Work-in-Progress. Capital Work-in-Progress are carried at cost, less any recognised impairment losses.

2013 except in case of power plant assets, where the life has been estimated at 25 years or 40 years based on technical assessment, taking into account, the estimated usage of the assets and the current operating condition of the assets. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Useful life / depreciation rate

a) Major inspection / overhauling including turnaround and maintenance cost are depreciated over the period of 5 years. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

b) Useful life of Property, Plant and Equipment (Except for Udupi and Dahanu Thermal Power Plants during the first 12 years from COD, which have been completed upto March 31, 2025) are mentioned below :

Office Equipment	3 to 5
Vehicles - Four and Two Wheelers	8 to 10
Vehicles - Others	3 to 25

In respect of Property, Plant and Equipment covered under part B of Schedule II to the Companies Act, 2013, depreciation is recognised based on the cost of Property, Plant and Equipment (other than freehold land) at the rates as well as methodology notified by the Central Electricity Regulatory Commission ("CERC") (Terms and Conditions of Tariff) Regulations, 2019 in the statement of profit and loss unless such expenditure forms part of carrying value of another asset under construction mainly in respect of Udupi and Dahanu TPP. In case of assets with useful life lesser than the Power Plant Project life, the useful life of these assets has been considered for the purpose of calculation of depreciation as per the provisions of the Companies Act, 2013 and subsequent amendments thereto.

Furniture and Fixtures	6.33
Computer Hardware	15.00
Office Equipment	6.33
Vehicles	9.50

Subsequent measurement

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred. Subsequent costs are depreciated over the residual life of the respective assets. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

non-current assets and liabilities.

c Financial Instruments

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value with the exception of trade receivables that do not contain significant financing component or for which the Company has applied the practical expedient. The Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, the transaction cost. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the statement of profit and loss.

through profit or loss on initial recognition):

a) the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets that meet the criteria for initial recognition at FVTOCI are remeasured at fair value at the end of each reporting date through other comprehensive income (OCI):

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

b) The contractual terms of the asset that give rise on specified dates to cash flows that represent solely payment of principal and interest.

Derecognition of financial assets

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity, is recognised in the statement of profit and loss if such gain or loss would have otherwise been recognised in the statement of profit and loss on disposal of that financial asset.

e Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. Compound financial instruments are separated into liability and equity components based on the terms of the contract.

Instruments entirely Equity in nature

Unsecured perpetual securities ("securities") are the securities with no fixed maturity or redemption and the same are callable only at the option of issuer. These securities are ranked senior only to the equity

loss (FVTPL)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through profit or loss. Financial liabilities are classified as held for trading if these are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. Subsequent changes in fair value of liabilities are recognised in the statement of profit and loss.

Fair values are determined in the manner described in note 'm'.

Financial liabilities measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting

on future events) to off-set the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value through profit or loss, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

f Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks on borrowings / purchases, including foreign exchange forward contracts, interest rate swaps and cross currency swaps, Principal only Swap, coupon only and hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair value or cash flows of the hedged item attributable to the hedged risk.

Cash flow hedges

The Company uses forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The Company designates only the spot element of a forward contract as a hedging instrument. The forward element is recognised in OCI. The ineffective portion relating to foreign currency contracts is recognised in finance costs.

h Investments in subsidiaries, associates and joint ventures

Investments in subsidiaries, associates and joint ventures are accounted for at cost, net of impairment, if any. (Also refer note 3(v)).

deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

k Business combinations and Goodwill

Acquisitions of business are accounted for using the acquisition method except business combination under common control. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition date fair values of the assets transferred by the Company, liabilities incurred by the Company to the former owners of the acquiree and the equity interest issued by the Company in exchange of control of the acquiree.

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities

in these financial statements and the financial statements of the commonly controlled entities would be combined, retrospectively, as if the transaction had occurred at the beginning of the earliest reporting period presented.

Where the aggregate of consideration transferred and amount recognised for non-controlling interests exceeds the fair value of net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through Capital Reserve / goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in statement of profit and loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

l Foreign currency translations and transactions

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency are recognised at the rate of exchange prevailing at the date of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that

The Company measures financial instruments such as derivatives and mutual funds at fair value at each balance sheet date.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- External valuers are involved for valuation of significant assets such as unquoted financial assets and financial liabilities and derivatives.
- For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by

statement of profit and loss in the same period as the related cost which they are intended to compensate are accounted for.

o Contract Balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due and the amount is billable.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration from the customer. Contract liabilities are recognised as revenue when the Company performs obligations under the contract.

the sale of electricity generally include one performance obligation. The Company has concluded that revenue from sale of electricity should be recognised at the point in time when electricity is transferred to the customer.

The Company has generally concluded that it is principal in its revenue arrangements. However, where the Company is acting as an agent, the Company recognises revenue at the net amount that is retained for these arrangements.

Revenue from operations on account of Force Majeure events / change in law events in terms of PPAs / SPPAs with customers (Power Distribution Utilities) is accounted for by the Company based on the orders / reports of Regulatory Authorities, best management estimates wherever needed and reasonable certainty to expect ultimate collection.

In case of PPA under section 62 of Electricity Act, 2003, revenue from sale of power is recognised based on the most recent tariff order approved by the CERC, as modified by the orders of Appellate Tribunal for Electricity ("APTEL"), to the extent applicable, having regard to mechanism provided in

("EIR") applicable.

v) Late payment surcharge on delayed payment for power supply is recognised based on receipt / collection from customers or on acceptance / acknowledgement by the customers whichever is earlier.

q Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of the asset, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in statement of profit and loss in the period in which they are incurred. Borrowing cost consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences arising from foreign currency borrowing.

included in net interest on the net defined benefit liability) are recognised immediately in the balance sheet with corresponding debit or credit to retained earnings through OCI in the period in which it occurs. Remeasurement are not classified to statement of profit and loss in subsequent periods. Past service cost is recognised in the statement of profit and loss in the period of a plan amendment. (Refer note 67)

ii) Defined contribution plan:

Retirement Benefits in the form of Provident Fund and Family Pension Fund which are defined contribution schemes are charged to the statement of profit and loss for the period in which the contributions to the respective funds accrue as per relevant statues.

iii) Compensated Absences:

Provision for Compensated Absences and its classifications between current and non-current liabilities are based on independent actuarial valuation. The actuarial valuation is done as per the projected unit credit method as at the reporting date.

- Relies on its assessment of whether leases are onerous immediately before the date of initial application
- Applies the short-term leases exemptions to leases with lease term that ends within 12 months at the date of initial application
- Excludes the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Uses hindsight in determining the lease term where the contract contains options to extend or terminate the lease

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use).

The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Refer note 'a' for useful life of right-of-use assets.

as expenses in the period in which the event or condition that triggers the payment occurs.

Subsequent measurement of lease liabilities

The lease liabilities is remeasured when there is change in future lease payments arising from a change in an index or a rate or a change in the estimate of the guaranteed residual value or a change in the assessment of purchase, extension or termination option. When the lease liabilities is measured, the corresponding adjustment is reflected in the right-of-use assets.

t Taxes on Income

Tax expenses comprises current tax and deferred tax. These are recognised in the statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax

Tax on income for the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation

Deferred tax liabilities are generally recognised for all taxable temporary differences except when the deferred tax liability arises at the time of transaction that affects neither the accounting profit or loss nor taxable profit or loss. Deferred tax assets are generally recognised for all deductible temporary differences, carry forward of unused tax credits and any unused tax losses, to the extent that it is probable that future taxable income will be available against which the deductible temporary differences and carry forward of unused tax credit and unused tax losses can be utilised except when the deferred tax asset relating to temporary differences arising at the time of transaction affects neither the accounting profit or loss nor the taxable profit or loss. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be utilised.

Deferred tax relating to items recognised outside profit and loss is recognised outside profit and loss the effect of the uncertainty on taxable income, tax bases and unused tax losses and unused tax credits is recognised. The effect of the uncertainty is recognised using the method that, in each case, best reflects the outcome of the uncertainty: the most likely outcome or the expected value. For each case, the Company evaluates whether to consider each uncertain tax treatment separately or in conjunction with another or several other uncertain tax treatments based on the approach that best prefixes the resolution of the uncertainty.

u Earnings per share

Basic earnings per share is computed by dividing the profit after tax (net off distribution on Perpetual Securities whether declared or not) attributable to the owners of the Company by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit after tax (net off distribution on Perpetual Securities whether declared or not) attributable to the owners of the Company as adjusted for the effects of dividend, interest and other charges relating to the dilutive potential equity shares by weighted average number of shares plus dilutive potential equity shares. The number of equity shares and potentially dilutive equity shares are

The contingent liabilities are disclosed where it is management's assessment that the outcome of any litigation and other claims against the Company is uncertain or cannot be reliably quantified, unless the likelihood of an adverse outcome is remote.

Contingent assets are not recognised but are disclosed in the notes where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each reporting date.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is remeasured as per provisions of Ind AS 103.

w Impairment of non-financial assets

The Company assesses, at each reporting date whether there is any indication that assets may be impaired. If any such indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit ("CGU") is fair value less costs to disposal and its value in use.

In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market

The Company bases its impairment calculation on detailed budget and forecast calculations, which are prepared separately for each of the Company's cash-generating unit to which the individual assets are allocated. For longer periods, a long-term growth rate is calculated and applied to project future cash flows. To estimate cash flow projections beyond periods covered by the most recent budget / forecasts, the Company estimates cash flow projections based on estimated growth rate.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of profit and loss.

x Mine Development Expenditure

i) Expenditure incurred towards coal mines under construction are capitalised to 'Coal Mines under construction' as long as they meet the capitalisation criteria and is presented as capital work-in-progress. Upon commencement of production stage, the 'Coal Mines under construction' is capitalised and presented as 'Mining Rights' under Intangible Assets

The Company has entered into supplier finance arrangements and assesses, based on the specific terms of each arrangement, whether the related liabilities should be classified as trade payables or as borrowings.

Where the arrangement results in derecognition of the liability to the supplier and recognition of a new obligation toward the banks such as extended credit beyond the operating cycle, payment of interest (directly or indirectly), provision of security/guarantee, or recognition of the Company as borrower in the bank's books, the liability is classified as borrowings

Cash flows relating to such arrangements classified as borrowings and are presented as financing cash inflows at the time the bank settles the supplier liability, with subsequent repayments by the Company to bank (including interest, if any).

z Events after the reporting date

If the Company receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its financial statements. The Company will adjust the amounts recognised in its financial statements standards or amendment to existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

The Company applied following amendments for the first-time during the current year which are effective from April 1, 2025:

i) Amendments to Ind AS 21 - Lack of exchangeability

The amendment requires the Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments are effective for annual reporting periods beginning on or after April 1, 2025. When applying the amendments, an entity cannot restate comparative information.

from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

The amendments are effective for annual reporting periods beginning on or after April 1, 2025 retrospectively in accordance with Ind AS 8.

(iii) Amendments to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements

In August 2025, the MCA notified amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures to clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

March 31, 2026.

The Company has reviewed the new pronouncements and based on its evaluation has determined that these amendments do not have a significant impact on the Company's Financial Statements.

ab Standard issued but not effective

The Ministry of Corporate Affairs (MCA), as part of India's continued convergence with IFRS, has initiated the process for introduction of Ind AS 118 – Presentation and Disclosure in Financial Statements, which is converged with IFRS 18 issued by the IASB in April 2024. Ind AS 118 is intended to replace Ind AS 1 (Presentation of Financial Statements) and focuses on improving how entities present and communicate financial performance, particularly in the Statement of Profit and Loss.

This standard is proposed to be applicable for annual reporting periods beginning on or after April 1, 2027, subject to final notification by the MCA through amendment to the Companies (Indian Accounting Standards) Rules.

the reporting period to provide a period of grace ending at least 12 months after the reporting period, within which the entity can rectify the breach and during which the lender cannot demand immediate repayment.

3 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. The estimates and assumptions are based on historical experience and other factors including expectations of future events that are considered to be relevant. The estimates and underlying assumptions are continually evaluated and any revisions thereto are recognised in the period of revision and future periods if the revision affects both the current and future periods. Uncertainties about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

materially different from that of the main asset.

ii) **Fair value measurement of financial instruments**

In estimating the fair value of financial assets and financial liabilities, the Company uses market observable data to the extent available. Where such Level 1 inputs are not available, the Company establishes appropriate valuation techniques and inputs to the model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note 55.

iii) **Defined benefit plans (gratuity benefits)**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality

by the Management. (Refer note 50).

v) **Impairment of Investments made / Loans given to subsidiaries**

In case of investments made and loans given by the Company to its subsidiaries, the Management assesses whether there is any indication of impairment in the value of investments and loans. The carrying amount is compared with the present value of future net cash flow of the subsidiaries based on its business model or estimates is made of the fair value of the identified assets held by the subsidiaries, as applicable.

vi) **Taxes**

Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies, including estimates of temporary differences reversing on account of available benefits under the Income Tax Act, 1961. (Also refer note 26).

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement

In certain cases, the Company has claimed compensation from the Discoms based on management's interpretation of the regulatory orders and various technical parameters including provisional methodology for coal cost recovery, which are subject to final verification and confirmation by the respective Discoms, and hence, in these cases, the revenues have been recognised during various financial years / periods, on a prudent basis with conservative attributable parameters in the books. The necessary true-up adjustments for revenue claims (including carrying cost / delayed payment surcharge) are made in the books on final acknowledgement / regulatory orders / settlement of matters with respective Discoms or eventual recovery of the claims, whichever is earlier.

In case of PPAs governed by section 62 of Electricity Act, 2003, Revenue from sale of power and other income is recognised upon judgement by the management for recoverability of the claims based on the relevant contractual terms / provisional tariff rates as provided by the regulator / governing tariff regulations, to the extent applicable, having regard to mechanism provided in applicable tariff regulations and the bilateral arrangement with the customers,

adjudication by Supreme Court and settlement of matter with Discoms, the related receivables are classified as undisputed.

In cases, where discussions with Discoms have not made reasonable progress and matters are sub-judice, the related receivables are classified as disputed, even though the management is reasonably confident of recovering the dues in full, backed by the regulatory orders in favour of the Company.

ix) **Recognition and measurement of provision and contingency**

The Company recognises a provision if it is probable that an outflow of cash or other economic resources will be required to settle the provision. If an outflow is not probable, the item is treated as a contingent liability. Risks and uncertainties are taken into account in measuring a provision.

x) **Determination of lease term & discount rate**

a) **Determination of lease term**

Ind AS 116 Leases requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option that the Company have to pay to borrow over a similar terms, and with a similar security, the funds necessary to obtain an asset of similar value to the right-to-use asset in a similar economic environment. The IBR therefore

the Company's practical ability to sell or pledge these assets. Accordingly, the management is of the view that Appendix D to Ind AS 115 is not applicable to the Company.

Notes to Standalone Financial Stat

for the year ended March 31, 2026

4.1 Property, Plant and Equipment and Capital Work-In-Progres

	Description of Assets	Land - Freehold	Buildings	Plant and Equipment (Refer note (ii) below)

Description of Assets	Land - Freehold	Buildings	Plant and Equipment (Refer note (ii) below)
Carrying amount :			
As at March 31, 2025	**901.51**	**1,524.73**	**53,231.03**
As at March 31, 2026	**911.66**	**1,485.42**	**50,196.86**

to IND AS w.e.f. April 1, 2015, in compliance with Ind AS 20 – "Government Grant", the value of PPE of Mundra TPP, Kawai TPP and Tiroda TPP have been grossed up by the amount of tax and duty benefit availed after considering such benefits as government grant. The amount of said government grant (net off accumulated depreciation) as on the transition date has been added to the value of PPE with corresponding credit made to the deferred government grant. The amount of deferred liability is amortised over the useful life of the PPE with credit to statement of profit and loss classified under the head "Other Income".

The Company has Government grant balance (net of amortisation) of ₹ 5,698.61 crore till March 31, 2026 (Previous year ₹ 6,098.91 crore).

Movement of Government Grant is as below:

(₹ In crore)

Particulars	As at March 31, 2026	As at March 31, 2025
Opening Balance	6,098.91	6,499.22
Less: Amortisation during the year	(400.31)	(400.31)
Closing Balance	**5,698.61**	**6,098.91**
Current Balance	400.43	400.43
Non Current Balance	5,298.18	5,698.48

The balance amortisation period ranges from 9 to 27 years.

iii) Cost of Property Plant and Equipment includes carrying value recognised as deemed cost as of April 1, 2015, measured as per previous GAAP and cost of subsequent additions.

iv) In case of acquisition of Dahanu Thermal Power Station, the cost of the assets acquired have been allocated to the individual identifiable assets on the basis of their relative fair values on the date of acquisition. (Refer note 43).

Employee Benefit Expenses	39.12	20.83
Finance Costs (Refer note (i) below)	510.06	27.30
Depreciation and Amortisation Expense (Refer note 4.5)	24.09	12.09
Other Expenses / (Income) (Refer note (ii) below)	1,634.74	(6.05)
Total	**2,208.01**	**54.17**

Notes:

i) The rate used to determine the amount of borrowing costs eligible for capitalisation is ranging from 5.58% to 9.00% p.a. (Previous Year 9.00% p.a.), which is effective interest rate of borrowing.

ii) Mainly includes project consultancy fees, security, utilities, etc. (Refer note 69)

vii) Capital Work-In-Progress Ageing Schedule:

a. As at March 31, 2026

(₹ In crore)

Capital Work-In-Progress	Amount in CWIP for a period of				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Projects in progress	12,235.55	2,470.95	293.21	63.87	15,063.58
Total	**12,235.55**	**2,470.95**	**293.21**	**63.87**	**15,063.58**

d. Details of the project whose completion is overdue as at March 31, 2025:

(₹ In crore)

Capital Work-In-Progress	To be Completed in				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Railway Siding Project (Refer note (i) below)	-	59.33	-	-	59.33
Mining Project (Refer note (ii) below)	-	-	53.63	-	53.63
Total	**-**	**59.33**	**53.63**	**-**	**112.96**

Notes:

i) The capital assets in the nature of Railway Siding for Raigarh TPP forming part of Capital Work-In-Progress have become overdue compared to the original completion plan. The Company has acquired substantial land parcels and remaining land parcels are in the process of acquisition for completing the asset under development. The Management expects to acquire additional land from the government authorities and has already obtained in principle approval from railway authorities for the said project. The Company has paid advance of ₹ 37.60 crore for allotment of land. Further, the Company has obtained final approval of South East Central Railways to carry out development activities for the siding project.

ii) As at March 31, 2025 the capital assets in the nature of Mining Project forms part of Capital Work-In-Progress had become overdue compared to the original completion plan and the Company was in the process of obtaining mandatory clearances from various regulatory authorities for completing the asset under development. During the year the assets have been transferred by the Company to the mine developer and operator.

iii) Such project is overdue compared to original plan of management.

(Figures below ₹ 50,000 are denominated with *)

These OCDs shall be optionally converted into equity share capital at fair value at the discretion of issuer or will be redeemed in full on completion of 10 years and 20 years respectively from the date of allotment. The fair value as at March 31, 2026 is ₹ 270.55 crore (Previous year ₹ 246.39 crore). Of the total OCDs issued, 23,69,97,000 OCDs (Previous year - 23,69,97,000 OCDs) have been pledged by the Company as additional security for secured term loans availed by MEL.

iv) The OCDs of its wholly owned subsidiaries Chandenvalle Infra Park Limited and Alcedo Infra Park Limited shall be optionally converted into equity shares in the ratio of 1 : 1 or will be redeemed at the discretion of issuer at any time within 10 years from the date of issue.

v) The investment in Compulsory Convertible Debentures of various subsidiaries shall be mandatorily converted into equity shares at par in the ratio of 10:1 at any time after the expiry of 5 years but before 20 years from the date of issue.

vi) Adani Power Global Pte Ltd and Adani Power Middle East Limited have been incorporated as Wholly Owned Subsidiaries of the Company on June 14, 2024 and August 16, 2024 respectively. The Company had invested 27,000 Shares of USD 1 each and 1,000 Shares of SGD 1 each respectively.

vii) Investments at FVTOCI reflect investment in unquoted equity instruments. These equity shares are designated as FVTOCI as they are not held for trading purpose, thus disclosing their fair value change in profit and loss will not reflect the purpose of holding.

viii) Investment in Unsecured Perpetual Securities ("Securities"), are perpetual in nature with no maturity or redemption and are callable only at the option of the issuer. The distribution on these Securities are cumulative at 9% p.a. and at the discretion of the issuer. As these securities are perpetual in nature, ranked senior only to the Equity Share Capital of the issuer and the issuer does not have any redemption obligation, these are considered to be in the nature of equity instruments.

ix) During the previous year, the Company had invested ₹ 1 crore in equity shares of Korba Power Limited (KPL). Of the above shares 5,10,000 Equity shares have been pledged by the Company as additional security for secured term loans availed by KPL.

Aggregate amount of unquoted investments	**1,477.85**	**992.96**

Notes:

i) For charges created on Trade Receivables, Refer note 22 and 28.

ii) **Credit concentration**

As at March 31, 2026, out of the total trade receivables 91.06% (Previous year - 95.52%) pertains to dues from State Electricity Distribution Companies and Bangladesh Power Development Board ("BPDB")) under contractual agreement through Power Purchase Agreements ("PPAs") / Supplemental Power Purchase Agreement (SPPAs), claims under Force Majeure / Change in Law matters / Contractual Right, Carrying Cost thereof etc (including significant amount pertaining to dues from BPDB), 7.74% (Previous year - 4.28%) from related parties (refer note 69) and remaining receivables from others. Also refer note 3(vii) and 3(viii) relating to significant accounting judgements / estimates.

iii) **Expected Credit Loss (ECL)**

The average credit period ranges upto 75 days. The Company is having majority of receivables against power supply from State Electricity Distribution Companies ("Discoms") which are Government undertakings and also includes dues from Bangladesh Power Development Board (BPDB) under contractual agreement through Power Purchase Agreements ("PPAs").

The Company is regularly receiving its normal power sale dues from Discom and BPDB. In case of regulatory revenue claims, the same is recognised on conservative basis based on best management estimates following principles of prudence, as per the binding regulatory orders. In case of delayed payments apart from carrying cost on settlement of claims, the Company is entitled to receive interest as per the terms of PPAs / SPPAs. Hence they are secured from credit losses due to efflux of time.

Receivables are secured by letter of credit amounting to ₹ 2,505.89 crore (Previous year ₹ 3,777.84 crore). The Company holds sovereign guarantee of Bangladesh Government, for the entire receivables under Power purchase agreement with BPDB.

iv) Also refer note 35 for disclosures related to revenue and note 53 for ageing of receivables.

v) The fair value of Trade receivables are approximately the carrying value presented (Refer note 55).

* For transaction with related parties, Refer note 69

Nature and purpose of reserves :

i) Capital Reserve is not a free reserve, unless otherwise stated, and can not be utilised for distribution of dividend.

Capital Reserve includes :

(a) Amount of ₹ 359.80 crore created due to amalgamation of Growmore Trade and Investment Private Limited with the Company in the financial year 2012-13. As per the order of the Hon'ble High Court of Gujarat, the capital reserve created on amalgamation shall be treated as free reserve of the Company.

(b) Amount of ₹ 1,029.60 crore created on account of acquisition of Raipur TPP and Raigarh TPP during the financial year 2019-20 (including ₹ 344.49 crore pertaining to equity component of 0.01% CRPS).

ii) Securities premium represents the premium received on issue of shares over and above the face value of equity shares. The reserve is available for utilisation in accordance with the provisions of the Companies Act, 2013.

iii) General reserve of ₹ 9.04 crore was created in the FY 2015-16 due to merger of solar power undertaking acquired from Adani Enterprises Limited, as per the scheme of arrangement approved by order of the Hon'ble High Court of Gujarat.

iv) Deemed equity contribution represents the difference between the fair value of financial instruments and consideration paid / payable as promoters' contribution.

Revenue from trading goods (including coal)	42.30	31.25
Sale of services	9.13	7.57
Other Operating Revenue		
Sale of Fly Ash and Others	69.66	66.52
Total revenue from contracts with customers	**45,288.78**	**49,710.76**

Notes:

(i) In respect of Tiroda TPP

(a) In the matter of non-availability of coal due to cancellation of Lohara coal block for the Company's 800 MW power generation capacity at Tiroda thermal power plant ("Tiroda TPP"), the Hon'ble Supreme Court vide its order dated April 20, 2023, upheld the orders of Maharashtra Electricity Regulatory Commission ("MERC") and APTEL, granting compensation (including carrying costs thereon) towards additional coal cost for the use of alternate coal.

Similarly, in a matter relating to shortfall in availability of domestic coal under New Coal Distribution Policy ("NCDP") and Scheme of Harnessing and Allocating Koyala (Coal) Transparently in India ("SHAKTI") policy of the government, for the Company's 2,500 MW power generation capacity at Tiroda TPP, the Hon'ble Supreme Court vide its orders dated March 3, 2023 and April 20, 2023, upheld the MERC's and APTEL's orders granting compensation (including carrying costs thereon) towards additional cost for the use of alternate coal.

Basis above favourable regulatory orders, the Company has continued to recognise tariff compensation claims towards additional coal cost of ₹ 2,716.39 crore during the year ended March 31, 2026.

ii) In case of PPAs governed by section 62 of Electricity Act, 2003, the Company recognises revenue from sale of power based on the most recent tariff order / provisional tariff approved by the respective Regulatory Commission, as modified by the orders of Appellate Tribunal for Electricity ("APTEL") / Regulatory commissions and necessary provisions / adjustment considered on conservative basis. This revenue is recognized having regard to mechanism provided in applicable tariff regulations and the bilateral arrangements with the Discoms. Such tariff orders are subject to conclusion of final tariff orders in terms of Multiyear Tariff ("MYT") Regulations at the end of respective tariff period.

iii) In respect of Kawai TPP

In the matter relating to shortfall in availability of domestic linkage coal, the Hon'ble Supreme Court vide its order dated August 31, 2020 has admitted all tariff compensation claims for additional coal costs incurred for power generation and the Company continues to realise the claim amount towards compensation.

During the financial year 2023-24, Rajasthan Urja Vikas and IT Services Limited ("RUVITL") (formerly known as Rajasthan Urja Vikas Nigam Limited) had filed a fresh petition before Rajasthan Electricity Regulatory Commission ("RERC") primarily challenging the methodology and operating parameters considered while arriving at the tariff compensation claim for additional coal cost incurred for power generation by the Company which had earlier been settled by RUVITL in March, 2022 based on the Hon'ble Supreme Court order dated August 31, 2020. The RERC vide its order dated September 1, 2023 dismissed the petition of RUVITL. RUVITL had preferred an appeal with APTEL in the matter, which is pending adjudication. The Company continues to recognise the revenue based on principle as approved in the order passed by the Hon'ble Supreme court.

Discoms have sought certain information to validate such claims. Pending final resolution of the matter, Haryana Discoms continue to pay 50% of the claims made by the Company from June 2023 till date. The Company expects a favorable outcome in the matter and has accordingly recognised revenues of ₹ 599.03 crore during year ended March 31, 2026, which has been realized as well.

v) Revenue from operations (including amounts disclosed separately elsewhere in other notes) includes following amounts / (net of reversals) pertaining to earlier years, based on the orders received from various regulatory authorities such as MERC / CERC, APTEL, the Hon'ble Supreme Court and reconciliation / settlement with Discoms relating to various claims towards change in law events.

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue from Operations	426.19	1,700.28
Total	**426.19**	**1,700.28**

vi) Godda thermal power plant ("Godda TPP"), is having a long-term Power purchase agreement (PPA) with Bangladesh Power Development Board ("BPDB") for supply of power from its 1600 MW thermal power station.

Since inception of the said PPA, Godda TPP has been supplying power and raising monthly invoice in compliance with PPA and Godda TPP has been receiving payments on a regular basis. The Company has recovered a significant amount from BPDB during the year ended March 31, 2026 including late payment surcharge. The management is confident of recovering the balance receivables and does not expect any adverse outcome in the matter. Pursuant to the Company's request, Singapore International Arbitration Centre has selected and appointed an expert to resolve certain matters pending in reconciliation. Both the Company and BPDB have nominated their representatives for interaction with the expert. Subsequently, the Company has signed appointment agreement with the expert.

vii) For transaction with related parties, Refer note 69 interest on loans given and OCDs of ₹ 993.89 crore (Previous year - ₹ 333.67 crore) and interest on income tax refund ₹ 2.78 crore (Previous year - ₹ 21.21 crore).

iii) In respect of the Udupi Thermal Power Plant ("Udupi TPP"), CERC, vide its order dated January 7, 2026, allowed the Company's petition for recovery of carrying cost on account of change in tariff and delayed payment surcharge on the carrying cost claim . Accordingly, the Company has recognised carrying cost / LPS of ₹ 1,007.31 crore during the year, which has been realized subsequently.

The Power Company of Karnataka Limited (PCKL) and Karnataka Escom's have filed an appeal before APTEL against the said order. The Company does not expect any adverse outcome in the matter.

iv) Includes income from mutual fund of ₹ 32.72 crore (Previous year - ₹ 74.54 crore) and income from Commercial Paper/ Certificate of Deposit of ₹ 3.74 crore (Previous year - ₹ Nil).

v) Gain on Sale of Investment mainly includes gain on sale of Government Securities.

vi) Miscellaneous income mainly includes income from water charges of ₹ 83.69 crore (Previous year ₹ 52.31 crore) and refund from government authorities of ₹ 563.66 crore (pertaining to earlier periods) (Previous year ₹ 89.82 crore).

44 During the year ended March 31, 2026, the National Company Law Tribunal ("NCLT") vide its order dated March 17, 2026, approved the resolution process of Jaiprakash Associates Limited ("JAL") under the Insolvency and Bankruptcy Code, 2016. The Resolution Plan enables Adani Enterprises Limited to nominate one or more 'Implementing Entities' to implement the Resolution Plan or any part thereof, by acquiring assets from JAL. In this respect, the Company expressed in-principle interest in becoming one of the 'Implementing Entities' under the Resolution Plan for acquiring certain power assets and investments from JAL, subject to necessary approvals.

construction of its 1,370 MW Thermal based Power Plant. In terms of the same, the Company has availed exemptions of duty of customs and excise duty upon submission of bank guarantees worth ₹ 960.01 crore and pledge of margin money deposits of ₹ 59.67 crore. The grant of final Mega power status of Raipur TPP is dependent upon plant achieving tie up under long term Power Purchase Agreements (PPAs). During the current year, Raipur TPP was able to achieve tying-up 100% of its installed capacity under long-term Power Purchase Agreements. Ministry of Power vide its letter dated December 19, 2024 and letter dated April 10, 2026, has also granted Final Mega Power Certificate. Accordingly, Raipur TPP is eligible for Mega Power benefits availed in form of exemption from customs and excise duty and hence the matter now stands settled.

(b) In case of Raipur TPP, the Company had entered into a bulk power transmission agreement ('BPTA') with Power Grid Corporation of India Limited ('PGCIL') dated March 31, 2010 as per which the Company was granted Long term Access ('LTA') of 816 MW. However, owing to non-availability of PPA, which as per management is beyond the control of the Company, Raipur TPP was not in a position to utilise the LTA and has accordingly sought for surrender of the LTA, for which PGCIL has raised demand of ₹ 154.50 crore towards relinquishment charges on the Company. However, the said claim will be subject to the outcome of the petition dated September 7, 2020 filed by the Company before the APTEL. Presently, the Company has taken legal opinion in the matter as per which there are force majure events and other factors as per which it is not liable to pay charges.

2) The custom duty demands amounting to ₹ 248.10 crore and ₹ 3.60 crore at Udupi TPP and Tiroda TPP respectively, pertaining to Coal Classification matter is being contested at Customs, Excise and Service Tax Appellate Tribunal ("CESTAT") pertaining to period March 2012 to February 2013.

3) The Central Sales Tax matter of Company's Mundra TPP, pertaining to consideration of the credit notes on account of price revision, relates to FY 2017-18 and is being contested at Commissioner Appeals.

4) In case of Godda TPP, Water resource department ("WRD"), Jharkhand has charged additional penalty on the amount of penalty on water charges which has not been accepted by the Company as per the terms of agreement and the matter is under discussion with WRD to reconsider the demand pertaining to period April 2020 to June 2022.

Note:

Capital commitment mainly includes open purchase order of ₹ 35,616.05 crore (net of capital advances) (Previous Year - ₹ 22,964.96 crore) pertaining to expansion projects at Raipur TPP, Raigarh TPP, Kawai TPP and greenfield projects in Assam and Bihar.

Other Commitments:

i) The Company has given a commitment to lenders of Mahan Energen Limited (MEL) that it will not transfer its 49% equity holding in MEL outside the Adani Power Group, except with the prior approval of lenders.

ii) The Company and Druk Green Power Corp. Ltd. ("DGPC"), Bhutan's state-owned utility, has signed the shareholders agreement (SHA) and have jointly incorporated a new entity (with 49:51 shareholding respectively) for setting up a 570 MW hydroelectric project under "Wangchhu Hydroelectric Power Limited" ("WHPL") in Bhutan. During the current year, the Company has invested ₹ 24.50 crore in equity shares of said Joint venture and total outstanding commitments related to this SHA as at March 31, 2026 is ₹ 24.50 crore.

iii) The Company has issued a letter of financial, operational and capex support to MEL for a period of not less than twelve months from the date of approval of MEL's financial statements for the year ended March 31, 2026, to enable MEL to meet its obligations and execute its projects.

46 Leases

The Company has lease contracts for land, building and computer hardware used in its operations (including used in expansion projects). Leases of these items have lease terms between 2 to 99 years. The Company is restricted from assigning and subleasing certain leased assets. The Company's obligation under its leases are secured by the lessor's title to the right-of-use assets.

The weighted average incremental borrowing rate applied to lease liabilities are in range of 8.50% to 9.00%. (Previous year 8.50% to 9.00%)

(iii) Disclosure of expenses related to Lease:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest on lease liabilities (Net of capitalisation of ₹ 76.11 crore (Previous year - ₹ 27.30 crore))	18.58	12.99
Depreciation expense on Right-of-use assets (Net of capitalisation of ₹ 21.36 crore (Previous year - ₹ 11.43 crore))	48.44	34.10
Expense Related to short term leases and leases of low value	10.73	12.41

(iv) Amount recognised in statement of Cash Flows:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Payment towards principal portion of lease liabilities	6.69	26.14
Payment towards interest portion of lease liabilities	64.82	40.29

The Company also had non-cash additions to right-of-use assets and lease liabilities of ₹ 123.40 crore (previous year ₹ 956.27 crore) on account of new leases during the year.

(v) The additions to the Rights-of-use asset during the year and its carrying value - Refer note 4.2

The Company through erstwhile subsidiary, Raipur Energen Limited ("REL") had incurred cost of ₹ 55.57 crore and ₹ 30.75 crore towards development of Talabira Coal mine and Ganeshpura Coal mine, respectively in the earlier years.

In the above matter, earlier the Company had filed two writ petitions with Hon'ble Delhi High Court requesting surrender of the said mines in view of Union of India's ("UoI") notification dated April 16, 2015 stating capping of the fixed / capacity charges and also requested to refund the costs incurred along with the release of bid security. The Hon'ble Delhi High Court vide its single order dated April 15, 2019 dismissed the petitions on the ground of delay in filling of writ petitions. Consequently, the Company filed petitions before Hon'ble Supreme Court to set aside the order of the Hon'ble Delhi High Court. Pending adjudication of the petitions, Hon'ble Supreme Court directed UoI and others vide its order dated May 30, 2019 that no coercive action to be taken in these matters.

The management expects favourable resolution of these matters and is reasonably confident to realise the entire cost spent towards these coal mines as compensation in the subsequent periods.

However, the matter has been pending for long period of time, the Company based on prudence principles has fully provided the amount in the books.

(b) The Company had sought cancellation of the Jitpur coal block and requested the Nominated Authority, Ministry of Coal, New Delhi, to cancel the Vesting Order, vide its representation dated October 31, 2020 and also requested for refund of costs of ₹ 138.66 crore incurred by it and release of the performance bank guarantee of ₹ 92.90 crore given to the Nominated Authority. The Nominated Authority concluded the fresh e-auction of Jitpur Coal Block on September 13, 2022. Pursuant to this, the Coal Mines Development and Production Agreement ("CMDPA") has been signed between the new bidder and the Nominated Authority, Ministry of Coal on October 13, 2022.

The Nominated Authority has issued the Final Compensation Order dated November 13, 2024. The Company has received ₹ 32.70 crore and is confident of recovering the remaining amount.

recoverable value of such CGUs individually is higher than their respective carrying amounts as at March 31, 2026. However, if these estimates and assumptions were to change in future, there could be corresponding impact on the recoverable amounts of the Plants.

51 The Company has taken various derivatives to hedge its risks associated with foreign currency fluctuations on items including principal loan amount, Trade Credits etc. and interest thereof along with interest rate changes. The outstanding position of derivative instruments is as under :

(₹ In crore)

Nature	Purpose	As at March 31, 2026		As at March 31, 2025	
		Amount	Foreign Currency (in Millions)	Amount	Foreign Currency (in Millions)
Forward covers	Hedging of Trade Credits	(162.22)	(USD 17.11)	(4,716.81)	(USD 551.84)
	Hedging of Creditors	(485.70)	(CNH 354.2)	-	-
		(185.98)	(USD 19.61)	(901.22)	(USD 105.44)

(Figures below ₹ 50,000 are denominated with *)

52 Financial Risk Management Objective and Policies :

The Company's risk management activities are subject to the management direction and control under the framework of Risk Management Policy as approved by the Board of Directors of the Company. The Management ensures appropriate risk governance framework for the Company through appropriate policies and procedures and the risks are identified, measured and managed in accordance with the Company's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist teams that have appropriate skills, experience and supervision. It is the Company policy that no trading in derivatives for speculative purposes may be undertaken.

not hedged against interest rate fluctuation at the end of the reporting period. The said analysis has been carried out on the amount of floating rate liabilities outstanding at the end of the reporting period. The year end balances are not necessarily representative of the average debt outstanding during the year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

In case of fluctuation in interest rates by 50 basis points on the exposure of borrowings (having fluctuating rates i.e. exposed to changes in rates) of ₹ 34,197.96 crore as on March 31, 2026 and ₹ 26,089.56 crore as on March 31, 2025 respectively and if all other variables were held constant, the Company's profit or loss for the year would increase or decrease as follows:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Impact on Profit before tax for the year (net of amounts capitalised under Property, Plant and Equipment)	170.99	130.45
Impact on Equity	127.96	97.62

The Company intends to hold investment in liquid mutual fund for relatively shorter period and hence, interest rate risk is not material to that extent.

b) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (trade receivables) and borrowings in the form of Trade Credits. The Company manages its foreign currency risk by hedging transactions that are expected to realise in future. The Company also enters into various foreign exchange hedging contracts such as forward covers, swaps, options etc. to mitigate the risk arising out of foreign exchange rate movement on foreign currency borrowings and trade payables (including capital creditors).

supply of coal and other commodities. Therefore the Company monitors its purchases closely to optimise the procurement cost.

d) Equity Price risk

The Company does not have equity price risk except to the extent impairment of investment.

(ii) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

a) Trade Receivables

The Company is having majority of receivables from State Electricity Boards which are Government undertakings and have interest clause on delayed payments and hence, they are secured from credit losses in the future. Receivables are secured by letter of credit amounting to ₹ 2,505.89 crore (Previous year ₹ 3,777.84 crore).The Company holds sovereign guarantee of Bangladesh Government, for the entire receivables under Power purchase agreement with BPDB.

b) Financial Guarantee

The Company has issued financial guarantees to banks on behalf of and in respect of loan facilities availed by its subsidiaries. In accordance with the policy of the Company, the Company has recognised these financial guarantees as liability at fair value (Refer note 24 and 31). Outstanding loans in the subsidiary against the financial guarantee contracts given by the Company as at March 31, 2026 is ₹ 950 crore (Previous year ₹ 950 crore).

the cash returns on investments while ensuring sufficient liquidity to meet its liabilities; or lent to group entities at market determined interest rate.

Trade credits are included in the Company's supplier finance arrangement. Refer note 28 for further disclosures about the arrangement.

The Company expects to generate positive cash flows from operations in order to meet its external financial liabilities as they fall due and also consistently monitors funding options available in the debt and capital market with a view to maintain financial flexibility.

Maturity profile of financial liabilities :

The table below has been drawn up based on the undiscounted contractual maturities of the financial liabilities including interest that will be paid on those liabilities upto the maturity of the instruments.

(₹ In crore)

As at March 31, 2026	Refer note	Carrying Amount	Less than 1 year	1 to 5 years	More than 5 years	Total
Fixed rate Borrowings	22 & 28	13,224.48	6,272.95	8,701.04	416.12	15,390.11
Floating rate Borrowings	22 & 28	34,769.96	5,039.32	25,351.75	20,647.53	51,038.60

Other Financial Liabilities	24 & 31	2,032.44	1,809.71	290.04	37.95	2,137.70

Trade Receivables	10,280.87	12,143.05	11,495.09
Gross Contract liabilities including refund liabilities	267.47	303.37	203.07

Set out below is the amount of revenue recognised from:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Amount included in contract liabilities at the beginning of the year	51.09	4.89

Reconciliation of the amount of revenue recognised in the statement of profit and loss with the contracted price:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue as per contracted price (excluding other operating revenue)	45,410.26	49,784.33
Adjustments		
Discount on prompt payment	(164.66)	(112.99)
Discount under Shakti Scheme	(26.48)	(27.10)
Revenue from contract with customers (Refer note 35)	**45,219.12**	**49,644.24**

Particulars	Unbilled	Not due	Outstanding for following periods from due date of Payment					Total
			Less than 6 Months	6 Months - 1 year	1-2 years	2-3 years	More than 3 years	
Undisputed Trade receivable - Considered Good	2,456.17	3,655.78	5,027.58	626.96	215.83	90.38	50.00	12,122.70
Disputed Trade receivable - Considered Good (Refer note (iii) below)	-	-	-	-	-	-	20.35	20.35
Total	**2,456.17**	**3,655.78**	**5,027.58**	**626.96**	**215.83**	**90.38**	**70.35**	**12,143.05**

i) The above ageing has been calculated based on due date as per terms of agreement. In case where due date is not provided, date of transaction is considered.

ii) Trade receivable includes certain balances which are under reconciliation / settlement with Discoms for payment / closure.

iii) In respect of the Company's 40 MW solar power plant at Bitta, in the matter of alleged excess energy injected in terms of the PPA, GUVNL has withheld ₹ 72.10 crore against power supply dues during the year ended March 31, 2022. Gujarat Electricity Regulatory Commission ("GERC") vide its order dated November 3, 2022 directed GUVNL to make payment of the amount withheld within three months from the date of order along with late payment surcharge as per PPA. However, GUVNL has filed an appeal with APTEL against the said order of GERC and the matter is pending adjudication. The Company, as per interim order of APTEL dated February 28, 2023, has received ₹ 51.75 crore being 75% of the withheld amount subject to outcome of appeal with APTEL. The management, based on GERC order, expects favorable outcome in the matter.

iv) In respect of receivable from GUVNL against Mundra TPP, refer note 35(iv)(a).

v) Also refer note 3(viii).

(ii) Capital is defined as Equity share capital, Instruments entirely equity in nature and other equity including reserves and surplus.

The Company believes that it will able to meet all its current liabilities and interest obligations in timely manner.

The Company's capital management ensure that it meets financial covenants attached to the interest bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to levy penal interest and immediately call all borrowings as per terms of sanction. There have been no breaches in the financial covenants of any interest bearing loans and borrowings in the current year. No changes were made in the objectives, policies or processes for managing capital by the Company during the year.

55 Fair Value Measurement :

a) The carrying value of financial instruments by categories as of March 31, 2026 is as follows :

(₹ In crore)

Particulars	Fair Value through other Comprehensive income	Fair Value through profit or loss	Amortised cost	Total

(Figures below ₹ 50,000 are denominated with *)

The fair value of financial assets and financial liabilities are reasonably approximate the carrying value, since the Company does not anticipate that the carrying amount would be significantly different from the values that would eventually be received or settled.

Total			**-**	**1,052.46**	*****	**1,052.46**
Liabilities						
Derivative Instruments	March 31, 2025		-	25.86	-	25.86
Total			**-**	**25.86**	**-**	**25.86**

(Figures below ₹ 50,000 are denominated with *)

The fair value of the financial assets and financial liabilities included in the level 2 categories above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rates curves of the underlying derivative.

The fair values of investments in Mutual Funds / Commercial Papers / Certificate of Deposits / Alternative Investment Fund units is based on the net asset value ('NAV').

There have been no transfer between Levels during the year ended March 31, 2026 and March 31, 2025

57 Payment to auditors (including GST)

being a part of the Consortium. Further, the approved resolution plan also included the amalgamation of CEPL with Moxie Power Generation Limited ("MPGL"), a Special Purpose Vehicle ("SPV") incorporated by the Consortium, in which the Company holds 49% equity stake. On fulfillment of conditions precedent as per the NCLT order, the SPV has made upfront payment of ₹ 3,335.52 crore to the financial and operational creditors and CEPL has been amalgamated with MPGL as per NCLT order w.e.f. August 31, 2024.

Further, upon appeal filled by the erstwhile director of CEPL, National Company Law Appellate Tribunal ("NCLAT") vide its order dated September 6, 2024, had instructed that for the time being the status quo to be maintained and resolution professional will continue to operate the plant. In response to the petition filed by the Company against the said NCLAT order, the Hon'ble Supreme Court ("SC") vide its order dated September 12, 2024, had ordered that status quo as was operating before NCLAT order was passed on September 6, 2024 shall continue to remain in operation until the matter is disposed of by the NCLAT.

(b) During the previous year, National Company Law Tribunal ("NCLT") vide its order dated August 21, 2024, approved the resolution plan submitted by the Company for acquisition of Lanco Amarkantak Power Limited ("LAPL"), a Company undergoing Corporate Insolvency Resolution Process ("CIRP") under the Insolvency and Bankruptcy Code. LAPL had capacity of 600 MW (2x300 MW) coal fired power plant and is also setting up 1,320 MW (2x660 MW) coal fired power plant in the state of Chhattisgarh. LAPL has been acquired by the Company w.e.f. September 6, 2024 on fulfillment of conditions precedent as per the NCLT order and on infusion of agreed amount of equity share capital of ₹ 1 crore, along with upfront payment of ₹ 4,101.00 crore to its lenders. Subsequent to the acquisition, the name of LAPL has been changed to Korba Power Limited ("KPL").

been received by the Company from any parties ("Funding Parties") with the understanding that the Company shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the funding party or provide any guarantee, security or the like on behalf thereof.

66 The Board of Directors of the Company at its meeting held on October 30, 2025, approved the scheme of amalgamation of wholly owned subsidiaries of Adani Power Limited ("APL"), viz. (i) Adani Power Dahej Limited ("APDL"); (ii) Kutchh Power Generation Limited ("KPGL") (a step down wholly owned subsidiary of APL, as 100% equity shares of KPGL are held by APDL); (iii) Resurgent Fuel Management Limited ("RFML"); (iv) Mahan Fuel Management Limited ("MFML"); (v) Orissa Thermal Energy Limited ("OTEL"); (vi) Korba Power Limited ("KPL"); (vii) Anuppur Thermal Energy (MP) Private Limited ("ATEMPPL"); (viii) Mirzapur Thermal Energy (UP) Private Limited ("MTEUPPL"); (ix) Emberiza Infra Park Limited ("EIPL"); and (x) Vidarbha Industries Power Limited ("VIPL") with APL, with appointed date of April 1, 2025, in terms of the provisions of sections 230 to 232 and other applicable provisions of the Companies Act, 2013. During the year, the Company has filed the scheme with respective NCLTs. The Scheme will be effective on receipt of regulatory approvals. Accordingly, impact of the said scheme has not been considered in these standalone financial statements.

67 As on November 21, 2025, the Government of India notified four Labour Codes, effective immediately, replacing the existing 29 labour laws.

The impact of implementation of the Labour Codes has resulted in an increase of ₹ 43.54 crore in the liabilities for defined benefit obligation. The amount has been measured and recognised based on management assessment of the impact on defined benefit obligation on such implementation and net incremental liability has been recognised as an employee benefit expenses during the year ended March 31, 2026, The Company continues to monitor the finalization of Central and State Rules, as well as Government clarification on other aspects of the Labour Codes, and will recognize the consequential impact, if any, based on such developments.

on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and joint venture, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its joint venture as at March 31, 2026, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are

opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

In certain cases where the regulatory order(s) are subject matter of appeal with higher appellate forums / authorities, and the amount of claims are not ascertainable, revenues for change in law claims are not recognised, pending outcome of the final decision. In view of the complexity and judgement involved in estimation of the amounts of such claims and recoverability thereof, the same is considered as a key audit matter.	historical information and other available internal and external data. - Performed substantive procedures over management's estimates, including comparison with historical claims, regulatory precedents and other corroborative evidence. - Tested on a sample basis, the accuracy of the underlying data used for computation of such claims. - Tested the joint reconciliations of trade receivables performed by the Group with the respective Discoms, wherever available with underlying records. - Tested the status of the outstanding receivables and recoverability of the overdue / aged receivables through inquiry with management, and collection trends in respect of receivables. Assessed the disclosures in accordance with the requirements of Ind AS 115 "*Revenue from Contracts with Customers*".

key audit matter considering the significant judgements involved in the determination thereof.	the working as per CERC regulatory orders, Appellate Tribunal and the Court rulings. - Tested the status of the outstanding receivables and recoverability of the overdue / aged accruals through inquiry with management, and collection trends in respect of receivables. - Assessed the disclosures in accordance with the requirements of Ind AS 115 "Revenue from Contracts with Customers".
Business Combinations: Acquisition of Vidarbha Industries Power Limited ("VIPL") *(Refer Note 3(x) and 46(i)(a) to the consolidated financial statements)*	
During the year ended March 31, 2026, the Company acquired entire equity shares of Vidarbha Industries Power Limited ("VIPL") for a consideration comprising payment of ₹ 0.10 crore towards equity share capital and infusion of ₹ 4,000 crores for upfront settlement of lender dues pursuant to the resolution plan approved by the National Company Law Tribunal (NCLT);	Our audit procedures in response to this key audit matter included, but not limited to, the following: • Obtained an understanding of design and operating effectiveness of the Holding Company's key controls over the acquisition accounting process, including the assessment of whether it constitutes business, determination of effective date, the identification and measurement of identifiable assets and liabilities, the allocation of consideration, and the determination of goodwill / capital reserve in accordance with Ind AS 103. • Read the Resolution Plan approved by the National Company Law Tribunal and other related documents to obtain understanding of the transactions and the key terms and conditions.

110 – Consolidated Financial Statements. Further, MPGL had acquired Coastal Energen Private Limited ("CEPL") pursuant to an approved resolution plan under the National Company Law Tribunal (NCLT), which also provided for the amalgamation of CEPL with MPGL. Subsequent to the approval, litigation was initiated by the erstwhile promoter/director of CEPL before the National Company Law Appellate Tribunal (NCLAT), resulting in interim orders directing maintenance of status quo. Despite the ongoing litigation, management continues to exercise judgment in concluding that the Group controls MPGL and MPGL continues to meet the definition of a subsidiary, warranting consolidation in the Group's consolidated financial statements. The assessment of control under Ind AS 110 involves significant judgment, particularly in circumstances where: • the investor holds less than a majority of voting rights; • control is achieved through substantive rights, operational involvement and decision-making authority; and • the acquired entity and its amalgamation are subject to legal proceedings, which could potentially impact governance, operations, or consolidation conclusions.	49% equity interest. • Reviewed shareholder agreements, governance and contractual arrangements to evaluate substantive rights and authority over relevant activities. • Evaluated evidence of the Group's ability to direct key operational and financial decisions of MPGL. • Reviewed NCLT, NCLAT and Hon'ble Supreme Court orders to assess the impact of ongoing litigation on control and consolidation conclusions. • Evaluated whether the consolidation conclusion appropriately reflects the facts and circumstances as at the reporting date, particularly considering ongoing litigation. • Assessed the adequacy and appropriateness of related disclosures in the consolidated financial statements.

conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its joint venture in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its joint venture are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether

ability of the Group and its joint venture to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its joint venture of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

(a) We did not audit the financial statements and other financial information, in respect of seventeen (17) subsidiaries, whose financial statements include total assets of ₹ 26,446.39 crores as at March 31, 2026, and total revenues of ₹ 5,778.11 crores and net cash inflows of Rs 85.07 crores for the year ended on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the report(s) of such other auditors.

the total revenues of ₹ Nil and net cash inflows of ₹ 0.05 crores for the year ended on that date. Those unaudited financial statements and other unaudited financial information have been furnished to us by the management. The consolidated financial statements also include the Group's share of net profit of ₹ Nil for the year ended March 31, 2026, as considered in the consolidated financial statements, in respect of one joint venture, whose financial statements, other financial information have not been audited and whose unaudited financial statements, other unaudited financial information have been furnished to us by the Management. Our opinion, in so far as it relates to amounts and disclosures included in respect of these subsidiary and joint venture, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiary and joint venture, is based solely on such unaudited financial statements and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to

relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors except for the matters stated in sub-clause (2)(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014;

(c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;

of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform

the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are

incorporated in India whose financial statements are audited, have, maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal

of long term / medium term / short term Power Purchase Agreements ("PPAs"), Supplemental Power Purchase Agreement ("SPPAs") and on merchant basis and also engaged in trading, investment and other activities incidental and ancillary to power generation and sales. The Group is also exploring opportunities in international power business and in nuclear power in India. Information on the Group's structure is provided in Note 45.

The consolidated financial statements were approved for issue in accordance with a resolution of the directors on April 29, 2026.

2 Material accounting policies

2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) read with section 133 of Companies Act, 2013 and presentation requirements of Division II of schedule III to the Companies Act, 2013 (Ind AS compliant Schedule III), as applicable to consolidated financial statements. The consolidated financial statements have been prepared on the historical cost basis

i. The consolidated financial statements comprise the financial statements of the Company and its subsidiaries being the entities controlled by it as at March 31, 2026 and Group's interest in a Joint venture.

ii. Control is achieved when the Group :

- has power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power over the investee to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

iii. When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether

and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date when the Group ceases to control the subsidiary.

v. Consolidated P&L and each component of OCI are attributed to the owners of the Group and to the NCI. Total Comprehensive Income of subsidiaries is attributed to the owners of the Company and to the NCI even if this results in the NCI having deficit balance.

vi. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

goodwill) and liabilities of the former subsidiary at their carrying amounts at the date when control is lost

- Derecognises the carrying amount of any non-controlling interests at the date when control is lost. This includes any components of OCI attributable to them.
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises a distribution if the transaction, event, or circumstances that resulted in the loss of control involves a distribution of shares in the subsidiary to owners in their capacity as owners
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or transferred directly to retained earnings, if required by other Ind AS. Such reclassification/ transfer is decided on the same basis as would be required if the Group had directly disposed off the related assets or liabilities.

A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the joint arrangement, rather than rights to its assets and obligations for its liabilities. Interest in joint venture is accounted using equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of profit or loss and other comprehensive income (OCI) of equity accounted investees until the date on which joint control ceases.

2.3 Summary of material accounting policies

a Property, Plant and Equipment and Capital Work-In-Progress

Recognition and initial measurement

Property, plant and equipment are stated at original / acquisition cost grossed up with the amount of tax / duty benefits availed, less accumulated depreciation and accumulated impairment losses, if any. All directly attributable costs relating to the project activities, including borrowing costs relating to qualifying assets incurred during the project development period, net of income earned during the period till commercial operation date of

as payments made/adjustments is expensed as incurred cost and recognised in the consolidated statement of profit and loss. The estimated future costs of R&R are reviewed annually and adjusted as appropriate.

Items of stores and spares that meet the definition of property, plant and equipment are capitalised at cost and depreciated over their useful life.

Depreciation

In respect of Property, Plant and Equipment covered under part A of Schedule II to the Companies Act, 2013, depreciation is recognised based on the cost of assets (other than freehold land) less their residual values over their useful lives, using the straight-line method in the consolidated statement of profit and loss unless such expenditure forms part of carrying value of another asset. The useful life of property, plant and equipment is considered based on life prescribed in schedule II to the Companies Act, 2013 except in case of power plant assets, where the life has been estimated at 25 years or 40 years based on technical assessment, taking into account, the estimated usage of the assets and the current operating condition of the assets. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over

... lease term or useful life	
Buildings - Township, Hostels, Residential flats etc.	60
Buildings - Plant offices, Boundary walls, Civil works etc.	30
Buildings - Others	3 to 42
Plant and Equipment - Capital Overhauling and Others	2 to 6
Plant and Equipment - Desalination and Flue Gas Desulfurisation, Cooling Tower and Ancillary Tower	7 to 20
Plant and Equipment - Boiler, Turbine and Generators	12 to 40
Furniture and Fixtures	1 to 10
Railway Sidings	5 to 15
Computer Hardware	3 to 6
Office Equipment	3 to 5
Vehicles - Four and Two Wheelers	8 to 10
Vehicles - Others	3 to 25

In respect of Property, Plant and Equipment covered under part B of Schedule II to the Companies Act, 2013, depreciation is recognised based on the cost of Property,

considering total useful life of assets, as per table herein above.

In case of Udupi, Dahanu and Korba TPP, class wise depreciation rates till March 31, 2025 are mentioned below :

Assets Class	(In %)
Right of Use Assets - lower of lease term or useful life	5.00 to 20.00
Buildings - Temporary Structures	20.00 to 25.00
Buildings - Others	3.34
Plant and Equipment - Boiler, Turbine and Generator	5.28
Plant and Equipment - Capital Overhauling	20.00
Furniture and Fixtures	6.33
Computer Hardware	15.00
Office Equipment	6.33
Vehicles	9.50

Subsequent measurement

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated statement of profit and loss.

b Investment properties

Recognition and initial measurement

Investment properties comprises of land are held to earn rentals or for capital appreciation, or both. Investment properties held under a lease is classified as investment property when it is held to earn rentals or for capital appreciation or both. Investment properties are measured initially at their cost of acquisition, including transaction costs. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognised in the consolidated statement of profit and loss as incurred.

The difference between the net disposal proceeds and the carrying amount of the asset is recognised as other operating income in the consolidated statement of profit and loss in the period of de-recognition.

c Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified period upto twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the Balance sheet.

Deferred Tax Assets and liabilities are classified as non-current assets and liabilities.

d Financial Instruments

A Financial Instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are initially measured at fair value with the exception of trade receivables that do not contain significant financing component or for which the Group has applied the practical expedient. The Group initially measures a financial asset at its fair value plus, in the case of

the Group commits to purchase or sell the assets.

Subsequent measurement

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of Financial assets

Financial assets measured at amortised cost

Financial assets that meet the criteria for subsequent measurement at amortised cost are measured using effective interest method ("EIR") (except for debt instruments that are designated as at fair value through profit or loss on initial recognition) :

a) the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

The Group applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables and other contractual rights to receive cash or other financial asset.

The Group measures the loss allowance for a Trade Receivables and Contract Assets by following 'simplified approach' at an amount equal to the lifetime expected credit losses ("ECL"). In case of other financial assets 12-month ECL is used to provide for impairment loss and where credit risk has increased significantly, lifetime ECL is used.

Derecognition of financial assets

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in consolidated other comprehensive income and accumulated in equity, is recognised in the consolidated statement of profit and loss if such gain or loss would have otherwise been recognised in the consolidated statement of profit and loss on disposal of that financial asset.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

Subsequent Measurement

For purposes of subsequent measurement, financial liabilities are classified under two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost

Classification of Financial liabilities

Financial liabilities at fair value through profit or loss (FVTPL)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition at fair value through profit or loss. Financial liabilities are classified as held for trading if these are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that

are determined based on the effective interest method. Interest expense that is not capitalised as part of cost of an asset is included in the 'Finance costs' line item in the consolidated statement of profit and loss.

Derecognition of financial liabilities

On derecognition, the difference between the carrying amount of the financial liability derecognised and the consideration paid / payable is recognised in the consolidated statement of profit and loss. In case of derecognition of financial liabilities relating to promoters contribution, the difference between the carrying amount of the financial liability derecognised and the consideration paid / payable is recognised in other equity.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a legally enforceable right (not contingent on future events) to off-set the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

h Hedge Accounting

The Group designates certain hedging instruments, which mainly includes derivatives in respect of foreign currency risk, as cash flow hedges.

At the inception of the hedge relationship, the Group formally designates and documents the relationship between the hedging instrument and hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair value or cash flows of the hedged item attributable to the hedged risk.

i Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses where considered necessary. Costs include all non-refundable duties and all charges incurred in bringing the goods to their present location and condition. Cost is determined on First in First out basis (FIFO) for coal inventory and on weighted average basis for other than coal inventory. Net realisable value represents estimated selling price of inventories and in case of coal

Acquisitions of business are accounted for using the acquisition method except business combination under common control. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interest issued by the Group in exchange of control of the acquiree. Acquisition related costs are charged to the consolidated statement of profit and loss for the periods in which the costs are incurred and the services are received, with the exception of the costs of issuing debt or equity securities that are recognised in accordance with Ind AS 32 and Ind AS 109.

Where the fair values of the identifiable assets and liabilities exceed the purchase consideration, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income and accumulated in equity as capital period adjustments. The measurement period does not exceed one year from the acquisition date.

Purchase consideration paid in excess / shortfall of the fair value of identifiable assets and liabilities including contingent liabilities and contingent assets, is recognised as goodwill / capital reserve respectively, except in case where different accounting treatment is specified in the court / National Company Law Tribunal ("NCLT") approved scheme.

However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and liabilities or assets related to employee benefits arrangements are recognised and measured in accordance with Ind AS 12 "Income Taxes" and Ind AS 19 "Employee Benefits" respectively.
- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.

not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

In case of acquisition of an asset or a group of assets that does not constitute a business, the Group identifies and recognises individual identifiable assets acquired (including those assets that meet the definition of, and recognition criteria for, intangible assets in Ind AS 38, Intangible Assets) and liabilities assumed. The cost incurred is allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction or event does not give rise to goodwill / capital reserve.

l Foreign currency translations and transactions

In preparing the financial statements of the Group, transactions in currencies other than the entity's functional currency are recognised at the rate of exchange prevailing at the date of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

items outstanding and recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period i.e. March 31, 2016 as per the previous GAAP.

m Fair value measurement

The Group measures financial instruments, such as, derivatives and mutual funds at fair value at each balance sheet date.

The Group's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole :

relates to non-monetary assets, the cost of assets is presented at gross value and grant significantly complied thereon is recognised as income in the consolidated statement of profit and loss over the useful life of the related assets in proportion in which depreciation is charged.

Grants related to income are recognised in the consolidated statement of profit and loss in the same period as the related cost which they are intended to compensate are accounted for.

o Contract Balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due and the amount is billable.

contracts with customers are provided in Note 3 (vi).

The specific recognition criteria described below must also be met before revenue is recognised.

i) Revenue from Power Supply

The Group's contracts with customers for the sale of electricity generally include one performance obligation. The Group has concluded that revenue from sale of electricity should be recognised at the point in time when electricity is transferred to the customer.

The group has generally concluded that it is principal in its revenue arrangements. However, where the group is acting as an agent, the group recognises revenue at the net amount that is retained for these arrangements.

Revenue from operations on account of Force Majeure events / change in law events in terms of PPAs / SPPAs with customers (Power Distribution Utilities) is accounted for by the Group based on the orders / reports of Regulatory Authorities, best management estimates, wherever needed and reasonable certainty to expect ultimate collection.

on procurement of alternative coal and on other claims are recognised upon approval by relevant regulatory authorities, best management estimates and based on reasonable certainty to expect ultimate collection.

iv) Interest income is recognised on time proportion basis at the effective interest rate ("EIR") applicable.

v) Late payment surcharge on delayed payment for power supply is recognised based on receipt / collection from customers or on acceptance / acknowledgement by the customers whichever is earlier.

q Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of the asset, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

and past service cost and net interest expense or income are recognised in the consolidated statement of profit and loss in the period in which they occur. Remeasurement, comprising of actuarial gains and losses, the effect of changes to the asset ceiling (excluding amounts included in net interest or the net defined benefit liability) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the balance sheet with corresponding debit or credit to retained earnings through OCI in the period in which it occurs. Remeasurement are not classified to the consolidated statement of profit and loss in subsequent periods. Past service cost is recognised in the consolidated statement of profit and loss in the period of a plan amendment (refer note 68).

ii) Defined contribution plan :

Retirement Benefits in the form of Provident Fund and Family Pension Fund which are defined contribution schemes are charged to the consolidated statement of profit and loss for the period in which the contributions to the respective funds accrue as per relevant statues.

The Group recognises right-of-use assets and lease liabilities for all leases except for short-term leases and leases of low-value assets.

The Group applies the available practical expedients wherein it:

- Uses a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relies on its assessment of whether leases are onerous immediately before the date of initial application
- Applies the short-term leases exemptions to leases with lease term that ends within 12 months at the date of initial application
- Excludes the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Uses hindsight in determining the lease term where the contract contains options to extend or terminate the lease

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. (i.e., the date the underlying asset is available for use) residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

Subsequent measurement of lease liabilities

The lease liabilities is remeasured when there is change in future lease payments arising from a change in an index or a rate, or a change in the estimate of the guaranteed residual value, or a change in the assessment of purchase, extension or termination option. When the lease liabilities is measured, the corresponding adjustment is reflected in the right-of-use assets.

t Taxes on Income

Tax expenses comprises current tax and deferred tax. These are recognised in the consolidated statement of profit and loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is recognised for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date. Deferred tax liabilities are generally recognised for all taxable temporary differences except when the deferred tax liability arises at the time of transaction that affects neither the accounting profit or loss nor taxable profit or loss. Deferred tax assets are generally recognised for all deductible temporary differences, carry forward of unused tax credits and any unused tax losses, to the extent that it is probable that future taxable income will be available against which the deductible temporary differences and carry forward of unused tax credit and unused tax losses can be utilised, except when the deferred tax asset relating to temporary differences arising at the time of transaction affects neither the accounting profit or loss nor the taxable profit or loss. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that

and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

When there is an uncertainty regarding income tax treatments, the Group assesses whether a tax authority is likely to accept an uncertain tax treatment. If it concludes that the tax authority is unlikely to accept an uncertain tax treatment, the effect of the uncertainty on taxable income, tax bases and unused tax losses and unused tax credits is recognised. The effect of the uncertainty is recognised using the method that, in each case, best reflects the outcome of the uncertainty: the most likely outcome or the expected value. For each case, the Group evaluates whether to consider each uncertain tax treatment separately, or in conjunction with another or several other uncertain tax treatments, based on the approach that best prefixes the resolution of the uncertainty.

The Group does not recognise a deferred tax liability on temporary differences arising from undistributed earnings of its subsidiaries where the Group is able to control the timing of the reversal of the temporary

Assets

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of amount cannot be made.

Contingent liabilities may arise from litigation, taxation and other claims against the Group. The contingent liabilities are disclosed where it is management's assessment that the outcome of any litigation and other claims against the Group is uncertain or cannot be reliably quantified, unless the likelihood of an adverse outcome is remote.

Contingent assets are not recognised but are disclosed in the notes where an inflow of economic benefits is probable.

asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit ("CGU")'s fair value less costs to disposal and its value in use.

In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group enters into transaction with suppliers that involves prepayment in conjunction with advances for goods and services wherein Group assesses at each reporting date whether goods against the advance is recoverable and if there is any indication, the asset may be provided.

Goodwill is tested for impairment annually as at March, 31 and when circumstances indicate that the carrying value may be impaired.

y Mine Development Expenditure

i) Expenditure incurred towards coal mines under construction are capitalised to 'Coal Mines under construction' as long as they meet the capitalisation criteria and is presented as capital work-in-progress. Upon commencement of production stage, the 'Coal Mines under construction' is capitalised and presented as 'Mining Rights' under Intangible Assets except in situation when the Group decide to surrender its rights in mine and amount is classified as recoverable from Nominated Authorities.

ii) Mining Rights are amortised using unit-of-production method on the basis of proven and probable reserves on commencement of commercial production.

Mine Closure Obligations

The liability for meeting the mine closure has been estimated based on the mine closure plan in the proportion of total area exploited to the total area of the mine as a whole. These costs are updated annually during the life of the mine to reflect the developments in mining activities. The mine closure obligations are included in Mining Rights under Intangible assets and amortised based on unit of production method.

If the Group receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its financial statements. The Group will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

ab Amended standards adopted by the Company

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended March 31, 2026, except for amendments to the existing Indian Accounting Standards (Ind AS). The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments are effective for annual reporting periods beginning on or after April 1, 2025. When applying the amendments, an entity cannot restate comparative information.

(ii) Amendments to Ind AS 1 – Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants

In August 2025, the MCA notified amendments to paragraphs 69 to 76 of Ind AS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period

In August 2025, the MCA notified amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures to clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

(iv) International Tax Reform—Pillar Two Model Rules – Amendments to Ind AS 12

In August 2025, the MCA notified amendments to Ind AS 12 Income Taxes in response to the OECD's BEPS Pillar Two rules and include:

- A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
- Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

focuses on improving how entities present and communicate financial performance, particularly in the Statement of Profit and Loss.

This standard is proposed to be applicable for annual reporting periods beginning on or after April 1, 2027, subject to final notification by the MCA through amendment to the Companies (Indian Accounting Standards) Rules.

Amendments to Ind AS 1 – Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants

The Ind AS 1 carve-out regarding the classification of liabilities when there is a breach of a material covenant that transforms the liability from non-current to current has been removed and hence when an entity breaches any covenant of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand, it classifies the liability as current, even if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. An entity classifies the liability as current because, at the end of the reporting period, it does not have the right to defer its settlement for at least 12 months after that date.

revision and future periods if the revision affects both the current and future periods. Uncertainties about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Key Sources of estimation uncertainty :

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

i) Useful lives of property, plant and equipment

In case of the power plant equipment, where the life of the assets has been estimated at 25 or 40 years based on technical assessment, taking into account the estimated usage of the asset and the current operating condition of the asset, depreciation on the same is provided based on the useful life of

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Information about the various estimates and assumptions made in determining the present value of defined benefit obligations are disclosed in note 61.

iv) Impairment of non financial assets

For determining whether property, plant and equipment, intangible assets and goodwill are impaired, it requires an estimation of the value in use of the relevant cash generating units. The value in use calculation is based on a Discounted Cash Flow model over the estimated useful life of the Power Plants. Further, the cash flow projections are based on estimates and assumptions relating to tariff, change in law claims, operational performance of the Plants, life extension plans, market prices of

vi) **Income / Revenue**

Revenue from Operations on account of Force Majeure / Change in Law events or Interest Income on account of carrying cost in terms of Power Purchase Agreements / Supplemental Power Purchase Agreements with various State Power Distribution Utilities is accounted for / recognised by the Group based on best management estimates following principles of prudence, as per the orders / reports of Regulatory Authorities, the Hon'ble Supreme Court of India ("Hon'ble Supreme Court") and the outstanding receivables thereof in the books of account have been adjusted / may be subject to adjustments on account of consequential orders of the respective Regulatory Authorities, the Hon'ble Supreme Court and final closure of the matters with the respective Discoms. (refer note 37 and 38).

In certain cases, the Group has claimed compensation from the Discoms based on management's interpretation of the regulatory orders and various technical parameters including provisional methodology for coal cost recovery, which are subject to final verification and confirmation by the respective Discoms, and hence, in these cases, the revenues have been recognised

vii) **Classification of Trade Receivables**

In cases of circumstances / matters where there are pending litigations on regulatory matters / change in law claims, the classification of disputed / undisputed trade receivables is a matter of judgement based on facts and circumstances. The Group has evaluated the fact pattern and circumstances, including ongoing discussions with the Discoms, for each such regulatory matter pending to be adjudicated by the relevant authority.

In cases, where rule of law and principles of economic restitution have already been established by APTEL / Supreme Court in similar matters, the revenues are recognised on prudent and conservative technical parameters, significant amounts have been recovered already and the management does not perceive any downside risks in future on final adjudication by Supreme Court and settlement of matter with Discoms, the related receivables are classified as undisputed.

In cases, where discussions with Discoms have not made reasonable progress and matters are sub-judice, the related receivables are classified as disputed, even though the management is reasonably confident of recovering the dues in full, backed by the regulatory orders in favour of the Group.

Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying to the Group's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that it reflects the current economic circumstances.

b) **Estimating the increamental borrowing rate**

The Group can not readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate that the Group have to pay to borrow over a similar terms, and with a similar security, the funds necessary to obtain an asset of similar value to the right-to-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which require estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when

PPA does not cover the entire life of these power plants. Further, the DISCOMs does not control any significant residual interest and does not restrict the Company's practical ability to sell or pledge these assets. Accordingly, the management is of the view that Appendix D to Ind AS 115 is not applicable to the Group.

xii) **Consolidation of entity in which the Group holds less than a majority of voting rights**

The Company holds 49% equity stake in Moxie Power Generation Limited.("MPGL") In view of effective operational control exercised by the Company, MPGL is treated as a subsidiary for consolidation.

xiii) **Consolidation of entity in which the Group holds joint control**

The Company holds 49% equity stake in Wangchhu Hydroelectric Power Limited ("WHPL"), Pursuant to signed shareholders agreement (SHA), the Company holds joint control over WHPL. Accordingly, WHPL is treated as joint venture for consolidation.

xiv) **Consolidation of entity which is under litigation**

The Group has acquired Coastal Energen Private Limited ("CEPL") through National Company Law Tribunal ("NCLT"). Further, the approved resolution plan, also included the amalgamation of CEPL

Notes to Consolidated Financial St

for the year ended March 31, 2026

4.1 Property, Plant and Equipment and Capital Work-In-Progres

	Balance as at March 31, 2026	**-**	**431.92**	**35,021.65**

Description of Assets	Land - Freehold	Buildings	Plant and Equipment (Refer note (iii) below)
Carrying amount :			
As at March 31, 2025	**1,733.32**	**2,552.41**	**61,942.89**
As at March 31, 2026	**1,842.28**	**2,644.96**	**61,757.48**

payment of aforesaid taxes and duties, the amount capitalised for these power plants as on the capitalisation date, is cost of property, plant and equipment (PPE) net off tax and duty benefit availed. However, on transition to IND AS w.e.f. April 1, 2015, in compliance with Ind AS 20 – "Government Grant", the value of PPE of Mundra TPP, Kawai TPP and Tiroda TPP have been grossed up by the amount of tax and duty benefit availed after considering such benefits as government grant. The amount of said government grant (net off accumulated depreciation) as on the transition date has been added to the value of PPE with corresponding credit made to the deferred government grant. The amount of deferred liability is amortised over the useful life of the PPE with credit to statement of profit and loss classified under the head "Other Income".

The Group has Government grant balance (net of amortisation) of ₹ 5,698.61 crore till March 31, 2026 (Previous year ₹ 6,098.91 crore).

Movement of Government Grant is as below:

(₹ In crore)

Particulars	As at March 31, 2026	As at March 31, 2025
Opening Balance	6,098.92	6,499.23
Less: Amortisation during the year	(400.31)	(400.31)
Closing Balance	**5,698.61**	**6,098.92**
Current Balance	400.43	400.44
Non-Current Balance	5,298.18	5,698.48

The balance amortisation period ranges from 9 to 27 years.

iv) Cost of Property Plant and Equipment includes carrying value recognised as deemed cost as of April 1, 2015, measured as per previous GAAP and cost of subsequent additions.

v) In case of acquisition of Dahanu Thermal Power Station ("DTPS"), the cost of the assets acquired have been allocated to the individual identifiable assets on the basis of their relative fair values on the date of acquisition (refer note 46).

	March 31, 2026	March 31, 2025
Finance Costs (refer note (a) below)	1,137.91	146.27
Employee Benefit Expenses	133.44	228.98
Depreciation and Amortisation Expense	34.21	18.15
Other Expenses (refer note (b) below)	2,483.58	79.83
Total	**3,789.14**	**473.23**

Note:

a) The rate used to determine the amount of borrowing costs eligible for capitalisation is ranging from 5.58% to 13.00% p.a. (previous year 9.00% to 12.00% p.a.), which is effective interest rate of borrowing.

b) Mainly includes project consultancy fees, security, utilities, etc. (refer note 75)

viii) Capital Work-in-progress Ageing Schedule :

a. As at March 31, 2026

(₹ In crore)

Capital Work-In-Progress	Amount in CWIP for a period of				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years **	
Projects in progress	23,144.64	6,943.02	400.35	4,565.45	35,053.46
Total	**23,144.64**	**6,943.02**	**400.35**	**4,565.45**	**35,053.46**

FGD Project (Refer note (ii) below)	717.80	-	-	-	717.80
Total	**777.13**	**-**	**-**	**-**	**777.13**

d. Details of the project whose completion is overdue as at March 31, 2025 :

(₹ In crore)

Capital Work-In-Progress	To be Completed in				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Railway Siding Project (refer note (i) below)	-	59.33	-	-	59.33
Mining Project (refer note (iii) below)	-	-	53.63	-	53.63
Total	**-**	**59.33**	**53.63**	**-**	**112.96**

Notes:

i) The capital assets in the nature of Railway Siding for Raigarh TPP forming part of Capital Work-In-Progress have become overdue compared to the original completion plan. The Company has acquired substantial land parcels and remaining land parcels are in the process of acquisition for completing the asset under development. The Management expects to acquire additional land from the government authorities and has already obtained in principle approval from railway authorities for the said project. The Company has paid advance of ₹ 37.60 crore for allotment of land. Further, the Company has obtained final approval of South East Central Railways to carry out development activities for the siding project.

ii) Such project is overdue compared to original plan of management.

iii) As at March 31, 2025 the capital assets in the nature of Mining Project forms part of Capital Work-In-Progress had become overdue compared to the original completion plan and the Company was in the process of obtaining mandatory clearances from various regulatory authorities for completing the asset under development. During the year the assets have been transferred by the Company to the mine developer and operator.

within 12 months.

4.2 Right-of-use Assets

(₹ In crore)

Description of Assets	Right-of-use Assets

Carrying amount :			
As at March 31, 2025	**-**	**48.69**	**48.69**
As at March 31, 2026	**43.56**	**48.69**	**92.25**

Notes :

i) Currently there are no amounts recognised in statement of profit and loss for rental income and direct operating expenses from investment properties.

ii) The Group had obtained certain Investment Properties under lease for a period of 99 years and are amortised over a period of lease.

Additions (refer note (ii) below)	13.91
Balance as at March 31, 2025	**204.52**
Additions	-
Balance as at March 31, 2026	**204.52**

Notes :

i) Goodwill of ₹ 183.66 crore was recognised upon acquisition of erstwhile Udupi Power Corporation Limited (now amalgamated with the Company) during the FY 2015-16 and ₹ 6.95 crore was recognised on acquisition of Tiroda TPP during the FY 2012-13 on account of amalgamation of Growmore Trade and Investment Private Limited with erstwhile Adani Power Maharashtra Limited. (now amalgamated with the Company)

ii) Goodwill of ₹ 13.91 crore was recognised on amalgamation of Stratatech Minerals Resources Private Limited ("SMRPL"), a wholly owned subsidiary of Adani Enterprises Limited, with Mahan Energen Limited ("MEL") during the previous year.

iii) Impairment testing of Goodwill :

The goodwill is tested for impairment annually and as at March 31, 2026, the goodwill was not impaired.

The Group prepares its forecasts considering the period of 5 years based on the most recent financial budgets approved by management with projected revenue growth rates ranging from from 3% to 8% p.a. (Previous year 3% to 8% p.a.).

The pre-tax discount rates ranges from 9% to 11%.p.a. (Previous year 9% to 11%.p.a)

Management believes that any reasonable possible change in any of these assumptions would not cause the carrying amount to exceed its recoverable amount.

Notes:

i) Government Securities represent investment kept towards Liquidity Reserve.

ii) Part of the Non-Convertible Debentures (NCDs) proceeds amounting to ₹ 534.04 crore as on March 31, 2026, was temporarily invested in short term investment instruments, as permitted under documents of NCDs, which has been subsequently utilised for specified purposes.

iii) For charges created on investments, refer note 24 and 30.

iv) The fair value of Current investments approximate the carrying value presented (refer note 59 and 60)

iii) **Expected Credit Loss (ECL)**
The average credit period ranges upto 75 days. The Group is having majority of receivables against power supply from State Electricity Distribution Companies ("Discoms") which are Government undertakings and also includes dues from Bangladesh Power Development Board (BPDB) under contractual agreement through Power Purchase Agreements ("PPAs").

The Group is regularly receiving its normal power sale dues from Discom and in case of regulatory revenue claims, the same is recognised on conservative basis based on best management estimates following principles of prudence, as per the binding regulatory orders. In case of delayed payments apart from carrying cost on settlement of claims, the Group is entitled to receive interest as per the terms of PPAs / SPPAs. Hence they are secured from credit losses due to efflux of time.

Receivables are secured by letter of credit amounting to ₹ 3,036.59 crore (Previous year ₹ 4,040.70 crore). The Group holds sovereign guarantee of Bangladesh Government, for the entire receivables under Power purchase agreement with BPDB.

iv) Refer note 37 for disclosures related to revenue and note 57 for ageing of receivables.

v) The fair value of Trade receivables approximate the carrying value presented. (refer note 59)

* For transaction with related parties, refer note 75.

Bank balances held as Margin money (With original maturity for more than three months but less than twelve months)	5,981.48	5,662.93
Fixed deposits (With original maturity for more than three months but less than twelve months)	16.96	137.09
Total	**5,998.44**	**5,800.02**

Notes:

i) For charges created on Bank balances (Other than cash and cash equivalents), refer note 24 and 30.

ii) The fair value of Bank balances (Other than cash and cash equivalents) approximate the carrying value presented. (refer note 59)

iii) Margin money represent deposits held by bank towards borrowings of the group, bank guarantee and others issued by the bankers on behalf of the Group, Debt Service Reserve Account ("DSRA") deposits and deposits kept towards Liquidity Reserve.

Notes:

i) The Group had issued Unsecured Perpetual Securities ("Securities"), which were perpetual in nature with no maturity or redemption and were callable only at the option of the issuer. The distribution on these Securities were cumulative at 8.85% to 10.67% p.a. and at the discretion of the issuer. As these securities were perpetual in nature and ranked senior only to the Equity Share Capital of the respective entities and the issuer did not have any redemption obligation, these were considered to be in the nature of equity instruments.

ii) During the current year, the Company has fully redeemed Unsecured Perpetual Securities of ₹ 3,056.92 crore (Previous year ₹ 4,258.08 crore) and also made distribution of ₹ 1,385.12 crore (Previous year ₹ 840.07 crore) to the holders of Securities.

Sale of Fly Ash and Others	88.36	71.27
Total revenue from contracts with customers	**54,240.52**	**56,203.09**

Notes:

(i) In respect of Tiroda TPP

(a) In the matter of non-availability of coal due to cancellation of Lohara coal block for the Company's 800 MW power generation capacity at Tiroda thermal power plant ("Tiroda TPP"), the Hon'ble Supreme Court vide its order dated April 20, 2023, upheld the orders of Maharashtra Electricity Regulatory Commission ("MERC") and APTEL, granting compensation (including carrying costs thereon) towards additional coal cost for the use of alternate coal.

Similarly, in a matter relating to shortfall in availability of domestic coal under New Coal Distribution Policy ("NCDP") and Scheme of Harnessing and Allocating Koyala (Coal) Transparently in India ("SHAKTI") policy of the government, for the Company's 2,500 MW power generation capacity at Tiroda TPP, the Hon'ble Supreme Court vide its orders dated March 3, 2023 and April 20, 2023, upheld the MERC's and APTEL's orders granting compensation (including carrying costs thereon) towards additional cost for the use of alternate coal.

Basis above favourable regulatory orders, the Company has continued to recognise tariff compensation claims towards additional coal cost of ₹ 2,716.39 crore during the year ended March 31, 2026.

(ii) In case of PPAs governed by section 62 of Electricity Act, 2003, the Group recognises revenue from sale of power based on the most recent tariff order / provisional tariff approved by the respective Regulatory Commission, as modified by the orders of Appellate Tribunal for Electricity ("APTEL") / Regulatory commissions, and necessary provisions / adjustment considered on conservative basis. This revenue is recognised having regard to the mechanism provided in applicable tariff regulations and the bilateral arrangements with the Discoms. Such tariff orders are subject to conclusion of final tariff orders in terms of Multiyear Tariff ("MYT") Regulations at the end of respective tariff period.

(iii) In respect of Kawai TPP

In the matter relating to shortfall in availability of domestic linkage coal, the Hon'ble Supreme Court vide its order dated August 31, 2020 has admitted all tariff compensation claims for additional coal costs incurred for power generation and the Company continues to realise the claim amount towards compensation.

During the financial year 2023-24, Rajasthan Urja Vikas and IT Services Limited ("RUVITL") (formerly known as Rajasthan Urja Vikas Nigam Limited) had filed a fresh petition before Rajasthan Electricity Regulatory Commission ("RERC") primarily challenging the methodology and operating parameters considered while arriving at the tariff compensation claim for additional coal cost incurred for power generation by the Company which had earlier been settled by RUVITL in March, 2022 based on the Hon'ble Supreme Court order dated August 31, 2020. The RERC vide its order dated September 1, 2023 dismissed the petition of RUVITL. RUVITL had preferred an appeal with APTEL in the matter, which is pending adjudication. The Company continues to recognise the revenue based on principle as approved in the order passed by the Hon'ble Supreme court.

Discoms have sought certain information to validate such claims. Pending final resolution of the matter, Haryana Discoms continue to pay 50% of the claims made by the Company from June 2023 till date. The Company expects a favorable outcome in the matter and has accordingly recognised revenues of ₹ 599.03 crore during the year ended March 31, 2026, which has been realized as well.

v) Revenue from operations (including amounts disclosed separately elsewhere in other notes) includes following amounts pertaining to earlier years, based on the orders received from various regulatory authorities such as MERC / CERC, APTEL, the Hon'ble Supreme Court and reconciliation with Discoms relating to various claims towards change in law events, carrying cost thereon and delayed payment interest.

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue from Operations	459.07	1,700.28
Total	**459.07**	**1,700.28**

vi) Godda thermal power plant ("Godda TPP"), is having a long-term Power purchase agreement (PPA) with Bangladesh Power Development Board ("BPDB") for supply of power from its 1600 MW thermal power station.

Since inception of the said PPA, Godda TPP has been supplying power and raising monthly invoice in compliance with PPA and Godda TPP has been receiving payments on a regular basis. The Company has recovered a significant amount from BPDB during the year ended March 31, 2026 including late payment surcharge. The management is confident of recovering the balance receivables and does not expect any adverse outcome in the matter. Pursuant to the Company's request, Singapore International Arbitration Centre has selected and appointed an expert to resolve certain matters pending in reconciliation. Both the Company and BPDB have nominated their representatives for interaction with the Expert. Subsequently, the Company has signed appointment agreement with the Expert.

vii) For transaction with related parties, refer note 75.

ii) Includes interest income of ₹ 457.53 crore (Previous year ₹ 444.84 crore) on fixed deposits / margin money with banks and ₹ 3.09 crore (Previous year ₹ 21.39 crore) on Income Tax refunds.

iii) In respect of the Company's Udupi Thermal Power Plant ("Udupi TPP"), CERC, vide its order dated January 7, 2026, allowed the Company's petition for recovery of carrying cost on account of change in tariff and delayed payment surcharge on the carrying cost claim. Accordingly, the Company has recognised carrying cost / LPS of ₹ 1,007.31 crore during the current year, which has been realized subsequently.

The Power Company of Karnataka Limited (PCKL) and Karnataka Escom's have filed an appeal before APTEL against the said order. The Company does not expect any adverse outcome in the matter.

iv) Includes income from mutual fund of ₹ 44.32 crore (Previous year - ₹ 97.24 crore) and income from Commercial Paper/ Certificate of Deposit of ₹ 3.74 crore (Previous year - ₹ Nil).

v) Gain on Sale of Investment mainly includes gain on sale of Government Securities.

vi) Miscellaneous income mainly includes income from water charges of ₹ 83.69 crore (Previous year ₹ 52.31 crore) and refund from government authorities of ₹ 563.66 crore (pertaining to earlier periods) (Previous year ₹ 170.19 crore).

plan submitted by the Company for acquisition of Lanco Amarkantak Power Limited ("LAPL"), a Company undergoing Corporate Insolvency Resolution Process ("CIRP") under the Insolvency and Bankruptcy Code. LAPL had capacity of 600 MW (2x300 MW) coal fired power plant and is also setting up 1,320 MW (2x660 MW) coal fired power plant in the state of Chhattisgarh. LAPL has been acquired by the Company w.e.f. September 6, 2024 on fulfillment of conditions precedent as per the NCLT order and on infusion of agreed amount of equity share capital of ₹ 1.00 crore along with upfront payment of ₹ 4,101.00 crore to its lenders. The transaction has been accounted in accordance with Ind AS 103 "Business Combinations" w.e.f. September 1, 2024 using practical expedient. Subsequent to the acquisition, the name of LAPL has been changed to Korba Power Limited ("KPL").

(b) Acquisition of Coastal Energen Private Limited ("CEPL")

In September 2024, Coastal Energen Private Limited ("CEPL"), having capacity of 1,200 MW (2x600 MW) coal fired power plant in the state of Tamil Nadu was acquired by a Consortium, including the Company being a part of the Consortium. Further, the approved resolution plan, also included the amalgamation of CEPL with Moxie Power Generation Limited ("MPGL"), a Special Purpose Vehicle ("SPV") incorporated by the Consortium, in which the Company holds 49% equity stake. On fulfillment of conditions precedent as per the NCLT order, the SPV has made upfront payment of ₹ 3,335.52 crore to the financial and operational creditors and CEPL has been amalgamated with MPGL as per NCLT order w.e.f. August 31, 2024. The Company, having de-facto control over operations of MPGL, has accounted for the same under Ind AS 110 as subsidiary and residual stake of 51% has been reflected as non-controlling interest.

Further, upon appeal filled by the erstwhile director of CEPL, National Company Law Appellate Tribunal ("NCLAT") vide its order dated September 6, 2024, had instructed that for the time being the status quo to be maintained and resolution professional will continue to operate the plant. In response to the petition filed by the Company against the said NCLAT order, the Hon'ble Supreme Court ("SC") vide its order dated September 12, 2024, had ordered that status quo, as was operating when the NCLAT order was passed on September 6, 2024, shall continue to remain in operation until the matter is disposed of by the NCLAT.

crore in consolidated financial statements of Adani Power Limited.

The above business combinations has been undertaken to strategically expand the Group's operational footprint. The acquisition is expected to generate operational synergies and long-term value through enhanced scale.

The fair value of the identifiable assets and liabilities of acquisition date were as under :

Notes :

i) There are no liabilities or outstanding payments due to vendors, contractors, counter parties under any of the contract except as disclosed above.

ii) As at acquisition date, there are no contingent liabilities.

iii) Gross contractual value and fair value of trade receivable is same and no ECL had been accounted related to trade receivable.

Total Income	742.49	1,587.34	748.94	2.08
(Loss) / Profit for the year	63.96	(487.53)	84.04	1.12

Transaction cost incurred for acquisition of KPL and CEPL recognised in the statement of profit and loss for the year ended March 31, 2025 as follows :

(₹ In crore)

Particulars	KPL	CEPL
Legal and Profession Expenses	29.68	28.69
Total Transaction cost	**29.68**	**28.69**

(e) Acquisition of Mirzapur Thermal Energy U.P. Private Limited ("MTEUPL")

The Company has been allotted 50,00,000 equity shares of ₹ 10 each by Mirzapur Thermal Energy U.P. Private Limited ("MTEUPL"), a subsidiary of Adani Infra (India) Limited ("AIIL"), on preferential basis resulting in a 99.80 % equity stake in MTEUPL. Consequent to the allotment of equity shares, MTEUPL has become a subsidiary of the Company. Subsequently, the Company has acquired remaining equity stake in MTEUPL from AIIL and MTEUPL became wholly owned subsidiary of the Company with effect from June 5, 2024. MTEUPL is engaged in infrastructure development activities and is yet to commence commercial activities. Accordingly the same is accounted for as asset acquisition.

(f) Acquisition of Anuppur Thermal Energy (MP) Private Limited ("ATEMPL")

The Company has been allotted 8,00,00,000 equity shares of ₹ 10 each at ₹ 24.90 per equity share (as per valuation report received from a registered valuer) by ATEMPL, a subsidiary of Adani Infra (India) Limited ("AIIL"), on preferential basis resulting in a 94.40 % equity stake in ATEMPL. Consequent to the allotment of equity shares, ATEMPL has become a subsidiary of the Company. Subsequently, the Company has acquired remaining equity stake in ATEMPL from AIIL and ATEMPL became wholly owned subsidiary of the Company with effect from October 4, 2024. ATEMPL is engaged in infrastructure development activities and is yet to commence commercial activities. Accordingly the same is accounted for as asset acquisition.

f.	Additional Penalty towards Water Charges (refer note 5 below)	173.90	173.90
Total		**707.26**	**1,140.66**

Notes:

1) (a) In Case of Raipur TPP, The Ministry of Power, Government of India vide letter dated September 8, 2011 had granted Provisional Mega Power Status Certificate under the Mega Power Policy for construction of its 1,370 MW Thermal based Power Plant. In terms of the same, the Company has availed exemptions of duty of customs and excise duty upon submission of bank guarantees worth ₹ 960.01 crore and pledge of margin money deposits of ₹ 59.67 crore. The grant of final Mega power status of Raipur TPP is dependent upon plant achieving tie up under long term Power Purchase Agreements (PPAs). During the current year, Raipur TPP was able to achieve tying-up 100% of its installed capacity under long-term Power Purchase Agreements. Ministry of Power vide its letter dated December 19, 2024 and letter dated April 10, 2026, has granted Final Mega Power Certificate. Accordingly, Raipur TPP is eligible for Mega Power benefits availed in form of exemption from customs and excise duty.

(b) In case of Raipur TPP, the Company had entered into a bulk power transmission agreement ('BPTA') with Power Grid Corporation of India Limited ('PGCIL') dated March 31, 2010 as per which the Company was granted Long term Access ('LTA') of 816 MW. However, owing to non-availability of PPA, which as per management is beyond the control of the Company, Raipur TPP was not in a position to utilise the LTA and has accordingly sought for surrender of the LTA, for which PGCIL has raised demand of ₹ 154.50 crore towards relinquishment charges on the Company. However, the said claim will be subject to the outcome of the petition dated September 7, 2020 filed by the Company before the APTEL. Presently, the Company has taken legal opinion in the matter as per which there are force majure events and other factors as per which it is not liable to pay charges.

2) The custom duty demands amounting to ₹ 248.10 crore and ₹ 3.60 crore at Udupi TPP and Tiroda TPP respectively, pertaining to Coal Classification matter is being contested at Customs, Excise and Service Tax Appellate Tribunal ("CESTAT") pertaining to period March 2012 to February 2013.

The Company has contested the said show cause notice. Further, the management is of the view that such duties on raw material are eligible to be made good to Mundra TPP under the PPA with Discoms or are refundable from the Authorities. Hence, the Company has not considered this as contingent liability.

iii) The Group has assessed that it is only possible, but not probable, that outflow of economic resources will be required in respect of above matters.

(b) Commitments :

(₹ In crore)

Particulars	As at March 31, 2026	As at March 31, 2025
Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances)	78,566.81	40,126.16
Total	**78,566.81**	**40,126.16**

Note:

Capital commitment mainly includes open purchase order of ₹ 76,553.07 crore (net of capital advances) (Previous year - ₹ 38,701.68 crore) pertaining to expansion projects at Raipur TPP, Raigarh TPP, Kawai TPP, MEL and KPL and greenfield projects in Assam TPP, Bihar TPP, MTEUPL and ATEMPL.

Other Commitments:

(i) The Company has given a commitment to lenders of Mahan Energen Limited ("MEL") that it will not transfer its 49% equity holding in MEL outside the Adani Power Group, except with the prior approval of lenders.

(ii) The Company and Druk Green Power Corp. Ltd. ("DGPC"), Bhutan's state-owned utility, has signed the shareholders agreement (SHA) and have jointly incorporated a new entity (with 49:51 shareholding respectively) for setting up a 570 MW hydroelectric project under "Wangchhu Hydroelectric Power Limited" ("WHPL") in Bhutan. During the current year, the Company has invested ₹ 24.50 crore in equity shares of said Joint venture and total outstanding commitments related to this SHA as at March 31, 2026 is ₹ 24.50 crore.

(ii) Classification of Lease Liabilities:

(₹ In crore)

Particulars	As at March 31, 2026	As at March 31, 2025
Current Lease Liabilities	65.48	65.95
Non-current Lease Liabilities	1,049.27	1,094.04

(iii) Disclosure of expenses related to Lease:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Interest on lease liabilities (Net of capitalisation of ₹ 77.65 crore (Previous year ₹ 27.30 crore)	19.17	18.55
Depreciation expense on Right-of-use assets (Net of capitalisation of ₹ 26.64 crore (Previous year ₹ 17.41 crore)	56.16	44.53
Expense Related to Short Term Leases and Leases of Low Value	12.32	13.94

(iv) Amount recognised in statement of Cash Flows:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Payment towards principal portion of lease liabilities	6.69	23.28
Payment towards Interest portion of lease liabilities	66.84	45.85

The Company also had non-cash additions to right-of-use assets and liabilities of ₹ 28.28 crore (previous year ₹ 1,070.42 crore) on account of new leases and acquisition of subsidiaries during the year.

(v) The additions to the Rights-of-use asset during the year and its carrying value - refer note 4.2

The Company through erstwhile subsidiary, Raipur Energen Limited ("REL") had incurred cost of ₹ 55.57 crore and ₹ 30.75 crore towards development of Talabira Coal mine and Ganeshpura Coal mine, respectively in the earlier years.

In the above matter, earlier the Company had filed two writ petitions with Hon'ble Delhi High Court requesting surrender of the said mines in view of Union of India's ("UoI") notification dated April 16, 2015 stating capping of the fixed / capacity charges and also requested to refund the costs incurred along with the release of bid security. The Hon'ble Delhi High Court vide its single order dated April 15, 2019 dismissed the petitions on the ground of delay in filling of writ petitions. Consequently, the Company filed petitions before Hon'ble Supreme Court to set aside the order of the Hon'ble Delhi High Court. Pending adjudication of the petitions, Hon'ble Supreme Court directed UoI and others vide its order dated May 30, 2019 that no coercive action to be taken in these matters.

The management expects favourable resolution of these matters and is reasonably confident to realise the entire cost spent towards these coal mines as compensation in the subsequent periods.

However, the matter has been pending for long period of time, the group based on prudence principles has fully provided the amount in the books.

50 Provision for obligation incidental to land acquisition

(i) The following is the movement in Provision for obligation incidental to land acquisition :

(₹ In crore)

Particulars	As at March 31, 2026	As at March 31, 2025
Opening Balance	112.15	72.89
Less: Utilised during the year	(11.84)	(9.32)
Add: Charged in the statement of profit and loss	16.03	6.72
Capitalised during the year	24.87	41.86
Closing Balance (refer note 27 and 35)	**141.21**	**112.15**

given to the Nominated Authority. The Nominated Authority concluded the fresh e-auction of Jitpur Coal Block on September 13, 2022. Pursuant to this, the Coal Mines Development and Production Agreement ("CMDPA") has been signed between the new bidder and the Nominated Authority, Ministry of Coal on October 13, 2022.

The Nominated Authority has issued the Final Compensation Order dated November 13, 2024. The Company has received ₹ 32.70 crore and is confident of recovering the remaining amount.

52 The Government of India conducted bidding for allocation of coal blocks, under the coal block auction process whereby the MEL acquired the rights of Tokisud Coal Block (in the state of Jharkhand) on March 18, 2015. Subsequently, in the month of April 2015, by way of a notification, Ministry of Power put cap on the fixed/ capacity charges due to which MEL had filed a writ petition in the High Court of Delhi for impugning the above referred notification and also offered to return the said coal block to the Government of India against return of the performance security in the form of Bank Guarantee of ₹ 261.76 crore provided by MEL and moneys paid, without any penalty.

However, Hon'ble High Court vide its judgement dated April 15, 2019 dismissed the petition of MEL. Subsequently, MEL has filed Special Leave Petition (SLP) before the Hon'ble Supreme Court against the order of the Hon'ble High Court. Meanwhile, the bank guarantee of ₹ 261.76 crore had been invoked by the Nominated Authority.

The Union Ministry of Coal has re-allocated the said coal block to National Mineral Development Corporation (NMDC) for commercial mining. MEL had incurred a total cost of ₹ 491.62 crore towards development of tokisud coal mine. Nominated authority vide order dated March 16, 2022 determined ₹ 163.23 crore being the total compensation payable by successful allottee (NMDC) to MEL. The said amount has been received during the year ended March 31, 2023. Due to the pendency of the matter in Supreme Court, , MEL had fully provided for the balance receivable of ₹ 328.41 crore in earlier years.

53 i) The National Green Tribunal ("NGT") in a matter relating to non-compliance of environmental norms relating to Udupi thermal power plant ("Udupi TPP") directed the Company vide its order dated March 14, 2019, to make payment of ₹ 5.00 crore as an interim environmental compensation to Central Pollution Control Board ("CPCB").

Supreme Court for further resolution of issue. The Company has also approached Hon'ble Supreme Court to obtain necessary directions which would ensure continuous operations of the Company, since its operations came to halt fully (for 7 days) after supply of coal being stopped by NCL.

Hon'ble Supreme Court vide its order dated July 1, 2019 has ordered to maintain status quo i.e. permitting the transportation of coal by road from NCL till the further order. Pending the decision of Hon'ble Supreme Court, the Company is presently getting the supply of coal through road for its operations of generation of electricity.

54 On March 31, 2026, the Company has determined the recoverable amounts of all its thermal power plants over their useful lives based on the Cash Generating Units ("CGUs") identified, as required under Indian Accounting Standards ("Ind AS") 36 "Impairment of Assets", based on the estimates relating to tariff, demand for power, operational performance of the plants, life extension plans, market prices of coal and other fuels, exchange variations, inflation, terminal value, climate change impact, etc. which are considered reasonable by the Management. On a careful evaluation of the aforesaid factors, the Management of the Company has concluded that the recoverable value of all the thermal power plants is higher than their carrying amounts including goodwill assigned to each CGU.

On a careful evaluation of the aforesaid factors, the Management of the Company has concluded that the recoverable value of such CGUs individually is higher than their respective carrying amounts as at March 31, 2026. However, if these estimates and assumptions were to change in future, there could be corresponding impact on the recoverable amounts of the Plants.

Particulars		Amount	Foreign Currency (in Millions)	Amount	Foreign Currency (in Millions)
1.	Import Creditors	(744.07)	USD (78.46)	(395.05)	USD (46.22)

Exchange rates used for conversion of foreign currency exposure :

Particulars	As at March 31, 2026	As at March 31, 2025
USD	94.84	85.48
EUR	109.00	92.09
BDT	0.77	0.70
GBP	125.51	110.70
CNH	13.71	11.75

(Figures below ₹ 50,000 are denominated with *)

rates relates primarily to the part of Group's debt obligations with floating interest rates.

The Group manages its interest rate risk by having a mixed portfolio of fixed and variable rate loans and borrowings. Significant portion of Group's borrowings is in ₹ and are borrowed at fluctuating interest rates.

The sensitivity analysis have been carried out based on the exposure to interest rates for instruments not hedged against interest rate fluctuation at the end of the reporting period. The said analysis has been carried out on the amount of floating rate liabilities outstanding at the end of the reporting period. The year end balances are not necessarily representative of the average debt outstanding during the year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

In case of fluctuation in interest rates by 50 basis points on the exposure of borrowings (having fluctuating rates i.e. exposed to changes in rates) of ₹ 36,812.96 crore as on March 31, 2026 and ₹ 28,784.49 crore as on March 31, 2025 respectively and if all other variables were held constant, the Group's profit or loss for the year would increase or decrease as follows :

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Impact on Profit or Loss before tax for the year (Net of amounts capitalised under Property, Plant and Equipment)	184.06	143.92
Impact on Equity	137.74	107.70

The Group intends to hold investment in liquid mutual fund for relatively shorter period and hence, interest rate risk is not material to that extent.

Impact on Equity	5.79	5.45

c) Commodity price risk

The Group's exposure to commodity price is affected by a number of factors including the effect of regulation, the price volatility of coal prices in the market, including imported coal, contract size and length, market condition etc. which is moderated by optimising the procurement under fuel supply agreement and getting compensated under long term power purchase agreements and change in law regulation. In case, the Group anticipates non-availability of coal, the same is mitigated by sourcing imported coal in advance to meet the demand. Its operating / trading activities require the on-going purchase for continuous supply of coal and other commodities. Therefore the Group monitors its purchases closely to optimise the procurement cost.

d) Equity price risk

The Group does not have equity price risk.

(ii) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

a) Trade Receivables

The Group is having majority of receivables from State Electricity Boards which are Government undertakings and have interest clause on delayed payments and hence, they are secured from credit losses in the future. Receivables are secured by letter of credit amounting to ₹ 3,036.59 crore (Previous year ₹ 4,040.70 crore). The Group holds sovereign guarantee of Bangladesh Government, for the entire receivables under Power purchase agreement with BPDB.

the cash returns on investments while ensuring sufficient liquidity to meet its liabilities; or lent to group entities at market determined interest rate.

Trade credits are included in the Group's supplier finance arrangement. Refer note 30 for further disclosures about the arrangement.

The Group expects to generate positive cash flows from operations in order to meet its external financial liabilities as they fall due and also consistently monitors funding options available in the debt and capital market with a view to maintain financial flexibility.

Maturity profile of financial liabilities :

The table below has been drawn up based on the undiscounted contractual maturities of the financial liabilities including interest that will be paid on those liabilities upto the maturity of the instruments.

(₹ In crore)

As at March 31, 2026	Carrying Amount	Less than 1 year	1 to 5 years	More than 5 years	Total
Fixed rate Borrowings (refer note 24 and 30)	16,170.58	9,155.68	8,712.02	714.70	18,582.40
Floating rate Borrowings (refer note 24 and 30)	37,384.96	5,361.81	26,848.54	23,317.71	55,528.06

Particulars	As at March 31, 2026	As at March 31, 2025	As at April 1, 2024
Trade Receivables	11,791.37	13,022.07	11,677.48
Gross Contract liabilities including refund liabilities	368.75	307.07	203.10

Set out below is the amount of revenue recognised from :

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Amount included in contract liabilities at the beginning of the year	54.79	4.89

Reconciliation of the amount of revenue recognised in the statement of profit and loss with the contracted price:

(₹ In crore)

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Revenue as per contracted price (excluding other operating revenue)	54,414.63	56,290.17
Adjustments		
Discount on prompt payment	(235.99)	(131.25)
Discount under Shakti Scheme	(26.48)	(27.10)
Revenue from contract with customers (refer note 37)	**54,152.16**	**56,131.82**

Particulars	Unbilled	Not due	from due date of Payment					Total
			Less than 6 Months	6 Months - 1 year	1-2 years	2-3 years	More than 3 years	
Undisputed Trade receivable - Considered Good	2,675.94	3,795.20	5,239.14	627.62	216.42	98.03	349.37	13,001.72
Disputed Trade receivable - Considered Good (refer note (iii) below)	-	-	-	-	-	-	20.35	20.35
Total	**2,675.94**	**3,795.20**	**5,239.14**	**627.62**	**216.42**	**98.03**	**369.72**	**13,022.07**

Notes:

i) The above ageing has been calculated based on due date as per terms of agreement. In case where due date is not provided, date of transaction is considered.

ii) Trade receivable includes certain balances which are under reconciliation / settlement with Discoms for payment / closure.

iii) In respect of the Company's 40 MW solar power plant at Bitta, in the matter of alleged excess energy injected in terms of the PPA, GUVNL has withheld ₹ 72.10 crore against power supply dues during the year ended March 31, 2022. Gujarat Electricity Regulatory Commission ("GERC") vide its order dated November 3, 2022 directed GUVNL to make payment of the amount withheld within three months from the date of order along with late payment surcharge as per PPA. However, GUVNL has filed an appeal with APTEL against the said order of GERC and the matter is pending adjudication. The Company, as per interim order of APTEL dated February 28, 2023, has received ₹ 51.75 crore being 75% of the withheld amount subject to outcome of appeal with APTEL. The management, based on GERC order, expects favorable outcome in the matter.

iv) In respect of receivables from GUVNL against Mundra TPP, refer note 37(iv)(b).

v) For disaggregation of Revenue from Contracts with Customers , refer note 64.

vi) Also refer note 3(vii).

(ii) Total Capital is defined as Total Equity.

The Group believes that it will able to meet all its current liabilities and interest obligations in timely manner.

The Group's capital management ensure that it meets financial covenants attached to the interest bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to levy penal interest and immediately call all borrowings as per terms of sanction. There have been no breaches in the financial covenants of any interest bearing loans and borrowings in the current year. No changes were made in the objectives, policies or processes for managing capital by the Group during the year.

59 Fair Value Measurement :

a) The carrying value of financial instruments by categories as of March 31, 2026 is as follows :

(₹ In crore)

Particulars	Fair Value through other Comprehensive income	Fair Value through profit or loss	Amortised cost	Total

Liabilities					
Derivative Instruments	March 31, 2025	-	29.72	-	29.72
Total		**-**	**29.72**	**-**	**29.72**

The fair value of the financial assets and financial liabilities included in the level 2 categories above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counter parties. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rates curves of the underlying derivative.

Fair values of Investment Property is determined based on an annual valuation performed by an accredited external independent valuer who holds a recognised and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

The fair values of investments in Mutual Funds / Commercial Papers / Certificate of Deposits / Alternative Investment Fund units is based on the net asset value ('NAV').

There have been no transfer between Levels during the year ended March 31, 2026 and March 31, 2025.

Re-measurement (or Actuarial) (gain) / loss arising from:		
Change in demographic assumptions	(3.02)	4.16
Change in financial assumptions	(28.13)	16.24
Experience variance (i.e. Actual experience vs assumptions)	(4.22)	(33.36)
Present Value of Defined Benefits Obligation at the end of the year	**236.13**	**212.63**
ii. Reconciliation of Opening and Closing Balances of the Fair value of Plan Assets		
Fair Value of Plan assets at the beginning of the year	66.06	20.85
Addition on account of business combinations / asset acquisitions	-	46.75
Investment Income	4.43	1.50
Benefits paid	(2.55)	(3.04)
Fair Value of Plan assets at the end of the year	**67.94**	**66.06**
iii. Reconciliation of the Present value of defined benefit obligation and Fair value of plan assets		
Present Value of Defined Benefit Obligations at the end of the year	(236.13)	(212.63)
Fair Value of Plan assets at the end of the year	67.94	66.06
Net (Liability) recognised in balance sheet as at the end of the year	**(168.19)**	**(146.57)**

Change in demographic assumptions	(3.02)	4.16
Change in financial assumptions	(28.13)	16.24
Experience variance (i.e. Actual experience vs assumptions)	(4.22)	(33.36)
Components of defined benefit costs recognised in other comprehensive (income)	**(35.37)**	**(12.96)**

vii. Actuarial Assumptions

Particulars	As at March 31, 2026	As at March 31, 2025
Discount Rate (per annum)	6.70%	6.90%
Expected annual Increase in Salary Cost	8.00%	10.00%
Attrition / Withdrawal rate (per annum)	11.16%	9.67%

Mortality Rates as given under Indian Assured Lives Mortality (2012-14) Ultimate Retirement Age 58 Years.

viii. Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below :

(₹ In crore)

Particulars	As at March 31, 2026	As at March 31, 2025
Defined Benefit Obligation (Base)	236.13	212.63

year (subject to sufficiency of funds under the policy). The policy thus, mitigates the liquidity risk. However, being a cash accumulation plan, the duration of assets is shorter compared to the duration of liabilities. Thus, the Group is exposed to movement in interest rate, which can result in a increase in liability without corresponding increase in the funded asset as applicable. Gratuity plan is unfunded in Adani Power Dahej Limited, Pench Thermal Energy (MP) Limited, Orissa Thermal Energy Limited, Anuppur Thermal Energy (MP) Private Limited, Mirzapur Thermal Energy (UP) Private Limited, Korba Power Limited and Vidarbha Industries Power Limited.

x. Effect of Plan on Entity's Future Cash Flows

a) Funding arrangements and Funding Policy

The Company, MEL and MPGL have purchased insurance policies to provide for payment of gratuity to the employees. Every year, the insurance Company carries out a funding valuation based on the latest employee data provided by these Companies.

b) Maturity Profile of Defined Benefit Obligation

Weighted average duration (based on discounted cash flows) - 7 years. (Previous year - 6 years)

(₹ In crore)

Expected cash flows in future (valued on undiscounted basis):	As at March 31, 2026	As at March 31, 2025
1 year	52.65	39.82
2 to 5 years	123.86	96.87
6 to 10 years	83.42	78.57
More than 10 years	91.54	148.76

(c) Compensated Absences

The actuarial liability for compensated absences as at the year ended March 31, 2026 is ₹ 92.59 crore. (As at March 31, 2025 ₹ 100.26 crore)

62 Based on the information available with the Company, there has not had any transaction with struck off companies

However, there are certain struck off companies as follows who are holding equity shares of the Company (refer note 20) :

Name of the struck off company	Nature of transaction	Numbers of Shares held

Note :

Revenue from operations comprises 69% (Previous year 66%) from top four customers.

66 During the previous year, the MEL had issued 92,05,000 nos. of 8.70% Compulsorily Redeemable Preference shares of ₹ 10 each amounting to ₹ 9.21 crore, which shall be redeemed within a maximum period of 20 years from the date of allotment of preference shares. The Board of Directors of the MEL has proposed dividend of ₹ 0.80 crore for the FY 2025-26, which is subject to approval of the shareholders.

67 No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other persons or entities, including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Company (Ultimate Beneficiaries). Further, No funds have been received by the Group from any parties (Funding Parties) with the understanding that the Group shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the funding party or provide any guarantee, security or the like on behalf thereof.

68 As on November 21, 2025, the Government of India notified four Labour Codes effective immediately replacing the existing 29 labour laws.

The impact of implementation of the Labour Codes has resulted in an increase of ₹ 54.94 crore in the liabilities for defined benefit obligation. The amount has been measured and recognised based on management assessment of the impact on defined benefit obligation on such implementation and net incremental liability has been recognised as an employee benefit expenses during the year ended March 31, 2026. The Group continues to monitor the finalization of Central and State Rules, as well as Government clarification on other aspects of the Labour Codes, and will recognize the consequential impact, if any, based on such developments.

69 In the financial year 2022-23, a short seller report ("SSR") was published having certain allegations on some of the Adani Group Companies, including Adani Power Limited ("the Holding Company") and its subsidiaries.

The Hon'ble Supreme Court of India ("SC") by its order dated January 3, 2024, disposed of all matters of appeal relating to the allegations in the SSR and in various petitions including those relating to separate independent investigations. During the current year, SEBI vide its order dated September 18, 2025, concluded two Show Cause service of US SEC on behalf of such director, without accepting the jurisdiction of EDNY and reserving all rights and defences available to them. Subsequently, the legal counsels had filed letter with EDNY court and sought pre-motion conference in the matter including grounds for dismissal of the US SEC's civil complaint based on all defences including as to jurisdiction and merits of the matters. As at reporting date, the matter is pending to be heard by EDNY court.

Having regard to the status of the above-mentioned matters as at reporting date, and the fact that the matters stated above do not pertain to the Company, there were no impact to the Company as at year ended March 31, 2025. There are no changes to the above conclusions as at and for the year ended March 31, 2026.

71 The Board of Directors of the Company at its meeting held on October 30, 2025, approved the scheme of amalgamation of wholly owned subsidiaries of Adani Power Limited ("APL"), viz. (i) Adani Power Dahej Limited ("APDL"); (ii) Kutchh Power Generation Limited ("KPGL") (a step down wholly owned subsidiary of APL, as 100% equity shares of KPGL are held by APDL); (iii) Resurgent Fuel Management Limited ("RFML"); (iv) Mahan Fuel Management Limited ("MFML"); (v) Orissa Thermal Energy Limited ("OTEL"); (vi) Korba Power Limited ("KPL"); (vii) Anuppur Thermal Energy (MP) Private Limited ("ATEMPPL"); (viii) Mirzapur Thermal Energy (UP) Private Limited ("MTEUPPL"); (ix) Emberiza Infra Park Limited ("EIPL"); and (x) Vidarbha Industries Power Limited ("VIPL") with APL, with appointed date of April 1, 2025, in terms of the provisions of sections 230 to 232 and other applicable provisions of the Companies Act, 2013. During the year ended March 31, 2026, the Company has filed the scheme with respective NCLTs. The Scheme will be effective on receipt of regulatory approvals. Accordingly, impact of the said scheme has not been considered in these consolidated financial statements.

72 During the year, the Company has recognized transmission expenses of ₹ 137.13 crore based on true -up order pertaining to earlier years.

financial year or during the comparative year.

i) The amount outstanding are unsecured and will be settled in cash or kind.

ii) Material related party transactions and closing balances are disclosed seperately.

iii) **Terms and conditions of transactions with related parties**

a. **Sale and Purchase of Power**

Group undertake sale and purchase of power with Powerpulse Trading Solutions Limited (PTSL), a subsidiary of Adani Energy Solutions Limited (AESL) on energy exchanges and under bilateral agreements. The sale and purchase of power to PTSL are executed at market discovered prices. PTSL charges nominal trading margin for traded quantum which is within the range provided under CERC regulation. Accordingly, the transaction is on an arm's length basis and in the ordinary course of business.

b. **Receiving Project Management Consultancy (PMC) service**

Group is availing PMC service from Adani Infra (India) Limited (AIIL) for its various expansion projects. The PMC fees have been benchmarked as per market rates. Accordingly, the transaction is on an arm's length basis and in the ordinary course of business.

iv) Details in respect of transactions with related parties in terms of Regulation 23 of SEBI (LODR) Regulation, 2015 is also disclosed above.

76 During the previous year, MEL had entered into a 20-year long-term Power Purchase Agreement ("PPA") for 500 MW with Reliance Industries Limited ("RIL"), under the Captive User policy as defined under the Electricity Rules, 2005. One unit of 600 MW capacity, out of its aggregate operating and upcoming capacity of 2800 MW, will be designated as the Captive Unit for this purpose. In order to avail the benefit of this policy, MEL and RIL have agreed for 26% ownership stake of RIL in the Captive Unit in proportion to the total capacity of the power plant. Accordingly RIL invested 5,00,00,000 Class B equity shares of MEL, aggregating to ₹ 50.00 crore for the proportionate ownership stake.

i. Wilful defaulter

ii. Utilization of borrowed fund and share premium

iii. Discrepancy in utilization of borrowings

iv. Discrepancy in information submitted towards borrowings obtained on the basis of security of current assets

5. There is no income surrendered or disclosed as income during the current or previous year in the tax assessments under the Income Tax Act, 1961, that has not been recorded in the books of account.

79 According to the management's evaluation of events subsequent to the balance sheet date, there were no significant adjusting events that occurred other than those disclosed / given effect to, in these consolidated financial statements as of April 29, 2026.

Brief profile of Mr. Anil Sardana –

Prior to joining Adani Group, Mr Sardana was the CEO & Managing Director of Tata Power for over seven years. Prior to that he was the Managing Director & CEO of Tata Teleservices, from August 2007 to January 2011.

He was also the founding CEO & Managing Director of Tata Power Delhi Distribution Limited (TPDDL/ NDPL) having taken over as founding chief when the company was set up in 2002 to takeover from state owned Discom. Mr Sardana is credited with having spearheaded the dramatic turnaround of Tata Power Delhi Distribution, having achieved benchmark performance standards-including world record Reduction of Aggregate Technical and Commercials Losses and making discoverable changes in deliverables to customers. Tata Power Delhi Distribution was also bestowed the prestigious 'Silver National Award for Meritorious Performance' for two consecutive years 2004-2005 and 20052006 in Power Distribution by the Prime Minister.

Mr. Sardana spearheaded two major M&A's namely with NTT DOCOMO of Japan and a reverse equity swap & merger to create most valuable TelecomTower Infrastructure company VIOM with the highest tenancy in the industry. Mr. Anil Sardana led the transition of

to re-appoint Mr. Anil Sardana as Managing Director of the Company.

Mr. Sardana is not disqualified from being appointed as Managing Director in terms of Section 164 of the Act and has given his consent to act as Director.

Brief resume and other details of Mr. Sardana are provided in annexure to this Notice pursuant to the provision of SEBI Listing Regulations and Secretarial Standard on General Meetings ("SS-2"), issued by the Institute of Company Secretaries of India.

The Board recommends passing of the Special Resolution as set out in Item nos. 5 of this Notice, for approval by the Members of the Company.

Mr. Sardana is deemed to be interested in the said resolution as it relates to his appointment.

None of other the Directors, Key Managerial Personnel of the Company and their respective relatives, are in any way, concerned or interested, financially or otherwise, if any, in the proposed Special Resolution, as set out in Item no. 5 of this Notice.

The above may be treated as written memorandum setting out the terms of appointment of Mr. Anil Sardana under section 190 of the Companies Act, 2013.

any, in the proposed Ordinary Resolution, as set out in Item no. 6 of this Notice.

Consolidated Turnover of listed entity	Material RPT Thresholds
Upto ₹ 20,000 crore	10% of the annual consolidated turnover of listed entity
More than ₹ 20,000 crore to ₹ 40,000 crore	₹ 2,000 crore + 5% of consolidated turnover of listed entity above ₹ 20,000 crore
More than ₹ 40,000 crore	₹ 3,000 crore + 2.5% of consolidated turnover of listed entity above ₹ 40,000 crore or ₹ 5,000 crore, whichever is lower

Based on the above table, the materiality threshold of the Company based on consolidated turnover is ₹ 3,356 crore. During the financial year 2026-27, the Company and few of its subsidiary(ies), propose to enter into certain related party transaction(s) as mentioned below, on mutually agreed terms and conditions, and the aggregate of such transaction(s), is expected to cross the applicable materiality thresholds as mentioned above. Accordingly, as per the SEBI Listing Regulations, prior approval of the Members is being sought for all such arrangements / transactions proposed to be undertaken by the Company and the subsidiaries mentioned below. All the said transactions shall be in the ordinary course of business and on an arm's length basis.

The Audit Committee of the Company (comprising of 100% Independent Directors), on the basis of relevant details provided by the management, as required under the SEBI Circular dated October 13, 2025, read with SEBI Circular dated June 26, 2025 and Section III-B of the SEBI Master Circular dated November 11, 2024, and revised Industry Standards on "Minimum Information to be provided to the Audit Committee and Shareholders for approval of Related Party Transactions" ("RPT Industry Standards"), has reviewed and approved the said transaction(s), subject to approval of the Members, while noting that such transaction shall be on arms' length basis and in the ordinary course of business and are in accordance with the Related Party Policy of the Company.

The Board recommends passing of the Ordinary Resolutions, as set out in item no. 7 to 9 of this Notice for approval by the Members of the Company.

	and other material terms and conditions of RPT.	
c	Disclosure of the fact that the Audit Committee has reviewed the certificates provided by the CEO/Managing Director/ Whole Time Director/ Manager and CFO of the Listed Entity as required under the RPT Industry Standards.	The Audit Committee has reviewed the certificates issued by the CFO and the CEO of the Company, as required under the RPT Industry Standards.
d	Disclosure that the material RPT or any material modification thereto has been approved by the Audit Committee and the Board of Directors recommends the proposed transaction to the shareholders for approval.	The material RPTs has been approved by the Audit Committee and the Board recommend the proposed transaction(s) to the Members for approval.
e	Provide web-link and QR Code, through which shareholders can access the valuation report or other reports of external party, if any, considered by Audit Committee while approving the RPT.	Not applicable
f	The Audit Committee and Board of Directors, while providing information to the shareholders, can approve redaction of commercial secrets and such other information that would affect competitive position of listed entity and affirm that in its assessment, the redacted disclosures still provide all the necessary information to the public shareholders for informed decision making.	We affirm that the Audit Committee and Board, while providing information to the Members have redacted only commercially sensitive information, and affirm that disclosures provide all the necessary information to the Members for informed decision-making. Refer below table titled as "Annexure – A".
g	Any other information that may be relevant.	No other information is considered relevant.

		sells it to distribution companies (DISCOMs) and large consumers. This trading helps optimize electricity supply and demand across regions. With the increasing focus on renewable energy, PTSL will be involved in trading renewable energy certificates (RECs) and green power, aligning with government initiatives for clean energy.
A(2)	**Relationship and ownership of the related party**	
1	Relationship between the listed entity/ subsidiary (in case of transaction involving the subsidiary) and the related party — including nature of its concern (financial or otherwise) and the following:	PTSL is an entity over which (a) one or more Key Management Personnel ("KMP") of the Company or their relatives; or (b) entity(ies) having significant influence over the Company, have significant influence / control / joint control through voting power or otherwise.
	• Shareholding of the listed entity/ subsidiary (in case of transaction involving the subsidiary), whether direct or indirect, in the related party.	Neither APL (along with VIPL and KPL) nor MEL hold any shares / securities in PTSL. The promoters / promoter group of APL (along with VIPL and KPL) and MEL indirectly hold substantial shareholding in PTSL.
	• Where the related party is a partnership firm or a sole proprietorship concern or a body corporate without share capital, then capital contribution, if any, made by the listed entity/ subsidiary (in case of transaction involving the subsidiary).	Not Applicable

	trading goods)		
	Purchase of Power	₹ 477.98 crore	₹ 112.92 crore
2	Total amount of all the transactions undertaken by the listed entity or subsidiary with the related party in the current financial year up to the quarter immediately preceding the quarter in which the approval is sought.	Nil	
3	Any default, if any, made by a related party concerning any obligation undertaken by it under a transaction or arrangement entered into with the listed entity or its subsidiary during the last financial year.	No	
A(4)	**Amount of the proposed transaction(s)**		
1	Amount of the proposed transactions being placed for approval in the meeting of the Audit Committee/ shareholders.	₹ 10,200 crore (APL standalone) ₹ 15,750 crore (considering proposed amalgamation of VIPL and KPL with APL)	₹ 4,450 crore
2	Whether the proposed transactions taken together with the transactions undertaken with the related party during the current financial year would render the proposed transaction a material RPT?	Yes	Yes

	available, provide on consolidated basis	
	Turnover on Gross basis	₹ 18,026.86 crore
	Profit After Tax	₹ 62.24 crore
	Net Worth	₹ 154.11 crore
A(5)	**Basic details of the proposed transaction**	
1	Specific type of the proposed transaction (e.g. sale of goods/services, purchase of goods/services, giving loan, borrowing etc.)	Sale and Purchase of Power
2	Details of each type of the proposed transaction	**a. Sale of Power** APL and MEL propose to sell power through PTSL, being holder of power trading license, on merchant energy exchanges and under bilateral agreement at market discovered price with nominal trading margin. **b. Purchase of Power** APL and MEL propose to procure power from alternative sources, including merchant energy exchanges, through PTSL at market discovered prices to fulfil its obligation under PPAs in case of non-availability of power in any of the APL's or MEL's plants during the year or where cheaper power is available compared to its cost of generation. PTSL shall charge a trading margin of up to [redacted]* paisa per unit for traded quantum which is within the range provided under the Central Electricity Regulatory Commission (CERC). Since the margin to be charged by PTSL will be within the range provided under CERC regulation, the transaction is considered to be on arm's length basis and in the ordinary course of business.

*Redacted

		During the term of contract, the parties may consider revision in the trading margin while ensuring that it remains within the range provided by CERC. This would be done with prior approval of the Audit Committee. If such revision leads to material modification, then requisite prior approval of shareholders will also be sought, as per applicable laws.
7	Details of the promoter(s)/ director(s) / key managerial personnel of the listed entity who have interest in the transaction, whether directly or indirectly. Explanation: Indirect interest shall mean interest held through any person over which an individual has control.	The promoters and promoter group of the Company are interested in the proposed transaction(s), as the promoters and promoter group of the Company and MEL, directly / indirectly hold substantial shareholding in PTSL, through AESL.
	a. Name of the director / KMP	Name of the Directors who are indirectly interested in the proposed transaction: • Shri Gautam S. Adani • Shri Rajesh S. Adani • Shri Anil Sardana None of the other Director/ Key Managerial Personnel is interested, whether directly or indirectly, in the proposed transaction.
	b. Shareholding of the director / KMP, whether direct or indirect, in the related party	Shri Gautam S. Adani and Shri Rajesh S. Adani, on behalf of the S. B Adani Family Trust, indirectly hold substantial shareholding in PTSL, through AESL. Shri Anil Sardana does not hold any direct or indirect shareholding in PTSL.

	advances are extended as per normal trade practice), if any, proposed to be extended to the related party in relation to the transaction, specify the following:	
	a. Amount of Trade advance	Not Applicable
	b. Tenure	Not Applicable
	c. Whether same is self-liquidating?	Not Applicable

*Redacted

	other reports of external party, if any, considered by Audit Committee while approving the RPT.	
f	The Audit Committee and Board of Directors, while providing information to the shareholders, can approve redaction of commercial secrets and such other information that would affect competitive position of listed entity and affirm that in its assessment, the redacted disclosures still provide all the necessary information to the public shareholders for informed decision making.	We affirm that the Audit Committee and Board, while providing information to the Members have redacted only commercially sensitive information and affirm that disclosures provide all necessary information to the Members for informed decision-making. g	Any other information that may be relevant.	No other information is considered relevant.

		Madhya Pradesh which are yet to be operationalised.
A(2)	**Relationship and ownership of the related party**	
1	Relationship between the listed entity/subsidiary (in case of transaction involving the subsidiary) and the related party — including nature of its concern (financial or otherwise) and the following:	MEL is a subsidiary of the APL.
	• Shareholding of the listed entity/ subsidiary (in case of transaction involving the subsidiary), whether direct or indirect, in the related party.	APL holds 94.43% shareholding in MEL.
	• Where the related party is a partnership firm or a sole proprietorship concern or a body corporate without share capital, then capital contribution, if any, made by the listed entity/subsidiary (in case of transaction involving the subsidiary).	Not Applicable
	• Shareholding of the related party, whether direct or indirect, in the listed entity/ subsidiary (in case of transaction involving the subsidiary). Explanation: Indirect shareholding shall mean shareholding held through any person, over which the listed entity/Subsidiary/ related party has control. While calculating indirect shareholding, shareholding held by relatives shall also be considered.	Nil

A(4)	**Amount of the proposed transaction(s)**	
1	Amount of the proposed transactions being placed for approval in the meeting of the Audit Committee/ shareholders.	₹ 6,790 crore (APL standalone) ₹ 6,940 crore (considering proposed amalgamation of KPL with APL)
2	Whether the proposed transactions taken together with the transactions undertaken with the related party during the current financial year would render the proposed transaction a material RPT?	Yes
3	Value of the proposed transactions as a percentage of the listed entity's annual consolidated turnover for the immediately preceding financial year	12.52% (APL standalone) 12.79% (considering proposed amalgamation of KPL with APL)
4	Value of the proposed transactions as a percentage of subsidiary's annual standalone turnover for the immediately preceding financial year (in case of a transaction involving the subsidiary, and where the listed entity is not a party to the transaction)	Not Applicable
5	Value of the proposed transactions as a percentage of the related party's annual consolidated turnover (if consolidated turnover is not available, calculation to be made on standalone turnover of related party) for the immediately preceding financial year, if available.	188.67% (APL standalone) 192.84% (considering proposed amalgamation of KPL with APL)

		Procurement of coal from Dhirauli coal mines is cost effective as compared to coal sourced from Coal India Limited/ its subsidiaries, based on the landed cost at the plants of APL and its subsidiaris e.g. Korba and Godda. A comparative analysis of the landed cost of coal for coal procured from Dhirauli Coal Mines vis à vis coal procured from Coal India subsidiaries is attached as Annexure C* and Annexure D*. APL propose to purchase coal from MEL on cost-to-cost basis. Accordingly, the proposed transaction is on an arm's length basis as per the cost-to-cost method and in the ordinary course of business. **Imported Coal** For imported coal purchase, during periods when coal is not available from their regular sources, either party may procure coal from the other under a High Sea Sale arrangement to avoid operational disruptions. Accordingly, APL and MEL propose to purchase and sell coal under a High Sea Sale arrangement at a price on CFR basis determined as per HBA (Harga Batu Acuan) or relevant index of respective country, with adjustments for prevailing market conditions, ocean freight and other charges. The said price is to be further adjusted for actual parameters such as moisture, sulphur, ash and Gross Calorific Value (GCV).

*Annexure C and Annexure D have been redacted

		C. Loan to be given and income thereon: APL propose to extend an unsecured loan facility to MEL to support MEL's capex requirements for phase II and phase III expansion plans, operational and working capital requirements. APL propose to provide funds to MEL with a nominal margin of [redacted]* per annum on APL's projected weighted average long-term rupee borrowing cost for FY2026-27. The current applicable term loan interest rate, revised with effect from March 27, 2026, is [redacted]* p.a. As the interest rate is aligned with APL's external borrowings, the proposed transaction is on an arm's length basis as per the Comparable Uncontrolled Price (CUP) method and in the ordinary course of business.
3	Tenure of the proposed transaction (tenure in number of years or months to be specified)	FY: 2026-27
4	Whether omnibus approval is being sought?	Yes
5	Value of the proposed transaction during a financial year. If the proposed transaction will be executed over more than one financial year, provide estimated break-up financial year-wise.	₹ 6,790 crore (APL standalone) ₹ 6,940 crore (considering proposed amalgamation of KPL with APL)
6	Justification as to why the RPTs proposed to be entered into are in the interest of the listed entity	Please refer to A(5)(2) above.

*Redacted

	a party for sale, purchase or supply of goods or services.	procurement. High Sea Sale arrangement between APL and MEL is undertaken to ensure uninterrupted supply to their thermal power plants. Hence, these transactions are executed only when coal is unavailable from regular sources. Accordingly, MEL was selected as the transacting party for the purchase and sale of coal. For domestic coal, considering MEL's established procurement arrangement for coal extracted from Dhirauli coal mines, along with its integrated supply framework, which enables efficient sourcing and supply of coal while minimizing supply risks and ensuring continuity of operations, MEL has been selected as the transacting party
2	Basis of determination of price.	Please refer to A(5)(2) above.
3	In case of Trade advance (of upto 365 days or such period for which such advances are extended as per normal trade practice), if any, proposed to be extended to the related party in relation to the transaction, specify the following:	
	a. Amount of Trade advance	Not Applicable
	b. Tenure	Not Applicable
	c. Whether same is self-liquidating?	Not Applicable

	its subsidiary will recover the monies in case such guarantee, surety, indemnity or comfort letter is invoked.	
3	The value of obligations undertaken by the listed entity or any of its subsidiary, for which a guarantee, surety, indemnity or comfort letter has been provided by the listed entity or its subsidiary. Additionally, any provisions required to be made in the books of account of the listed entity or any of its subsidiary shall also be specified.	The value of obligations will be restricted to the open amount of limit utilized in form Letters of Credit (LCs) and Bank Guarantees (BGs). No provision is required to be made in the books of account of APL.
C(3)	**Disclosure only in case of guarantee (including performance guarantee in nature of security/contractual commitment or which could have an impact in monetary terms on the issuer of such guarantee), surety, indemnity or comfort letter, by whatever name called, made or given by the listed entity or its subsidiary.**	
1	If guarantee, performance guarantee (in nature of security/contractual commitment or which could have an impact in monetary terms on the issuer of such guarantee), surety, indemnity or comfort letter is given in connection with the borrowing by a related party, provide latest credit rating of the related party **Note:** a. Standalone rating to be provided while option to provide structured obligation rating (SO rating) and credit enhancement rating (CE rating), if any. b. This information may be provided to the extent it is available in the public domain or as may be provided by the related party upon request.	IND AA- Stable by India Ratings and Research for MEL.

	FY 2025-26	No
	FY 2024-25	No
	FY 2023-24	No
	In addition, state the following: a) Whether the account of the related party has been classified as a non-performing asset (NPA) by any of its bankers and whether such status is currently subsisting;	No
	b) Whether the related party has been declared a "wilful defaulter" by any of its bankers and whether such status is currently subsisting;	No
	c) Whether the related party is undergoing or facing any application for commencement of an insolvency resolution process or liquidation;	No
	d) Whether the related party, not being an MSME, suffers from any of the disqualifications specified under Section 29A of the Insolvency and Bankruptcy Code, 2016.	No

	banks/NBFCs/insurance companies/ housing finance companies. (2) Disclosure shall be made of borrowings undertaken by the listed entity with a comparable maturity profile to the loan/ICD being granted by the listed entity.	
4	Proposed interest rate to be charged by listed entity or its subsidiary from the related party.	As per the existing loan agreement, loan extended to MEL is linked to APL's Term Loan interest rate plus [redacted]* basis points, with interest rate to be reset biannually on March 27 and September 27, every year
5	Maturity / due date	March 31, 2030
6	Repayment schedule & terms	On or before March 31, 2030
7	Whether secured or unsecured?	Unsecured
8	If secured, the nature of security & security coverage ratio	Not Applicable
9	The purpose for which the funds will be utilized by the ultimate beneficiary of such funds pursuant to the transaction.	To meet MEL's capex, operational and working capital requirements arising from its power generation business.

*Redacted

	b) Whether the related party has been declared a "wilful defaulter" by any of its bankers and whether such status is currently subsisting;	No
	c) Whether the related party is undergoing or facing any application for commencement of an insolvency resolution process or liquidation;	No
	d) Whether the related party, not being an MSME, suffers from any of the disqualifications specified under Section 29A of the Insolvency and Bankruptcy Code, 2016.	No
